Reading A-Z/Raz Kids Resources

- A wide range of high quality reading resources aligned to Massachusetts State Standards by genre are available at 29 reading levels for your child to read & listen to (teacher allows audio access through settings).
- Leveled Books can be selected & assigned by teachers for groups or individual students for access to specific content (Expository: ex. Science &/or Historical based non-fiction or Narrative/fiction based stories like fantasy or folktales), that is highly engaging with interactive vocabulary words, rich, colorful photos, illustrations, and diagrams to engage all learners. Additional ELA extension activities are available including an online writing component for short answer and open response writing that students draft and type which builds their electronic test taking skills readying them for MAP and MCAS.
- Assigned stories automatically have a reading comprehension based assessment Quiz built in after the story is read, with challenging multiple choice questions that student's read or hear with enables audio feature .
- Teachers and parents have access to Raz analytics to view total time students have been logged in the program, number of book read, accuracy levels on quizzes and reading fluency rates.

Reviewing A Sample Student's Progress & Performance from Assignment/Assessment Data

1. See a sample student's activity in the program and total time logged in at school and home.
2. Review reading assignment activity & accuracy levels.
3. Assess reading assessments and analytics to view items by question type and/or conduct error analysis by standards &/or question type(s).
4. Linking to MAP data to assess performance levels:

RAZ Kids Student Incentive Options

- Star Reward points are earned from reading stories and completing quizzes. Bonus points & student messages can be typed, voice recorded, and sent by both teachers and parents to students to increase motivation and to reward their progress!
- Your child can customize and build a virtual world for their Avatar robot & create its habitat from reward points earned.
- Teachers can give printed or online Reading A-Z Certificates to students to reward them for their hard work!

Special Features

- Create Grade Level assignments for student groups or for individual students.
- Select from a wide range of resources: leveled books, Readers Theater
- Student's can read or listen to audio version of the book, and take a quizzes to enhance comprehension
- View student log in times spent in program
- Allow Parent Assess to view Progress & Performance
- Video # 3:Parent Portal
