NON-DISCRIMINATION POLICY STATEMENT

Students, their families, employees and potential employees of Campbell County Schools are hereby notified that the Campbell County School District does not discriminate on the basis of race, color, national origin, age, religion, marital status, sex, genetic information or disability in employment, vocational programs, or activities as set forth in compliance with federal and state statutes and regulations.

The U.S. Department of Education’s Office for Civil Rights (OCR) enforces, among other statutes, Title IX of the Education Amendments of 1972. Title IX protects people from discrimination based on sex in the education programs or activities that receive federal financial assistance.

INTRODUCTION

The Campbell County School District is committed to providing quality education for all students. We believe a safe and orderly environment must be maintained for this process to be effective.

If a conflict exists between the code of conduct and the adopted policies/procedures of the Board of Education or state statutes, the policies/procedures or state statutes shall govern.

STATEMENT OF PURPOSE

As a certified agent of the State of Kentucky, Campbell County Schools has the moral and legal responsibility to provide an education for all children within its district. The responsibility to take advantage of this educational opportunity rests with each student, encouraged by the support and involvement of his/her teachers and parents/guardians. The purpose of this document is:

- 1) to affirm and protect the rights of the district and building administration, teachers, parents/guardians, and students;
- 2) to define the responsibilities of the district and building administration, teachers, parents/guardians, and students;
- 3) to document pertinent Kentucky state laws that serve as parameters for the respective discipline codes of schools within the district; and
- 4) to identify the regulations governing students who ride school buses.

It should be noted that although parents and students have many rights guaranteed by state and federal laws and court decisions, some of these rights may end when and where they begin to interfere with the constitutional rights of others. Most importantly, students need to know that every right carries with it the responsibility to exercise that right wisely and that failure to do so may result in loss of privileges. Essentially, then, the responsibility for conduct is in the hands of each individual student and his/her parent/guardian, and, when an action by a student is not in compliance with an accepted standard, specific consequences shall be uniformly applied as outlined in this document and the individual school codes.

The intent of this code is to help students maintain acceptable behavior. Used properly by students, parents, teachers, counselors, administrators, and all other school personnel, this document should be an instrument which will help provide an atmosphere that will enable students to achieve the goal of a basic education, thus allowing them to be competitive in the adult world.

JURISDICTION OF CODE

This code will be in effect on school property during regular school hours as well as other places and times where teachers and school administrators have jurisdiction over students, including (but not necessarily limited to) school-sponsored functions, before or after school programs, field trips and athletic events. This code also applies to students at bus stops and when they are being transported on school buses.

In addition, those students in vocational education programs who are registered in a regular high school come under the jurisdiction of this code.

It should be noted that various state laws and school board policies mandate certain administrative functions which are not part of this code, and this code is intended neither to restrict nor deny those functions.

APPLICATION OF CODE

The solution to a problem or the resolution of a conflict within the educational setting usually can be accomplished through an informal process by the people most directly involved: the teacher and the student. It is expected, therefore, that every effort will be made by the teacher to handle the situation with the student at the time the unacceptable behavior occurs. If misconduct is of a serious nature, additional action must be taken immediately.

The management of order and discipline is an essential element of a safe and productive learning environment. Establishing fair and consistent discipline at the lower grades, and being consistent as the student progresses, should reduce the need for additional methods of discipline. As students mature and advance in school, they are expected to assume a greater degree of responsibility for their behavior. Although these rules are written for all students K-12, many apply primarily to older students. Accordingly, the type of disciplinary action taken may vary with age and situation as well as the type of misconduct.

When considering the consequences/interventions of inappropriate behavior, the following circumstances may be reviewed and taken into consideration:

- age and/or developmental stage of student;
- frequency of misconduct; behavioral history;
- seriousness of particular misconduct;
- attitude of student; degree of cooperation of student;
- educational placement;
- attendance and academic standing.

The Campbell County Board of Education believes each student should accept the rights and responsibilities appropriate to their level of maturity and abide by the rules and regulations of the Board and its designated employees.

Note: Consequences and interventions are at the discretion of administration when incidents rise to that level.

NOTICE: TERRORISTIC THREATENING IN THE SECOND DEGREE (AND POTENTIAL PENALTIES)

July 1, 2023

TO: Parents/Guardians and Students of Campbell County Schools
FR: Campbell County School District
RE: Provisions of KRS 508.078 and Potential Penalties Under KRS 532.060 and KRS 534.030

Our highest priority at Campbell County Schools is to provide a safe learning environment for students and staff. Unfortunately, in recent years schools across the country have experienced an escalation of statements made by students and other individuals threatening widespread harm to students and/or staff. Such threats can result in considerable concern across the school community and total disruption to the educational process.

These threatening statements are unacceptable and will not be tolerated at any school. As required by KRS 158.1559, the purpose of this letter is to notify parents, guardians, and students that in addition to school disciplinary action, school district officials (in cooperation with law enforcement agencies) will pursue legal charges for felony terroristic threatening in the second degree against anyone who makes such threats, including students.

Terroristic threatening in the second degree is defined by KY state law KRS 508.078. In summary, a person is guilty of terroristic threatening in the second degree when he or she intentionally:

(a) With respect to any school function, threatens to commit any act likely to result in death or serious physical injury to any person, student group, teacher, volunteer worker, or employee of a school, or to any other person reasonably expected to lawfully be on school property or at a school-sanctioned activity. **A threat directed at a person or persons at a school does not need to identify a specific person or persons or school in order for a violation of this section to occur;**

(b) Makes false statements by any means, including by electronic communication, for the purpose of:

1. **Causing evacuation** of a school building, school property, or school-sanctioned activity;
2. **Causing cancellation** of school classes or school-sanctioned activity; or
3. **Creating fear** of serious bodily harm among students, parents, or school personnel

***Please read the complete text and details of KRS 508.078, including penalties, on the following page.**

Our approach to eliminating terroristic threatening in schools is unwavering. Please help ensure that your child never becomes a party to such an offense by discussing this important matter with him/her, including the seriousness of its consequences. Together we can help keep our school safe. Thank you.

FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT (FERPA)

Notification of FERPA Rights

The Family Educational Rights and Privacy Act (FERPA) affords parents and eligible students (students over 18 years of age, who are married, or who are attending a postsecondary institution) the following rights with respect to the student's education records.

- 1) The right to inspect and review the student's education records within forty-five (45) calendar days of the day the district receives a request for access.**

Parents or eligible students submit a written request to the school principal/designee that identifies the record(s) they wish to inspect. The Principal arranges for access and notifies the parent or eligible student of the time and place where the records may be inspected.

