OBJECTIVE:

Goal #1- Raise the Level of Student Achievement

Specifically...

Strand 4: Life Science

Life Science expands students' biological understanding of life by focusing on the characteristics of living things, the diversity of life, and how organisms and populations change over time in terms of biological adaptation and genetics. This understanding includes the relationship of structures to their functions and life cycles, interrelationships of matter and energy in living organisms, and the

interactions of living organisms with their environment.

SUPPORTING DATA:

Upon completion of this program, students will be able to compare the symbiotic and competitive relationships of organisms within an oceanic ecosystem. Additionally, students will analyze the relationships among various organisms and their environment while learning basic snorkeling skills and techniques to help them study and learn about the ocean environment. Finally, students are also introduced to the classification, anatomy, behavior, and other adaptive features of fish and various marine mammals.

SUMMARY & RECOMMENDATION:

Through a combination of labs, aquariums and touch tanks on land and snorkeling, kayaking, and collecting data in the field, students and teachers learn about the many eco-systems of the island and ocean and get to see and touch a whole range of fish.

It is recommended that the board approve this trip to Catalina Island for GHMS students, May 4-8, 2015.

Sample Motion:

I move to approve the Catalina Island field trip for Glassford Hill Middle School as presented.

Place of Field Trip	Catalina Island

Where are you staying? What is the cost of hotel/lodging? Is there security at the hotel/lodging? If not, how are the students going to be supervised?

5- Day trip to White's Landing which is a beautiful private cove on Catalina Island with cabins or villas for student groups. With its pristine natural surroundings, it's the perfect place to explore the ocean and learn marine science. It's also isolated and rustic, which adds to the adventure. Catalina Experience has been running school programs on Catalina Island for 30 years and over that time; they've developed schedules and plans to make your entire Catalina experience run as smoothly as possible.

At White's Landing, the safety and well-being of participants is paramount. In all of the classes and activities, exceptional instruction and supervision by instructors trained in their specific program area. Students and staff are required to follow safety guidelines for each activity and relevant safety equipment such as life preservers; harnesses, etc. are always used. All instructors are trained in first aid and CPR and all water activities are supervised by trained, certified Lifeguards. Two-way radios are positioned at each program area and throughout camp for communication with the office and camp directors. In case of illnesses, medical emergencies, or situations requiring additional assistance, we follow all appropriate EMS procedures. There is a pharmacy and a hospital on the island in the nearby city of Avalon, about four miles by water from camp. In case of serious medical emergencies, Baywatch is always on-call and available and can arrange for Life-Flight transport to a mainland hospital if need be.

How is the trip being funded?

Parent/Student payment for the trip through tax credit so that parents can get the money back when they file their state taxes. Monies are non-refundable per Catalina Experience policy as student space is reserved. There are no refunds through Catalina Experience; therefore, students who withdraw from the trip by request or by administration removal will not be able to receive a refund. The tax credit payment; however, allows parents to receive monies back at tax filing time. ©

What is the cost for the trip (lodging/registration/transportation, etc.)?

\$20,440

What is the cost for each student?

\$470 (5-day total costs includes transportation/lodging/food)

Chaperones (student/adult ratio):

Five chaperones @ a per chaperone cost of \$328 (5-day). Chaperones are not free with the program and will be expected to pay at a discounted rate.

What determines the student's eligibility for attending?

GHMS eighth grade students enrolled in Honor's will be given priority spacing. Students with behavior issues may be excluded upon administration and/or coordinator discretion. Students who enroll after September may be excluded pending coordinator discretion since deposit money is due in August.

How does the trip benefit the students and the teacher? What state standard is met with this activity?

The program focuses on hands-on, experiential science education. Utilizing state-of-the-art labs and equipment, expert instructors and the beautiful natural land and sea environments of Catalina Island, the program strives to increase science literacy, stimulate minds and, most importantly, to create excitement about science. During their 5- day stay, students and teachers have the opportunity to experience, first hand, the diverse flora and fauna found in Southern California's Oceans. Through a combination of labs, aquariums and touch tanks on land and snorkeling, kayaking and collecting data in the field, students and teachers learn about the many ecosystems of the island and ocean and get to see and touch a whole range of fish, algae, sharks and rays, marine mammals, plankton and invertebrates!

