

Middle Academy

VISION OF EXCELLENCE

The Transition

FOSTERING A SENSE OF
INDEPENDENCE THROUGH
CURIOSITY, COLLABORATION, AND
CRITICAL THINKING

CENTENNIAL ACADEMY
MIDDLE ACADEMY

Middle Academy scholars will be able to...

Middle Academy scholars are full of ideas and innovation. Scholars will be able to seek out opportunities to work collaboratively and discuss ideas through academic discussions. They are able to explain and implement the process of design thinking through Project Based learning and the components of STEAM, while also maturing in their ability to solve problems and accelerate their critical thinking attitudes and skills.

Read grade level texts fluently while implementing advanced reading comprehension strategies.	Write short papers, including opinion articles, non-fiction, and narratives.	Collaborate with peers by asking questions, sharing ideas, and building on the ideas of others.
Apply the mathematical practices by mastering the four Math operations; addition, subtraction, multiplication, and division using basic algebraic functions	Interpret data and analyze mathematical relationships	Create simple equations, tables, graphs, and line plots.
Set personal and academic goals.	Foster a sense of belonging.	Develop a better sense of responsibility