- 2) The right to request the amendment of the student's education records that the parent or eligible student believes are inaccurate, misleading, or in violation of the student's privacy or other rights.**

Parents or eligible students may ask the district to amend a record they believe is inaccurate, misleading or in violation of privacy or other rights. The parent writes the school principal, clearly identifying the part of the record they want changed, and specifying why it is inaccurate, misleading, or in violation of their privacy or other rights.

If the district decides not to amend the record as requested by the parent or eligible student, the district notifies the parent or eligible student of the decision and advises them of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures are provided to the parent or eligible student when notified of the right to a hearing.

- 3) The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent.**

The district may disclose records to school officials with legitimate educational interests. A school official is a person employed by the district as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the School Board; a person or company with whom the district has contracted to perform a special task (such as an attorney, auditor, medical consultant, or therapist); or a parent or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility. Upon request, the district discloses education records without consent to officials of another school district in which a student seeks or intends to enroll or to other entities authorized by law.

- 4) The right to file a complaint with the U.S. Department of Education concerning alleged failures by the District to comply with the requirements of FERPA.**

**Family Policy Compliance Office
U.S. Department of Education
600 Independence Avenue, SW
Washington, DC 20202-4605**

5) The Superintendent or the Superintendent's designee is authorized to release Board approved directory information.

Directory Information is information contained in an educational record which would not generally be considered harmful or an invasion of privacy if disclosed. This information may be released without consent. This information may include the student's name, address, telephone number, date and place of birth, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, degrees and awards received, and most recent educational agency or institution attended.

Any eligible student, parent, or guardian who does not wish to have directory information released notifies the Superintendent in writing on or before September 30 of each school year or within thirty (30) calendar days after the Annual FERPA Notice has been distributed. The written request must specifically state what information may not be classified as "*Directory Information*".

- 6) The district keeps educational records in a secure location in each school and Board office.**
- 7) The district obtains written consent from a parent or eligible student before disclosing personally identifiable information to an entity or individual not authorized to receive it under FERPA.**
- 8) For students who have been determined eligible for special education, education records are destroyed at the request of the parent when they are no longer needed to provide educational programs or services.**

The district may destroy the educational records of a child without a parent's request three (3) years after they are no longer needed to provide educational programs or services. Parents are advised that data contained in the records may later be needed for Social Security benefits or other purposes. The district may retain, for an indefinite period of time, a record of the student's name, address, telephone number, grades, attendance record, classes attended, grade level completed, and year completed.

Children determined eligible for special education services include those children with disabilities who have a hearing impairment, visual impairment, emotional-behavioral disability, deaf-blindness, other health impairment, specific learning disability, mental disability, multiple disabilities, speech or language impairment, developmental delay, orthopedic impairment, autism, or traumatic brain injury, and who because of such an impairment need special education services. Also included for consideration are children who have a current physical or mental impairment that substantially limits a major life activity.

PROTECTION OF PUPIL RIGHTS AMENDMENT (PPRA RIGHTS)

Notification of PPRA Rights

PPRA affords parents and eligible students (those who are 18 or older or who are emancipated minors) certain rights regarding conduct of surveys, collection and use of information for marketing purposes, and certain physical exams. These include the right to:

DIRECTORY INFORMATION

The Superintendent or the Superintendent's designee is authorized to release Board approved directory information. Approved directory information shall be: student name and address, telephone numbers, date and place of birth, student’s school email address, major field of study, participation in officially recognized sports and activities, height and weight of members of athletic teams, dates of attendance, degrees, honors and awards received, and most recent educational institution attended by student, contained in education records in the custody of the public school.

Any eligible student or parent/guardian who does not wish to have directory information released shall notify the Superintendent/designee in writing by September 30 or within 30 calendar days of receiving notification of FERPA rights. See Page 16 of the Discipline Code if you wish to “Opt-Out” of this provision.

OPT-OUT STUDENT DIRECTORY INFORMATION NOTIFICATION

Consistent with the Family Educational Rights and Privacy Act (FERPA), parents (or students 18 or older) may direct the District not to disclose directory information listed below. We are required to disclose a student's name, address, and telephone listing at the request of Armed Forces recruiters, unless a parent or secondary school student, regardless of age, requests that this information *not* be disclosed.

Dear Parent/Eligible Student,

This letter informs you of your right to direct the District to withhold release of student directory information for:

Student Name

Date of Birth

Following is a list of items that the District considers student directory information. If you wish information to be withheld, please choose one of the two options below in both Sections I and II. Choose Option 1 if the District may not release any item of directory information. Choose Option 2 if the District may release only selected items of information, then check those items that may be released. Be advised that parents cannot prevent the school from using directory information on District issued ID cards or badges.

If we receive no response by September 30 or within thirty (30) calendar days of receiving notification of FERPA rights, all student directory information will be subject to release without your consent. If you return this signed form on time, we will withhold the directory information consistent with your written directions, unless disclosure is otherwise required or permitted by law. Once there has been an opt-out of directory information disclosure, the District will continue to honor that opt-out until the parent or the eligible student rescinds it, even after the student is no longer in attendance.

CORPORAL PUNISHMENT

“Corporal punishment” is defined as the deliberate infliction of physical pain by any means upon the whole or any part of a student’s body as a penalty or punishment for student misbehavior.

Effective July 1, 1991, no person employed or engaged by any public elementary or secondary educational system within this school district shall inflict or cause to be inflicted corporal punishment or bodily pain upon a pupil attending any school or institution within such educational system: provided, however, that any such person may, within the scope of his employment, use and apply such amounts of physical restraint as may be reasonable and necessary to protect oneself, the pupil, or others from physical injury, to obtain possession of a weapon or other dangerous objects within control of the pupil, or to protect property from serious harm (KRS 503.110).

GRIEVANCE PROCEDURES / TITLE IX, TITLE VI, and SECTION 504

Employees and students have both the right and the responsibility to express school related concerns and grievances to the administration regarding Title IX, Title VI, and Section 504.

For the discussion and consideration of a grievance, any employee or student or group of employees or students should contact the Coordinator concerning the matter. A formal complaint should then be put in writing, signed, dated, and delivered to the Coordinator. Timelines noted within policies and procedures shall be followed and communicated to the Complainant and Respondent. If the formal complaint cannot be resolved through the Coordinator or Informal Resolution Facilitator, the matter shall be assigned to an Investigator and Decision Maker. The Appellate Decision Maker shall have authority to preside over the appeal process per policy and procedure. The Board of Education shall hear an appeal only under the advice of the Board Attorney as to whether the appeal falls within the requirements of policy.

