2021-2022 School Accountability Report Card (Published During the 2022-2023 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>

For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>

For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2022-23 School Overview

SCHOOL DESCRIPTION

Founded in 1954, Temple City High School continuously strives to raise the bar of excellence as a comprehensive high school that is student-centered, distinctive in its academic experience, and dynamic in its intellectual climate. Located in the West San Gabriel Valley, Temple City High School serves students in grades nine through twelve. Geographically situated 15 miles northeast of Los Angeles, the school is well known for its long-standing history of academic excellence and continued 'small town pride.' The school mirrors the ethnic diversity present in the changing community; one that reflected a white population of 80.9% in 1980 to a latest profile (Aeries Student Information System, 2021-2022) of 5.8% white, 67.8% asian, and 20.8% hispanic. The school offers a rich academic program that includes Advanced Placement, honors, support courses in language arts and mathematics, Career Technical Education courses, special needs offerings in RSP, SDC, VH and MDD, plus an expanded and highly successful English Learner transition program.

Temple City High is proud of its strong student engagement beyond the classroom, embracing 35 athletic teams, 125 clubs including four service organizations, a Peer Listener Program available in five languages, a stellar performing arts program, and direct student involvement throughout the city by way of a 50-hour community service graduation requirement.

The staff is comprised of 93 teachers, six counselors, four administrators, and a variety of support staff. Faculty and staff participate in three staff development days each year as well as designated professional planning time with a student late start each Wednesday morning. Parents serve as volunteers in many aspects of campus life and enjoy open communication with the school including Back to School Night, School Site Coordinating Council, PTSA, counseling partnerships, parent college/career forums, and various communications over the course of the year that are also translated into Chinese, and further interactive opportunities through e-mail.

All of these facets work in concert to support Temple City High School's focus of a personalized approach to teaching and learning.

SCHOOL MISSION STATEMENT

Our mission is to foster the development of all students to become responsible, productive, and respectful citizens who are lifelong learners.

A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

2022-23 Quality, Currency, Availability of Textbooks and Other Instructional Materials

A representative group of teachers and administrators reviews instructional materials. The committee meets for a detailed comprehensive analysis of materials from publishers. The materials must meet a pre-established criteria based on an instructional materials evaluation tool. They are as follows:

1. Compliance with Board Policy and Administrative Regulations
2. California standards alignment
3. Focus on coherence within a grade and across grade levels
4. Rigor and balance
5. Access for all students
6. Assessments for progress monitoring and in support of the California assessments
7. Support for English Language Learners
8. Support for special populations

In addition to the items delineated above, the committee considers digital resources for staff, students and parents to support learning in varied environments. The committee reaches a consensus, and the Board of Education makes the final decision on the chosen textbooks upon reviewing the committee's recommendation. Textbooks were chosen using state-approved lists, and the content fit within the curriculum frameworks adopted by the State Board of Education. Canvas, a Learning Management System, was adopted by the Temple City Unified School District to assist with synchronous and asynchronous instruction.

School Facility Conditions and Planned Improvements

Temple City High School was established in 1954. There are 76 classrooms on campus. In addition to classrooms, the school site includes computer labs, a library, fields, sports fields, stadium, gym and pool. The campus is in good condition, as reported on the 2022 FIT Report. There are sufficient classrooms and staff spaces to support teaching and learning. Modernization projects using bond proceeds have been completed and the district is continually.

The campus is maintained, and school safety ensured by a district maintenance crew of two and a site janitorial staff of ten. Issues and repairs not resolved by the site janitorial crew are completed by the district maintenance crew on a prioritized work-order system.

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).
4. **College and Career Ready**
The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

SARC Reporting in the 2020-2021 School Year Only

Where the most viable option, LEAs were required to administer the statewide summative assessment in ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more grade-level[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a different assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021. The assessments were required to be:

- Aligned with CA CCSS for ELA and mathematics;
- Available to students in grades 3 through 8, and grade 11; and
- Uniformly administered across a grade, grade span, school, or district to all eligible students.

Options

Note that the CAAs could only be administered in-person following health and safety requirements. If it was not viable for the LEA to administer the CAAs in person with health and safety guidelines in place, the LEA was directed to not administer the tests. There were no other assessment options available for the CAAs. Schools administered the Smarter Balanced Summative Assessments for ELA and mathematics, other assessments that meet the SBE criteria, or a combination of both, and they could only choose one of the following:

- Smarter Balanced ELA and mathematics summative assessments;
- Other assessments meeting the SBE criteria; or
- Combination of Smarter Balanced ELA and mathematics summative assessments and other assessments.

