

Math Curriculum

Eureka Math

The most widely used math curriculum in the United States. Eureka Math is a Common Core-aligned curriculum published by the non-profit Great Minds Inc., that equates mathematical concepts to stories, with the aim of developing conceptual understanding. It is designed in a series of modules that highlight key concepts that layer over time, creating enduring knowledge. Students gain a complete body of math knowledge, not just a discrete set of skills. They use the same models and problem-solving methods from grade to grade, so math concepts stay with them, year after year.