SEARCH AND SEIZURE (KRS 161.180/OAG 79-168)

A student in the public common schools has the constitutional right to be secure in his or her person from all unreasonable search and seizure. A search of a student by school officials is generally reasonable if it bears a rational relationship to a legitimate educational interest and is based upon reasonable suspicion.

Limitations on the reasonableness of a search exist depending upon the nature of the place searched, along with other factors such as the age of the student and the purpose of the search, and a teacher or administrator who participates in or conducts an unreasonable search of a student could be sued for damages in state court on the theory of invasion of privacy, trespass or assault and battery, or in federal court for a civil rights violation. A student's consent to be searched must be scrutinized carefully.

USE OF PHYSICAL RESTRAINT AND SECLUSION (704 KAR 7:160)

This administrative regulation establishes the requirements for the use of physical restraint and seclusion in school districts. It also establishes notification and data reporting requirements for the use of physical restraint and seclusion within those districts. It does not prohibit the lawful exercise of law enforcement duties by sworn law enforcement officers. Specific board policy and procedure can be found on the Campbell County School District website www.campbellcountyschools.org; click Board of Education and then click Policy and Procedure Manual. You will be directed to our board policy and procedure site. Chapter 9, policy 09.2212 (Use of Physical Restraint and Seclusion) and procedure 09.2212 AP.21 (Physical Restraint and Seclusion Forms) provide reference information. The process for registering any complaints regarding this regulation is contained in Chapter 10, policy 10.2 (Citizen Suggestions and Complaints) and procedure 10.2 AP2 (Citizen Complaint to the Board).

CHILD ABUSE AND NEGLECT

KRS 620.030 and 620.050 are child protective laws for persons under eighteen (18) years old. They apply to any child whose health or welfare is harmed or threatened when any parent, guardian, or other person inflicts physical or mental injury, commits sexual abuse, abandons or exploits or does not provide the child with adequate care and supervision, such as food, clothing, shelter, education, and medical care necessary for the child’s well-being. A child who becomes emotionally disturbed because of constant friction in the home or exposure to unwholesome and demoralizing circumstances is also considered abused.

Any school employee who has reasonable cause to believe any of the above has occurred must, by law, make an oral report to a local law enforcement agency or Kentucky State Police; the Cabinet or its designated representative; the Commonwealth’s attorney or county attorney by telephone or otherwise.

CHILD FIND

For Children with Disabilities in Need of Special Education Or 504 Services

The Campbell County School District keeps educational records in a secure location in each school and Board office.

The Campbell County School District obtains written consent from a parent or eligible student (age 18 or who is attending a postsecondary institution), before disclosing personally identifiable information to an entity or individual not authorized to receive it under FERPA.

For students who have been determined eligible for Special Education, educational records will be destroyed at the request of the parents when they are no longer needed to provide educational programs or services. The Campbell County School District may destroy the educational records of a child without parent request three (3) years after they are no longer needed to provide educational programs or services. Parents are advised that data contained in the records may later be needed for Social Security benefits or other purposes. The Campbell County School District may retain, for an indefinite period of time, a record of the student's name, address, telephone number, grades, attendance records, classes attended, grade level completed, and year completed.

Children eligible for Special Education include those children with disabilities who have autism, deaf-blindness, developmental delay, emotional-behavior disability, hearing impairment, mental disability, multiple disabilities, orthopedic impairment, other health impairment, specific learning disability, speech or language impairment, traumatic brain injury, or visual impairment and who because of such an impairment need Special Education services.

Children eligible for 504 services include those children who have a current physical or mental impairment that currently substantially limits some major life activity which causes the student's ability to access the school environment or school activities to be substantially limited.

Children eligible for the State-Funded Preschool program include three and four-year-old children identified with disabilities and four-year-old children who are at-risk, as defined by federal poverty levels up to 160%. Preschool children eligible for special education must have an Individual Education Plan (IEP) instead of a 504 plan to receive State-Funded Preschool program services.

The Campbell County School District has an ongoing "Child Find" system, which is designed to locate, identify and evaluate any child residing in a home, facility, or residence within its geographical boundaries, age three (3) to twenty-one (21) years (a student with a disability shall not be eligible for services as of the date of his or her 21st birthday), who may have a disability and be in need of Special Education or 504 services. This includes children who are not in school; those who are in public, private, or home school; those who are highly mobile such as children who are migrant or homeless; and those who are advancing from grade to grade, who may need but are not receiving Special Education or 504 services.

The Campbell County School District will make sure any child enrolled in its district who qualifies for Special Education or 504 services, regardless of how severe the disability, is provided appropriate Special Education or 504 services at no cost to the parents of the child.

The district's "Child Find" system includes children with disabilities attending private or home schools within the school district boundaries who may need special education services.

Letters and phone calls are some of the ways the Campbell County School District collects the information needed. The information the school District collects will be used to contact the parents of the child and find out if the child needs to be evaluated or referred for Special Education or 504 services.

"Child Find" activities will continue throughout the school year. As part of these efforts the Campbell County School District will use screening information, student records, and basic assessment information it collects on all children in the District to help locate those children who have a disability and need Special Education or 504 services. Any information the District collects through "Child Find" is maintained confidentially. Written Policies and Procedures have been developed which describe the District's requirements regarding the confidentiality of personally identifiable information and "Child Find" activities. There are copies in the Principal's office of each school, and in the Board of Education office. Copies of these Policies and Procedures may be obtained by contacting:

The Campbell County School District provides a public notice in the native language or other mode of communication of the various populations in the geographical boundaries of the District to the extent feasible. If you know of someone who may need this notice translated to another language, given orally, or delivered in some other manner or mode of communication, please contact the Director of Special Education/Section 504 at the address or phone number listed below for the Campbell County School District. The district office is open Monday through Friday, from 8:00 a.m. to 4:30p.m.

Parents, relatives, public and private agency employees, and concerned citizens are urged to help the Campbell County School District find any child who may have a disability and need Special Education or 504 services. The District needs to know the name and age, or date of birth of the child; the name, address, and phone number(s) of the parents or guardian; the possible disability; and other information to determine if Special Education or 504 services are needed.

If you know of a child who lives within the boundaries of the Campbell County School District who may have a disability, and may need but is not receiving Special Education or 504 services, please call Campbell County Schools or send the information to:

CYBER BULLYING AND CYBER CONDUCT

Appropriate cyber conduct involves a set of rules for behaving properly online. In an educational setting, examples of appropriate cyber conduct include:

- Maintaining professional standards when communicating with teachers, students, parents, and administrators
- Maintaining the confidentiality of information about students, parents, teachers or administrators
- Respecting the rights of all members of the online community and acting in a manner that facilitates the orderly functioning of that community
- Ensuring that appropriate safeguards and protection measures are in place prior to posting personal or professional data

Cyber bullying: The use of information and communication technology to bully, embarrass, threaten or harass another. It also includes the use of information and communication technology to engage in conduct or behavior that is derogatory, defamatory, degrading, illegal, and/or abusive.