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

The 2020-21 data cells have N/A values because these data are not comparable to other year data due to the COVID-19 pandemic during the 2020-21 school year. Where the CAASPP assessments in ELA and/or mathematics is not the most viable option, the LEAs were allowed to administer local assessments. Therefore, the 2020-21 data between school years for the school, district, state are not an accurate comparison. As such, it is inappropriate to compare results of the 2020-21 school year to other school years.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2020-21	School 2021-22	District 2020-21	District 2021-22	State 2020-21	State 2021-22

2021-22 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2021-22 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

2021-22 Career Technical Education Programs

Career Technical Education Programs

Temple City High School students have the opportunity to participate in following career technical education courses:

- Digital Imaging
- Digital Photography
- Graphics Communication
- Engineering Design Technology
- Advanced Computer Aided Design
- Business Management
- Marketing Fashion
- Wood Working

Cabinetry

- Advanced Woods
- Sports Medicine

All students were able to take any CTE course with the exception of Advanced Woods, which requires passing Wood Working and Cabinetry as well as Advanced Computer Aided Design, which requires passing Engineering Design Technology. All CTE courses are based on a rigorous curriculum and some are articulated with Pasadena City College. Temple City High students, including those in special programs, use counselor-led Naviance trainings to determine job preferences and strengths.

Counselors use Naviance results and student input to match students with appropriate CTE courses. CTE courses are in the process of obtaining industry standard testing and certifications to determine effectiveness of the CTE program but also to allow students to move forward in career path. All CTE instructors partner with industry colleagues and our advisory committee strives to meet at least two times a school year.

2021-22 Career Technical Education (CTE) Participation

Measure	CTE Program Participation
Number of Pupils Participating in CTE	616
Percent of Pupils that Complete a CTE Program and Earn a High School Diploma	62.5

B. Pupil Outcomes

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2021-22 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. Due to changes to the 2021-22 PFT administration, only participation results are required for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2022-23 Opportunities for Parental Involvement

Parental Involvement

Parents and other volunteers are offered a variety of opportunities to become involved at Temple City High School. In addition, parent informational and orientation meetings, plus special evening events such as college informational nights and financial aid nights also support the school program. There is an active Parent Teacher Student Association assisting the school with fundraising, scholarships, and various support programs for students, staff and parents. The School Site Coordinating Council, consisting of community members, parents, students and staff members is involved in the planning, development, evaluation and modification of the School Site Plan for Student Achievement as well as the School Safety Plan.

State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety

Suspensions and Expulsions

This table displays suspensions and expulsions data collected between July through February, partial school year due to the COVID-19 pandemic. The 2019-20 suspensions and expulsions rate data are not comparable to other year data because the 2019-20 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019-20 school year compared to other school years.

Subject	School 2019-20	District 2019-20	State 2019-20
Suspensions	0.91	0.55	2.45
Expulsions	0.05	0.02	0.05

This table displays suspensions and expulsions data collected between July through June, each full school year respectively. Data collected during the 2020-21 school year may not be comparable to earlier years of this collection due to differences in learning mode instruction in response to the COVID-19 pandemic.

Subject	School 2020-21	School 2021-22	District 2020-21	District 2021-22	State 2020-21	State 2021-22

2022-23 School Safety Plan

School Safety

In accordance with Senate Bill 187 and Education Code 35294.6, all schools have adopted a Safe School Action Plan. These plans will remain in effect through the school year, are reviewed annually, and are available for public view in the school office.

Key elements and goals of the Safe School Action Plans are:

All students and staff members are provided a safe teaching and learning environment.

All students are safe and secure while at school, when traveling to and from school and when traveling to and from school-related activities.

District programs and approved community resources are made available to students and parents. Schools provide an educational environment where students, parents, staff and community members shall effectively communicate in a manner that is respectful to all cultural, racial and religious backgrounds. The school safety plan is being reviewed, updated and discussed with the school faculty and other stakeholders with an update expected in Spring 2023.

2019-20 Secondary Average Class Size and Class Size Distribution

This table displays the 2019-20 average class size and class size distribution. 2021-22 Types of Services Funded

At all levels of special education, there is training on Special Education Information System (SEIS), Individualized Education Plan (IEP) completion, push-in training, and paraeducator support. Our curriculum includes local community-based instruction and transitional skills as well as an academic support class for our students with disabilities.

Our college, career, counseling department runs a program where students access Naviance and college/career planning resources. Guest speakers and local college counseling, city colleges/universities information, and trade school/college applications are available to students.

EL (English Learners) students join a cohort comprised of RFEP (Reclassified Fluent English Proficient) students, LTELs (Long Term English Learners) and EO (English Only) students to form the ELA (English Language Development) Mentorship Program; thus improving school climate, culture, and fluency across all student groups.

Professional Development

The goal of professional development is to improve student performance in all content areas. We completed our WASC self-study and are pleased to report a positive six-year accreditation cycle. This direction includes providing professional development and teacher collaboration time to enhance understanding and implementation of a systematic assessment program, including common formative assessments, the development of common standards-based scope and sequence documents based on Common Core State Standards; the use of a professionally acceptable assessment process to collect, disaggregate and analyze student performance data to inform instruction; a systematic support system (pyramid of supports) both academic and nonacademic to support underachieving students and developing schedules/strategies to support structured teacher collaboration (professional learning communities). In addition to two full professional development days, Temple City High School also has a late start every Wednesday in order to provide additional time for staff, faculty, department or content area meetings. TCHS Staff development has been working in conjunction with Solution Tree who is helping our staff strengthen our Professional Learning Communities.

This table displays the number of school days dedicated to staff development and continuous improvement.