The invertebrate lab houses Sea Urchins, Anemones, Sea Hares, Sea Cucumbers, Sea Stars and a host of other local invertebrates are available to view and touch in this lab, always a student favorite! The large touch tank is well stocked with a number of these animals without backbones, including members of the phyla Porifera (Many Pores), Cnidaria (Stinging Cells), Echinodermata (Spiny Skin), Annelida (Segmented Body), Mollusca (Soft Body), and Arthropoda (Jointed Foot). Other tanks in this lab house lobster, crabs, and octopus. Through close student examination of these animals, instructors facilitate discussions of classification, species identification, adaptation, and natural history.

In the Squid Dissection, lab students begin by learning basic biology and behavior of Loligo opalescens, the California Market Squid. Students then participate in a simple dissection, discovering the external and internal anatomy of the squid. Instructors make this messy experiment fun by letting students use the squid's ink sac to make pictures they can take home. This dissection seems to always be a hit with students of all ages.

Strand 4: Life Science

Life Science expands students' biological understanding of life by focusing on the characteristics of living things, the diversity of life, and how organisms and populations change over time in terms of biological adaptation and genetics. This understanding includes the relationship of structures to their functions and life cycles, interrelationships of matter and energy in living organisms, and the interactions of living organisms with their environment.

Concept 4: Diversity, Adaptation, and Behavior

Identify structural and behavioral adaptations.

- PO 1. Explain how an organism's behavior allows it to survive in an environment.
- PO 2. Describe how an organism can maintain a stable internal environment while living in a constantly changing external environment.
- PO 3. Determine characteristics of organisms that could change over several generations.
- PO 4. Compare the symbiotic and competitive relationships in organisms within an ecosystem (e.g., lichen, mistletoe/tree, clownfish/sea anemone, native/non-native species).
- PO 5. Analyze the following behavioral cycles of organisms:
 - migration
 - dormancy (plants)
- PO 6. Describe the following factors that allow for the survival of living organisms:
 - protective coloration
 - beak design
 - seed dispersal
 - pollination

Concept 3: Populations of Organisms in an Ecosystem

Analyze the relationships among various organisms and their environment.

Curriculum Objectives:

The snorkeling program is designed to help students become comfortable and safe in the water, learn basic snorkeling skills and techniques and to study and learn about the ocean environment. As such, the objective and focus will progress from the initial dive through subsequent dives. While at Catalina Experience, each student learns and demonstrates basic snorkeling skills as taught by our experienced instructors. All gear is provided, including full-length three-piece wetsuit, hood, mask, snorkel, fins and booties. Because the wetsuit acts as a flotation device, students do not need to be strong swimmers to participate in and benefit from the snorkeling program. Even non-swimmers can thoroughly enjoy the experience if they have confidence in themselves.

Student Outcomes:

Upon completion of this program, students will be able to compare the symbiotic and competitive relationships of organisms within an oceanic ecosystem. Additionally,

students will analyze the relationships among various organisms and their environment while learning basic snorkeling skills and techniques to help them study and learn about the ocean environment. Finally, students are also introduced to the classification, anatomy, behavior and other adaptive features of fish and various marine mammals.

Jeaque Cousteau Camp Quote 2014-15

Hello Sandra,

I apologize for the communication delay. We have some space April and May of 2015, depending on the size of the group. Prices are broken up into transportation and tuition. Transportation rates vary based on the total number of passengers traveling to the island. This could include students from different schools.

Transportation

Rates range from \$55 to \$95 per person round trip based on the dates of travel. Students and chaperones pay the same transportation rate.

Tuition

Rates are broken up into Peak and Off-Peak.

Off-Peak: starts March 1 and ends April 17 Peak: starts April 20 and ends May 29

3-day program: Off-Peak is \$225/student, \$112.50/chaperone. Peak is \$240/student,

\$120/chaperone

5-day program: Off-Peak is \$405/student, \$202.50/chaperone, Peak is \$425/student,

Passenger Manifest Instructions

The following page is the Passenger Manifest that is required by policy to be completed by all groups traveling on a Master's Touch Tours coach. In our continuing efforts to provide *The Finest of Service at The Fairest of Price*, we have chosen to increase our customer service standard in the area of passenger safety and security by requiring the use of a Passenger Manifest on all trips. While this is not yet a legal requirement, please understand that in the unlikely event of an incident or accident, this manifest will assist first responders to quickly inform the emergency contacts of your group.

Please read the following instructions carefully and complete your manifest as directed.

