

TEXARKANA
Independent School District

**PARTNERS
IN EDUCATION**

An Invitation to Be A Partner

The health of our community and the strength of our economy depend on the success of our local schools in preparing our youth for a bright and successful future.

Texarkana Independent School District's (TISD) Partners in Education believes our schools succeed best if they are supported by the entire community. We hope you will join us in an effort to support TISD today.

Established in 1998, Partners In Education links students with resources that help provide knowledge and skills needed for the future. The program connects students and teachers with corporate, education, volunteer, government and civic leaders.

TISD's Partners In Education program enriches and maximizes the educational experiences of students by developing cooperative partnerships with businesses, parents and community members.

The efforts of one person, one company or one organization can change the life of a student and make a dynamic difference in a program, school or the District. It doesn't take much to strengthen our schools; an hour of your time dedicated to a student will have long-lasting effects on the life of that student.

TISD would like to invite you and your business to become one of our Partners In Education

***Together...
We Are Making a Difference.***
