

Math in Kindergarten

Math is taught using the Everyday Math curriculum. This curriculum is designed using a scaffolding approach to many concepts. In other words, we introduce a concept one day but that concept may not be mastered until later in the year. We'll revisit this concept many times throughout the year. Below you will find the concepts taught in Kindergarten.

Counting & Cardinality

Operations & Algebraic Thinking

Geometry and Spatial Sense

Comparing Numbers

Measures and Measurements

Reference Frames Patterns, Functions, and Sequence