- 1. The Passenger Manifest must be completed before you board the coach and given to the driver upon boarding. If you are using more than one coach, a separate Passenger Manifest must be completed for each coach. Only the passengers on a particular coach are to be listed on the Passenger Manifest accompanying that coach. The emergency contact must be someone who is NOT on the trip.
- 2. The Passenger Manifest must have the full name and the emergency contact information of every passenger. This includes sponsors, students, tour guides, and children no matter what age, and anyone else who will be riding on the coach.
- 3. The Passenger Manifest is a safety and security document. It is not to be used as your attendance record or pick-up list. If you want to use the information for this, please make a copy for your use and give the driver a clean and legible copy. When filling out the manifest, please PRINT legibly.
- 4. All information on the Passenger Manifest is kept in a special secure area that is known to law enforcement officials so that they can access the information in the event of an incident or accident. It is not used for any other reason and will be destroyed upon completion of the trip.
- 5. If you are using more than one coach, switching between coaches during a trip cannot be allowed. All passengers must stay with the coach on which they are registered.

Thank you for your cooperation.

Sincerely,

John Richert Charter Operations Manager

INTERGOVERNMENTAL AGREEMENT BETWEEN

Yavapai Community College District

Humboldt Unified School District #22

This Intergovernmental Agreement ("Agreement") is entered into this 1st day of August, 2014, between Yavapai College ("College"), and Humboldt Unified School District #22 ("School District") (collectively "Parties"). Both Parties are public agencies of the State of Arizona as defined in Arizona Revised Statutes ("A.R.S.") § 11-951.

BACKGROUND

College and School District are authorized to enter into this Agreement pursuant to A.R.S. § 15-342(13), § 15-701.01(G), § 15-1444(B)(4), and § 15-1821.01. Grant schools are authorized to participate in this Agreement under the Tribally Controlled Schools Act, 25 U.S.C. § 2501 et seq. This Agreement and its use are mandated under A.R.S. § 15-1821.01(1).

College has determined that it is desirable to offer college level courses that may be counted toward both high school and college graduation requirements at the high school during the school day.

School District desires that College provide to high school students college level courses that may be counted toward both high school and college graduation.

AGREEMENT

In consideration of the mutual promises contained herein, the Parties agree as follows:

1. PURPOSE

The purpose of this Agreement is to set forth the understanding of the Parties as to their respective responsibilities and rights in providing Dual Enrollment Courses, as defined in Section 2 below, to eligible School District students.

2. **DEFINITION**

Pursuant to A.R.S. § 15-101(11), a "Dual Enrollment Course" is defined as a college level course that is conducted on the campus of a high school or on the campus of a joint technological education district, and that is:

A. applicable to an established community college academic degree or certificate program, and transferable to a university under the jurisdiction of the Arizona Board of Regents; or

- B. applicable to a community college occupational degree or certificate program.
- C. Notwithstanding the foregoing, physical education shall not be available as a Dual Enrollment Course.

3. EFFECTIVE DATE AND TERM

- A. This Agreement shall be effective:
 - i. After the governing boards of School District and College have approved it; and
 - ii. On the date that authorized representatives of both Parties have signed it ("Effective Date").
- B. The term of this Agreement shall be from the Effective Date through June 30, 2015 ("Term").

4. OBLIGATIONS OF COLLEGE

4.1 General Course Requirements

- A. College will offer Dual Enrollment Courses to School District juniors and seniors, and to freshman and sophomore students subject to Paragraph F in this Section 4.1 who meet College's prerequisites.
- B. Pursuant to A.R.S. § 15-1821.01(3), College will ensure that all Dual Enrollment Courses offered to School District students are:
 - 1. of a quality and depth to qualify for college credit as determined by College;
 - 2. evaluated and approved through the College curriculum approval process;
 - 3. at a higher level than taught by the School District high school;
 - 4. transferable to an Arizona public university or applicable to an established community college occupational degree or certificate program; and
 - 5. compliant with all other standards for College courses.

Dual Enrollment Courses offered pursuant to this Agreement are listed in Exhibit B attached to this Agreement.

