2. Describe the ‘medical’ goal of the service.
3. Indicate the result of the therapy session (student’s response).
4. Avoid discussing academic goals/issues or attendance.

Example of Service Note Detail: Assessed student’s glucose levels and delivered insulin based on glucose level and student’s lunch carb count.

MONTHLY SUMMARY (PROGRESS) NOTES:

1. Summarize (evaluate) the student’s monthly progress toward your medical/health-related goal.
2. Include any changes in medical/mental status and changes in treatment with rationale for change.
3. Service Detail (Daily) Notes and Monthly (Progress) Summary Notes must not match.

Example of Summary Note: The student participates in regular classroom activities with modifications, such as in-classroom blood glucose testing and medication administration. The student is tolerating insulin delivery well.