Information and Communication Technology: Equipment that includes, but is not limited to any current or emerging stationary or wireless technologies or systems that can be used by individuals or groups for the purpose of communication, entertainment, data management, word processing, internet access, image capture/recording, sound recording and information transmitting/ receiving/ storing.

Safe School Environment: Within the context of cyber conduct, it is an environment where teaching and learning takes place while accessing and utilizing all the educational opportunities, influence and potential of information and communication technology. Furthermore, it is a setting that is equitable and free from hazards and abuses directed at, or occurring from, users of information and communication technology.

Cyber misconduct (electronic) that originates from the school or from the community-at-large, which ultimately has a negative impact on the school climate and/or culture, warrants immediate and decisive action by the school/district, including the imposition of sanctions, when appropriate, on the offenders. Allowing others to utilize your personal equipment (cell phones, pagers, etc.) and/or passwords may also result in consequences for both parties. Students underage or posting school information considered to be a violation of the privacy rights of others on social media (e.g., Facebook, YouTube, Instagram, Twitter, etc.) will be reported to the site administrators of these sites (if applicable) in addition to possible disciplinary consequences.

BULLYING AND HAZING PREVENTION

KRS 158.148 states that "bullying" means any unwanted verbal, physical, or social behavior among students that involves a real or perceived power imbalance and is repeated or has the potential to be repeated:

1. That occurs on school premises, on school-sponsored transportation (includes bus stop, school bus, or vehicle owned, leased or used by the school district), or at a school sponsored or school related activity, function or program whether it takes place on or off school grounds. This includes the use of technology or electronic devices owned, leased, or used by the district.
2. That disrupts the education process, or the orderly operation of a school. This definition shall not be interpreted to prohibit civil exchange of opinions or debate or cultural practices protected under the state or federal Constitution where the opinion expressed does not otherwise materially or substantially disrupt the education process.

Bullying is a behavior that is repeated, or is otherwise so severe, intense, persistent or pervasive, that a reasonable person would understand it to be threatening, intimidating, harassing, humiliating, embarrassing or taunting in its nature.

- Verbal bullying includes but is not limited to: teasing; name-calling; inappropriate sexual comments; taunting; or threatening to cause harm.
- Social bullying includes but is not limited to: leaving someone out on purpose; telling other students not to be friends with someone; spreading rumors about someone; or embarrassing someone in public.
- Physical bullying includes but is not limited to: hitting, kicking, or pinching; spitting; tripping or pushing; taking or breaking someone's things; or making mean or rude hand gestures.

KRS Chapter 508 states that “hazing” means a direct action which substantially endangers the physical health of a minor or student for the purpose of recruitment, initiation into, affiliation with, or enhancing or maintaining membership or status within any organization, including but not limited to actions which coerce or force a minor or a student to:

- Violate federal or state criminal law;
- Consume any food, liquid, alcoholic liquid, drug, tobacco product, or other controlled substance which subjects the minor or student to a risk of serious physical injury;
- Endure brutality of a physical nature, including whipping, beating or paddling, branding, or exposure to the elements;
- Endure brutality of a sexual nature; or
- Endure any other activity that creates a reasonable likelihood of serious physical injury to the minor or student.

The Campbell County School District believes everyone should be treated with respect and common courtesy to ensure a safe learning environment. Our prevention efforts include annual training that is on-going with all staff and students regarding bullying education/recognition, prevention and intervention. Anyone within the school environment that has witnessed or been a victim of bullying behavior can report it to school or district officials verbally or in writing so that appropriate action may be taken to prevent such behavior.

COMPULSORY ATTENDANCE

Any child who is six (6) years of age by August 1st shall attend school. Any child who is five (5) years of age by August 1st may enter a primary school program, as defined by KRS 158.031. Any parent/guardian who elects to send a child five (5) years of age to school will keep the child in regular attendance.

Regular attendance is the responsibility of the parent, guardian, or custodian. Kentucky state law places the responsibility with the parent, guardian, or custodian of enrolling a child in school and keeping the child in regular attendance (KRS 158.030, KRS 159.010, KRS 159.150). Each parent, guardian or other person having in custody or charge any child who has entered the primary school program or any child between the ages of six (6) and eighteen (18) shall send the child to school for the full term that school is in session. A child's age is between six (6) and eighteen (18) when the child has reached his or her sixth birthday and has not passed his or her eighteenth birthday.

Parents/guardians must submit a signed parent or doctor note to school anytime a child is absent or tardy. If a valid note is not received within reasonable time after an absence or tardy (refer to school handbook), the absence or tardy will be unexcused. A note is required even if the parent/guardian wrote the reason for the absence or tardy on the sign-in/sign-out log at the time of check-in or check-out. Per board policy 09.123, a parent is allowed 3 parent notes per semester or 6 such notes per school year.

In general, a valid excuse is a legitimate excuse such as illness, medical or dental appointment, death in the family, or other reasons as approved by the school principal.

TRUANCY (KRS 159.150)

Any child (including any student age 18+ who is enrolled in public school) who has been absent without valid excuse for three (3) or more days or tardy on three (3) or more days is truant. Any child who has been reported as truant two (2) or more times is habitually truant. Thus, a student who has accumulated six (6) unexcused absences, tardies or a combination thereof is habitually truant.

SPECIAL ATTENDANCE CIRCUMSTANCES (KRS 159.035)

KRS 159.035 references excused absences for educational enhancement opportunities of "significant educational value." Any request to a principal from a parent, referencing this law, must include the specific educational purpose including the relevant curriculum area. These areas, as stated in the law, are limited to English, Science, Social Studies, Foreign language, Mathematics, the Arts and 4-H club activities. Any student pre-approved under this provision, for up to ten days per year, will be considered present at school.

Further, any student who has a parent, guardian or other person with legal custody that is a member of the United States Armed Forces called to active duty shall receive an excused absence for one day when the member leaves for deployment and one day when the member returns from deployment (KRS 159.035), and up to 10 days for visitation when the member is stationed out of the country and is granted rest and recuperation leave. In addition, students attending basic training in the U.S. Armed Forces shall be considered present up to ten (10) days.

DRIVER'S LICENSE REVOCATION (KRS 159.051)

Students who are sixteen (16) or seventeen (17) years old who become academically deficient or deficient in attendance shall be reported to the Transportation Cabinet for driver's license, permit or driving privilege revocation.