C. Students enrolled in Dual Enrollment Courses shall be admitted to College for college level credit under current procedures for admission of students to College, and in compliance with A.R.S. § 15-1821.01 and A.R.S. § 15-1805.01. A student who is under eighteen (18) years of age may be

granted admission if the student meets the pre-requisites for the Dual Enrollment Course and the student achieves any one of the following:

- 1. a composite score of ninety-three (93) or more on the preliminary scholastic aptitude test;
- 2. a composite score of nine hundred thirty (930) or more on the scholastic aptitude test;

Home schooled students are exempt from Sections 1-6 of this Paragraph C. Notwithstanding the above, a student who enrolls in a vocational or occupational education course may be admitted on an individual basis with the approval of College if the student meets the established requirements of the course for which the student enrolls and College determine that the student's admission is in the best interest of the student. College retains the right to refuse admission to and remove a student from Dual Enrollment Courses in accordance with College policy.

- D. College has the right to limit the number of semester hours in which a student may enroll in Dual Enrollment Courses to not less than six (6) credit hours per semester.
- E. College shall determine residency status of students for tuition purposes in accordance with A.R.S. § 15-1801 et seq.
- F. Pursuant to A.R.S. § 15-1821.01(2)(b) and subject to Section 5.1(E) below, College may waive the class status requirements set forth in Section 4.1(A) for up to twenty-five percent (25%) of the students enrolled for Dual Enrollment Courses by College. College shall have written criteria for waiving the requirement for each Dual Enrollment Course which shall include a demonstration, by an examination of the specific purposes and requirements of the course, that freshman and sophomore students who meet the Dual Enrollment Course prerequisites are prepared to benefit from the college level course. College shall report all exceptions and the justification for each exception.
- G. College will provide to School District the instructional information necessary to meet the goals of the courses delivered, including but not limited to College approved textbook titles, syllabi, course outlines and grading standards applicable to the Dual Enrollment Courses.
- H. College will ensure that instructors of Dual Enrollment Courses follow the Dual Enrollment Course guidelines, and that the same standards of expectation and assessment that are applied to other College courses are applied to the Dual Enrollment Courses.
- I. For each student, College will assign an identification number to the student that shall correspond to or reference the Student Accountability Information System (SAIS) number assigned to the student. School District will provide College with the SAIS number for each student as provided in Section 5.1(G).

J. College will grant College credit for a Dual Enrollment Course when a student satisfactorily completes the course.

4.2 Instructors and Instruction

- A. College will ensure that School District instructors teaching Dual Enrollment Courses have valid College teaching qualifications in the field being taught and are selected and evaluated by College using the same procedure and criteria that are used for instructors at College campus.
- B. If College is providing the instructor for a Dual Enrollment Course, College will provide at College's expense a substitute instructor, as necessary and as agreed upon by School District, to cover the absence of any College instructor teaching a Dual Enrollment Course.

4.3 Assessment and Monitoring

- A. Except for vocational and occupational Dual Enrollment Courses, and if required by College policy, College will assess each student who seeks enrollment in a Dual Enrollment Course through an assessment test prior to, or at the time of, enrollment to determine and assure proper placement in the Dual Enrollment Courses.
- B. College will involve full-time College faculty who teach a particular discipline in the selection, orientation, ongoing professional development and evaluation of School District faculty teaching Dual Enrollment Courses.

- B. College will provide School District with College policies and procedures applicable to students enrolling in Dual Enrollment Courses.
- C. College will provide School District access to the educational records of students as necessary to carry out the terms of this Agreement, and limit access to such records to employees who have a legitimate interest and a need to know the substance of the particular record, understanding that students enrolled in the Dual Enrollment Courses will be enrolled in both School District and College. Pursuant to Title 34, Part 99, Section 99.31 of the Code of Federal Regulations, the Family Educational Rights and Privacy Act of 1974, as amended ("FERPA"), School District and College may disclose educational records of students to each other as "officials of another school system" where the student is enrolled.

4.5 Students with Disabilities

- A. After notification from School District of a student's need, if College is providing the instructor, College will cooperate with School District to ensure the instructor complies with Section 504 of the Rehabilitation Act of 1973, as amended, and the Individuals with Disabilities Education Act ("IDEA"). College shall work with School District in determining appropriate accommodations, however, School District shall have the primary financial and administrative responsibility for providing and implementing necessary accommodations.
- B. College will provide training and guidance to instructors and other personnel in the area of compliance with the Americans with Disabilities Act ("ADA") and Rehabilitation Act of 1973, as amended, as the Acts specifically relate to instructing students in a postsecondary education situation.

4.6 Reporting

College will submit a report to the Joint Legislative Budget Committee pursuant to A.R.S. § 15-1821.01(2)(b) when necessary, and School District will provide College with data that is required for inclusion in any such report in a timely fashion, as specified in Section 5.6.
