### Parenting Boys

What can we do to raise healthy boys? How is parenting boys different from parenting girls? As societal views of gender are changing, how can you teach your son about masculinity, identity, appropriate behavior and expectations? This class will explore questions like these so that you can formulate a plan for helping your son grow into an adult you will like and admire. Potential discussion topics include teaching kindness & empathy, building resilience, positive discipline, anger and conflict, bullying, chores/responsibility, self-regulation/emotion management, social norms & expectations, friendships, time management, how the pandemic has impacted boys, changing bodies and navigating the bridge between little boys and big boys. The format of the class might include podcasts, reading and discussing articles on current topics related to parenting boys, and small group discussions based on the age of the boys of participants. Topics and format are flexible and will reflect the interest of the group. For the months of January, February and March, class will be the 4th Tuesday (January 23rd, February 27th and March 26th 2024).

### Parenting Girls

How do you help your daughters grow up to be happy, healthy and strong? How do we navigate the obstacles of growing up in a world that can seem so challenging for young girls? All girls are worthy of friendship, love, support, kindness, safety, well-being, and adults who will reinforce the best in them. This course is for parents and caregivers of girls who wish to support girl's healthy transition toward young adulthood. Potential discussion topics include supporting emotional growth while considering communication, changing bodies and healthy body image, friendships and social dynamics, common and typical bumps and pitfalls for girls (and ideas for how to anticipate and manage them), the challenges of effectively supporting girls as they become skilled in their world, and how the pandemic has impacted girls. The format of the class might include podcasts, reading and discussing articles on current topics related to parenting girls, and small group discussions based on the age of the girls of participants. Topics and format are flexible and will reflect the interest of the group.

### ECFE Twos

#### **A Taste of Preschool (One Day)**

Twos develop at high speed and thrive with guidance and limits as they set out to try everything in sight. Our classrooms are set up to allow children to engage all of their senses as they sing, dance, create, build, problem solve, communicate and socialize. Children gain confidence, trust, and independence as their parents separate for a facilitator led parenting time which focuses on parent generated topics including eating, toilet learning, separation anxiety, and language development as well as other relevant topics. Each class provides many opportunities for your child to develop social and problem solving skills while the two of you enjoy some uninterrupted high quality play and learning together time. You will also leave with new ideas and activities that reinforce the weekly classroom activities. Sibling care is available for this class on parenting days. One-time \$50 registration fee.

### **Early Childhood Family Education (ECFE)**

#### **ECFE 3s Preschool**

This class is similar to a traditional 3's Preschool class but with an added bonus! Mom or Dad or any caretaker gets to come to school with the child on Fridays! The first hour of class will be in the room with the students, then adults will transition to another space for adult learning. Discussions will be focused on current topics in parenting such as sleep habits, brain development, nutrition, or other topics of interest to the group. Adults will rejoin the class for the last 30 minutes to participate in the closing meeting and to celebrate the days learning. One-time \$50 registration fee.

#### **Parenting: Birth - Two Years**

A licensed Parent Educator facilitates parents of children 0-2 years who will gather to support and discuss topics key to child development. This class will look at developmental growth through play and the joys and challenges that this age can exhibit. Topics may include: sleep habits, meal time, toilet training, discipline, social and emotional development, language development. Under the guidance of the Parent Educator, participants can help select future discussions. This class will meet on the second Tuesday of the month. For an additional cost (half the amount of class fee), childcare is available for children as young as 6 weeks and as old as 5 years. Children up to 4 months are welcome to attend with their parent.