Academic and Attendance Deficiencies

Academic and attendance deficiencies for students age sixteen (16) or seventeen (17) enrolled in regular, alternative, part-time, and special education programs shall be defined as follows:

1. They shall be deemed academically deficient if they have not received passing grades in at least five (5/7) courses, or the equivalent of five (5/7) courses, taken in the preceding semester.
2. They shall be deemed deficient in attendance when they drop out of school or accumulate nine (9) unexcused absences in a class/classes for the preceding semester. Suspensions shall be considered unexcused absences.

Reinstatement of Driving Privilege

Students whose driving permits are revoked, but later meet the statutory standards for reinstatement, must then apply to the Director of Pupil Personnel to have their standing confirmed. The District shall make the required report to the appropriate agency.

PARTICIPATION IN GRADUATION EXERCISES

No student shall be permitted to participate in graduation ceremonies until all graduation requirements per policy 08.133 have been fulfilled, as determined by the Principal. Graduating seniors having **10 or more** unexcused absences during the year will not be permitted to participate in graduation activities or the commencement ceremony. The high school student handbook includes details concerning specific graduation requirements.

BUS CONDUCT RULES

PLEASE KEEP IN MIND THAT RIDING THE SCHOOL BUS IS A PRIVILEGE, NOT A RIGHT

2. Students are to sit in the seat assigned by the driver. If no seat has been assigned, student should sit in the first available seat.

6. Students are to avoid unnecessary conversations with the bus driver and are not to interfere with his/her vision.

10. Students who must cross the roadway should cross in front of the bus after the driver signals them that it is safe to do so.
11. Students are to ride only their assigned bus and exit the bus only at their regular stop or at school. Exceptions will be made only with written permission from the principal/designee.
12. Students are to respect the people they pass while on the bus. They are not to yell or make signs/gestures to any passers-by.
13. Students are not to damage the bus and should report any damage to the driver. If they do cause damage, their parents or guardians will be held responsible for restitution.
14. At no time are students permitted to eat, drink (other than water), or be in possession or use tobacco products (including electronic cigarettes or other vaping devices, matches, lighters, or any open flame device) on the bus.

 - Content or use does not violate the law or school district policy and procedures (e.g., pornography, foul language, inappropriate content, bullying and harassment)
 - No videotaping, audiotaping, or taking pictures
 - Use does not create a distraction to the driver

The bus driver will assist the principal in seeing that the above rules and procedures are carried out. If any pupil persists in violating these procedures, the driver shall notify the principal. The principal may suspend bus-riding privileges. Students who lose bus-riding privileges shall not be eligible to transfer to another bus while the privilege is suspended.

ADDITIONAL TRANSPORTATION INFORMATION

It shall be the responsibility of the parent, guardian, or person authorized by the parent of a child to provide supervision (safety and conduct) to and from the bus stop and delivery to and receipt from the driver assistant.

- A. Bus transportation service is offered daily for all pupils who reside on an assigned route. Information on bus assignments will be available one week prior to school opening. To protect children's safety, those students enrolled in various special education programs, pre-school programs, or kindergarten will not be dropped off at a location where an adult is not present. To help ensure this, plans must be made by parents/guardians to have children picked up and dropped off at the same location on a regular basis. Regarding preschool students, the designated adult to receive the child must be at the bus door-side drop-off location.
- B. Some items may not be transported by bus which may include but are not limited to glass objects, skateboards, balloons, certain band instruments, skis, etc. Contact the Transportation Department for any questions regarding specific items.
- C. Should the conduct of a pupil on a bus endanger the lives and/or safety of the pupil or others and the offending pupil fails to cease such conduct when directed by the bus driver, it shall be the duty of the driver to put the offender off the bus and report the action to the principal and the Director of Transportation immediately. This should be done only in extreme cases and as a last resort to protect student safety. In addition, local law enforcement may be contacted if deemed necessary.
- D. Any complaints of drivers, pupils, or parents not specified in the regulations listed above shall be reported promptly to the principal or the Director of Transportation.
- E. After verification by the principal and meeting with the student, parents will be notified of each offense that warrants removal from the bus or school suspension.
- F. When an offense occurs during the morning run, the pupil will be permitted to ride home in the afternoon if the principal deems it to be safe and appropriate for all.
- G. When an offense occurs during the afternoon run, the pupil will be permitted to ride to school the following morning if the pupil does not present a danger to the lives or morals of other pupils. This is done because the driver cannot report the incident to the principal for disciplinary action until that time.
- H. Preschool students who are continually (3 or more times) brought back to school due to parents/ guardians being unavailable to receive them may have their transportation service suspended.
- I. Please develop a back-up plan with your children for unexpected events such as the possibility you are not home due to an emergency, traffic, etc. There could be many situations that necessitate such a plan.

Unless special circumstances exist, due to FERPA laws regarding confidentiality, the viewing of school or bus recordings by non-school personnel is limited by law.  - (a) Willful disobedience or defiance of the authority of the teachers or administrators, use of profanity or vulgarity, assault or battery or abuse of other students, the threat of force or violence, the use or possession of alcohol or drugs, stealing or destruction or defacing of school property or personal property of students, the carrying or use of weapons or dangerous instruments, or other incorrigible bad conduct on school property, as well as off school property at school-sponsored activities, constitutes cause for suspension or expulsion from school; and
 - (b) Assault or battery or abuse of school personnel; stealing or willfully or wantonly defacing, destroying, or damaging the personal property of school personnel on school property, off school property, or at school-sponsored activities constitutes cause for suspension or expulsion from school.

- (2) (a) Each local board of education shall adopt a policy requiring the expulsion from school for a period of at least twelve (12) months for a student who:
 1. Is determined by the board through clear and convincing evidence to have made threats that pose a danger to the well-being of students, faculty, or staff of the district; or
 2. Is determined by the board to have brought a weapon to a school under its jurisdiction. In determining whether a student has brought a weapon to school, a local board of education shall use the definition of "unlawful possession of a weapon on school property" stated in KRS 527.070.(b) The board shall also adopt a policy requiring disciplinary actions, up to and including expulsion from school, for a student who is determined by the board to have:
 1. Possessed prescription drugs or controlled substances for the purpose of sale or distribution at a school under the board's jurisdiction;
 2. Physically assaulted or battered or abused educational personnel or other students at a school or school function under the board's jurisdiction; or
 3. Physically assaulted, battered, or abused educational personnel or other students off school property and the incident is likely to substantially disrupt the educational process.

