Enrollment Report (page 22)

Dr. Arnold referred to student enrollment stating that the numbers are not absolute. The numbers will be more absolute when the state requests the enrollment report from the district in October. Dr. Arnold stated that we are approximately 100 students below the numbers from last year at this time. Good news for PV is that we have not grown at this point, however it is still early in the school year. As previously stated by Dr. Arnold, a student is not guaranteed they will attend the same elementary school for five years and he can’t guarantee that the growth will be leveled off.