- (3) (a) The board may modify the expulsion requirement and length for students on a case-by-case basis, except the length of expulsion shall be at least twelve (12) months for a violation set forth in subsection (2)(a) of this section.
 - (b) Nothing in this section shall prohibit a board from expelling a student for longer than twelve (12) months.
 - (c) A board that has expelled a student from the student's regular school setting shall provide or ensure that educational services are provided to the student in an appropriate alternative program or setting, unless the board has made a determination, on the record, supported by clear and convincing evidence, that the expelled student posed a threat to the safety of other students or school staff and could not be placed into a state-funded agency program. Behavior which constitutes a threat shall include but not be limited to the physical assault, battery, or abuse of others; the threat of physical force; being under the influence of drugs or alcohol; the use, possession, sale, or transfer of drugs or alcohol; the carrying, possessing, or transfer of weapons or dangerous instruments; and any other behavior which may endanger the safety of others. Other intervention services as indicated for each student may be provided by the board or by agreement with the appropriate state or community agency. A state agency that provides the service shall be responsible for the cost.
 - (d)
 1. In lieu of expelling a student, or upon the expiration of a student's expulsion, a superintendent may place a student into an alternative program or setting if the superintendent determines placement of the student in his or her regular school setting is likely to substantially disrupt the education process or constitutes a threat to the safety of other students or school staff. The action shall not be taken until the parent, guardian, or other person having legal custody or control of the student has had an opportunity to have a hearing before the board or an appeals committee as described in subparagraph 2. of this paragraph.
 2. The board may adopt a policy to establish an appeals committee and delegate the authority to hear appeals made under this paragraph to that committee.
 3. The alternative program or setting may be provided virtually.
 4. Notwithstanding any other statute or administrative regulation to the contrary, students placed in an alternative program or setting under this paragraph shall be counted in attendance and membership for state funding purposes in the same manner as other students participating in alternative programs of the district.
 5. Students placed in an alternative program or setting under this paragraph shall be subject to compulsory attendance requirements under KRS Chapter 159 and applicable local board policy.
 6. Following the initial alternative placement of a student under this paragraph, the board shall review the alternative program or setting placement at least once per year and determine if the placement should be continued in accordance with subparagraph 1. of this paragraph.

- (4) For purposes of this subsection, "charges" means substantiated behavior that falls within the grounds for suspension or expulsion enumerated in subsection (1) of this section, including behavior committed by a student while enrolled in a private or public school, or in a school within another state. A school board may adopt a policy providing that, if a student is suspended or expelled for any reason or faces charges that may lead to suspension or expulsion but withdraws prior to a hearing from any public or private school in this or any other state, the receiving district may review the details of the charges, suspension, or expulsion and determine if the student will be admitted, and if so, what conditions may be imposed upon the admission, which may include placement of the student into an alternative program or setting as described in subsection (3)(d) of this section.
- (5) (a) School administrators, teachers, or other school personnel may immediately remove or cause to be removed threatening or violent students from a classroom setting or from the district transportation system pending any further disciplinary action that may occur. Each board of education shall adopt a policy to assure the implementation of this section and to assure the safety of the students and staff.
- (b) Except as described in subsection (10) of this section:
1. A principal may establish procedures for a student's removal from and reentry to the classroom when the student's behavior disrupts the classroom environment and education process or the student challenges the authority of a supervising adult. In addition to removal, the student shall be subject to further discipline for the behavior consistent with the school's code of conduct.
 2. A student who is removed from the same classroom three (3) times within a thirty (30) day period shall be considered chronically disruptive and may be suspended from school in accordance with this section, and no other basis for suspension shall be deemed necessary.
 3. At any time during the school year, for a student who has been removed from the classroom under this paragraph, a principal may require a review of the classroom issues with the teacher and the parent, guardian, or other person having legal custody or control of the student and determine a course of action for the teacher and student regarding the student's continued placement in the classroom.
 4. At any time during the school year, a principal may permanently remove a student from a classroom for the remainder of the school year if the principal determines the student's continued placement in the classroom will chronically disrupt the education process for other students.
 5. When a student is removed from a classroom under this paragraph temporarily or permanently, the principal shall determine the placement of the student in lieu of that classroom, which may include but is not limited to:
 - a. Another classroom in that school; or
 - b. An alternative program or setting, which may be provided virtually, as approved by the superintendent.
 6. Any permanent action by a principal under this paragraph shall be subject to an appeal process in accordance with a policy adopted by the board.
 7. Policies compliant with this paragraph shall be included in the code of behavior and discipline adopted by the board of education under KRS 158.148 and the policies adopted by the school council under KRS 160.345.
- (6) A student shall not be suspended from the common schools until after at least the following due process procedures have been provided:
- (a) The student has been given oral or written notice of the charge or charges against him or her which constitute cause for suspension;
 - (b) The student has been given an explanation of the evidence of the charge or charges if the student-denies them; and
 - (c) The student has been given an opportunity to present his or her own version of the facts relating to the charge or charges.

These due process procedures shall precede any suspension from the common schools unless immediate suspension is essential to protect persons or property or to avoid disruption of the ongoing academic process. In such cases, the due process procedures outlined above shall follow the suspension as soon as practicable, but no later than three (3) school days after the suspension.

- (7) (a) The superintendent, principal, assistant principal, or head teacher of any school may suspend a student but shall report the action in writing immediately to the superintendent and to the parent, guardian, or other person having legal custody or control of the student.
- (b) 1. The board of education of any school district may expel or extend the expulsion of any student for misconduct as described in subsection (1) of this section, but the action shall not be taken until the parent, guardian, or other person having legal custody or control of the student has had an opportunity to have a hearing before the board. The decision of the board shall be final.
2. Within thirty (30) days prior to the end of a student's expulsion, the board shall review the details of the expulsion and current factors and circumstances, including if ending the expulsion will substantially disrupt the education process or constitute a threat to the safety of students or school staff, to determine if the expulsion shall be extended for a period not to exceed twelve (12) months.
3. The expulsion review process shall be used prior to the end of each expulsion period until the board ends the expulsion or the student is no longer subject to compulsory attendance under KRS 159.010.
4. Each board of education shall adopt a policy for implementation of the process described in this paragraph.
- (8) (a) Suspension of exceptional children, as defined in KRS 157.200, shall be considered a change of educational placement if:
1. The child is removed for more than ten (10) consecutive days during a school year; or
2. The child is subjected to a series of removals that constitute a pattern because the removals accumulate to more than ten (10) school days during a school year and because of other factors, such as the length of each removal, the total amount of time the child is removed, and the proximity of removals to one another.
- (b) The admissions and release committee shall meet to review the placement and make a recommendation for continued placement or a change in placement and determine whether regular suspension or expulsion procedures apply. Additional evaluations shall be completed, if necessary.
- (c) If the admissions and release committee determines that an exceptional child's behavior is related to his or her disability, the child shall not be suspended any further or expelled unless the current placement could result in injury to the child, other children, or the educational personnel, in which case an appropriate alternative placement shall be provided that will provide for the child's educational needs and will provide a safe learning and teaching environment for all. If the admissions and release committee determines that the behavior is not related to the disability, the local educational agency may pursue its regular suspension or expulsion procedure for the child, if the behavior so warrants. However, educational services shall not be terminated during a period of expulsion and during a suspension after a student is suspended for more than a total of ten (10) days during a school year. A district may seek temporary injunctive relief through the courts if the parent and the other members of the admissions and release committee cannot agree upon a placement and the current placement will likely result in injury to the student or others.
- (9) Suspension of primary school students shall be considered only in exceptional cases where there are safety issues for the child or others.
- (10) Any action under this section related to students with disabilities shall be in compliance with applicable federal law.
- (11) Nothing in this section shall be interpreted or construed to preclude the requirements contained in KRS 158.305 or 158.4416.

ASSAULT AND THREATS OF VIOLENCE

Whenever a teacher, classified employee, or school administrator is functioning in his capacity as an employee of a board of education of a public school system, it shall be unlawful for any person to direct speech or conduct toward the teacher, classified employee, or school administrator when such person knows or should know that the speech or conduct will disrupt or interfere with normal school activities or will nullify or undermine the good order and discipline of the school (KRS 161.190).

Any student who threatens, physically assaults, batters or abuses another student shall be subject to appropriate disciplinary action, including suspension or expulsion. Students may also be subject to prosecution or juvenile justice interventions for assault, threats, or other abusive conduct.

Any student who threatens, physically assaults, batters or physically or verbally abuses educational personnel on or off school property (and the incident is likely to substantially disrupt the educational process) shall be subject to appropriate disciplinary action up to and including expulsion from school and/or legal action.

SUSPENSION/EXPULSION PROCEDURES
FOR STUDENTS IDENTIFIED WITH EDUCATIONAL DISABILITIES

- (1) The ARC may consider any circumstances on a case by case basis when determining whether to order a change in placement for a child with a disability who violates a code of student conduct.
- (2) School personnel may remove a student with a disability who violates a code of student conduct from the student's placement to an appropriate interim alternative education setting, another setting, or suspension, for not more than ten (10) consecutive school days (to the extent those alternatives are applied to children without disabilities).
- (3) School personnel may remove a student with a disability from the student's current placement for additional periods of time of not more than ten (10) consecutive school days in the same school year for separate incidents of misconduct, as long as those removals do not constitute a change in placement because of disciplinary removals.
- (4) After a child with a disability has been removed from the child's current placement for ten (10) school days in the same school year, educational services as described in subsection (5) (a) and (b) below shall be provided during any subsequent days of removal.
- (5) A child with a disability who is removed from the child's current placement for more than ten (10) consecutive school days, including an IAES placement, shall:
 - a. Continue to receive a free, appropriate public education so as to enable the child to continue to participate in the general curriculum, although in another setting, and to progress toward meeting the goals set out in the child's IEP; and
 - b. Receive, as appropriate, a functional behavioral assessment, and behavioral intervention services, and modifications, that are designed to address the behavior violation so that it does not recur.
- (6) The services described in subsection (5) of this section may be provided in an interim alternative educational setting.
- (7) The CCSD shall provide educational services to a child with a disability during periods of removal of ten (10) or less school days in the same school year if it provides services to children without disabilities who are similarly removed.
- (8) After a child with a disability has been removed from the child's current placement for ten (10) school days in the same school year, and the current removal is for not more than ten (10) consecutive school days and is not a change in placement because of disciplinary removals, school personnel, in consultation with at least one (1) of the child's teachers, shall determine the extent to which educational services explained in subsection (5) of this section are needed.
- (9) 11th Day and Subsequent Removal Periods Determination of Change of Placement— Before the child is removed for the 11th day in any school year and before any subsequent removals during the same school year, the building principal and the DoSE, or designee, determine if the removal constitutes a change in educational placement. They must be in agreement that the removal is not an educational change in placement. If they do not so agree, the removal is treated as a change in educational placement.
- (10) If a removal is a change in placement because of disciplinary removals, the child's ARC shall convene within ten (10) school days after the change of placement is made and shall determine the appropriate educational services for the child. If the student has been placed in an interim alternative educational setting, the CCSD shall invite staff from that alternative setting to the ARC meeting.

Manifestation Determination and Interim Alternative Educational Setting (IAES)

- (1) Within ten (10) school days of any decision to change the placement (including an IAES) of a child with a disability because of a violation of a code of student conduct, the relevant members of the child's ARC, as determined by the CCSD and the parent, shall convene a meeting to review all relevant information in the student's file, including the child's IEP, any teacher observations, teacher collected data, and any relevant information provided by the parents to determine:
 - a. If the conduct in question was caused by, or had a direct and substantial relationship to the child's disability; or
 - b. If the conduct in question was the direct result of the LEA's failure to implement the IEP.
- (2) The conduct shall be determined to be a manifestation of the child's disability if the ARC determines that either of the conditions in subsection (1)(a) or (b) of this section was met.
- (3) If the ARC determines the condition described in subsection (1)(b) of this section was met, the CCSD shall take immediate steps to remedy those deficiencies.
- (4) If the ARC determines the conduct was a manifestation of the child's disability, the ARC shall:
 - a. (i) Conduct/provide for a functional behavioral assessment, unless the LEA had conducted a functional behavioral assessment before the behavior that resulted in the change of placement occurred and had implemented a behavioral intervention plan for the child; or
 - a. (ii) Review the behavioral intervention plan, (if one has already been developed) and modify it, as necessary, to address the behavior; and
 - b. Return the child to the placement from which the child was removed unless the CCSD and the parent agree to a change of placement as part of modification of the behavioral intervention plan or because of the special circumstances (interim alternative educational setting) explained in subsection (5) of 707 KAR 1:340.
- (5) School personnel may remove a child with a disability to an interim alternative educational setting for not more than forty-five (45) school days without regard to whether the behavior is a manifestation of the child's disability if the child:
 - a. Carries a weapon to, or possesses a weapon at, school, on school premises, or to, or at, a school function under the jurisdiction of KDE or the CCSD;
 - b. Knowingly possesses or uses illegal drugs, or sells or solicits the sale of a controlled substance while at school, on school premises, or at a school function under the jurisdiction of the KDE or the CCSD; or
 - c. Has inflicted serious bodily injury upon another person while at school, on school premises, or at a school function under the jurisdiction of KDE or the CCSD.
- (6) If the behavior that gave rise to the violation of the school code is determined not to be a manifestation of the child's disability, school personnel may apply the relevant disciplinary procedures to children with disabilities in the same manner and for the same duration as the procedures would be applied to children without disabilities for removals that would exceed ten (10) consecutive school days. If the ARC determines the behavior is not related to the disability of the child, the summary recorder documents the ARC's decision on the district form including:
 - a. The decision of the ARC;
 - b. A description of any evaluation procedure, test, record, or report the ARC used to reach its decision; and
 - c. Any other factors relevant to the ARC's decision.
- (7) If the Superintendent did not serve as the CCSD Representative, within two (2) calendar days of the ARC's determination that the behavior is not related to the disability of the child, the CCSD Representative informs the Superintendent of the ARC's decision. If this determination is made, the Superintendent may recommend expulsion to the CCSD Board of Education according to the CCSD's regular policies and procedures for expulsion.
- (8) On the date on which a decision is made to make a removal that constitutes a change of placement of a child with a disability because of a violation of the code of student conduct, the CCSD shall notify the parents of the decision and provide the parents with a copy of the procedural safeguards including parent's rights in accordance with Section 4 of 707 KAR 1:340.
- (9) The ARC of the child shall determine the interim alternative educational setting and the services for any child removed under Sections 13(4), 13(10) and 14(5) of 707 KAR 1:340.

HEALTH SERVICES AND MENTAL HEALTH SERVICES (KRS 158.1415)

The Campbell County School District will provide a safe and supportive learning environment for students by offering health services and mental health services.

The Campbell County School District and personnel will respect the rights of parents to make decisions regarding the upbringing and control of the student by following policies and procedures which encourage students to discuss mental or physical health or life issues with their parents or through the facilitation of discussions with parents. Therefore, the school district does not provide health services or mental health services related to human sexuality, contraception, or family planning. If the school changes the health services or mental health services related to human sexuality, contraception, or family planning that it provides, it shall obtain parental consent prior to providing health services or mental health services to the student.

Parental consent for health services, mental health services, or a referral to an external health care provider shall be obtained prior to the service (i.e., administering medication, telehealth visit). Parents have rights to access the student's educational or health record held by the district.

Nothing shall prohibit the district or the district's personnel from seeking or providing emergency medical or mental health services for a student as outlined in the district's policies or remove the duty to report pursuant to KRS 620.030.

Each school, with grades 6 through 12, shall develop policies and follow procedures outlined in KRS 158.1415 for curriculum related to human sexuality and sexually transmitted diseases. The policy shall include advance parent notification and written consent before the student receives any instruction through curriculum or programs on human sexuality or sexually transmitted diseases. Schools shall provide an alternative course, curriculum, or program without any penalty to the student's grade or standing for students whose parents have not provided written consent.

Students in grade five (5) and below do not receive any instruction through curriculum or programs on human sexuality or sexually transmitted diseases.

- "External health care provider" means a provider of health or mental health services that is not employed by or contracted with the school district to provide services to the district's students;
- "Health services" has the same meaning as in KRS 156.502;
- "Mental health services" means services provided by a school-based mental health services provider as defined in KRS 158.4416 but shall not include academic or career counseling; and
- "Parent" means a person who has legal custody or control of the student such as a mother, father, or guardian.

ALCOHOL, DRUGS, AND OTHER PROHIBITED SUBSTANCES

Alcohol, Drugs, And Other Prohibited Substances

No pupil shall purchase, possess, attempt to possess, use, be under the influence of, sell, or transfer any of the following on or about school property, at any location of a school sponsored activity, or in route to or from school or a school sponsored activity:

1. Alcoholic beverages;
2. Controlled substances, prohibited drugs and substances and drug paraphernalia; and
3. Substances that "look like" a controlled substance. In instances involving look-alike substances, there must be evidence of the student's intent to pass off the item as a controlled substance.

In addition, students shall not possess prescription drugs for the purpose of sale or distribution.

Definitions

Controlled substance means any substance or immediate precursor listed in Chapter 218A of the Kentucky Revised Statutes or any other substance added by regulation under KRS 218A.010.

Prohibited drugs include, but are not limited to, any substance that an individual may not sell, possess, use, distribute or purchase under Federal or Kentucky law.

Prohibited substances include:

1. All prescription drugs obtained without authorization, and
2. All prohibited substances however taken or used, including but not limited to, inhaling, ingesting, and/or injecting. These include, but are not limited to, prescribed and over-the counter drugs, prohibited volatile substances as defined in KRS 217.900 or synthetic compounds/substances that are used or intended for use for an abusive and/or intoxicating purpose.

Reporting

Employees of the District shall promptly make a report to the local police department, sheriff, or Kentucky State Police, by telephone or otherwise, if they know or have reasonable cause to believe that conduct has occurred which constitutes the use, possession, or sale of controlled substances on the school premises or within one thousand (1,000) feet of school premises, on a school bus, or at a school sponsored or sanctioned event. In addition, when they have reasonable belief that a violation has taken place, Principals shall immediately report to law enforcement officials when an act has occurred on school property or at a school-sponsored function that involves student possession of a controlled substance on school property in violation of the law.

Drug Testing Program Purpose

In this day and time alcohol and other forms of drug abuse have grown to major proportions in our society. The middle and high school settings are not exempt from this phenomenon. Therefore, it is critical that educators and parents continually look for ways to institute programs that encourage a drug-free lifestyle for their students/children. It is to that end that this program is created to provide the appropriate action plan to address and foster a drug-free environment for the entire Campbell County middle and high school community.

The program consists of two components:

1. Education and Prevention Plan
2. Drug Testing Policy

Education and Prevention Plan

Educational Training: During the calendar school year, students should attend one (1) educational training on alcohol and drug abuse. This school-sponsored training conducted by appropriate instructional staff will be **accessible to all** Campbell County middle- and high-school students but shall be **required for all** athletic and extracurricular team members and for students applying for a parking pass who wish to drive and park on school property. Students may attend this training at the school in which they are enrolled. Upon the completion of the educational training, an open question and answer session will be conducted.

Each coach, sponsor, or director of an athletic and/or extracurricular team will administer an educational training session for their respective teams during the first week of their season beginning. **All students who are listed on the roster will be required to attend this educational training session scheduled during a regular practice session.** Each coach, sponsor, or director of an athletic and/or extracurricular team should in advance to this educational training notify the Athletic Director (for all athletic teams) or the Associate Principal (for band and parking) of the date and time of their scheduled educational training session. Any student listed on the roster not attending this educational training session should be reported to the Athletic Director (for all athletic teams) or the Associate Principal (for band and parking) and that student is now ineligible to participate.

Training in Drug Awareness: Middle- and high-school teachers will be given an opportunity to receive training in drug awareness. Part of the training will enable each teacher to incorporate drug awareness information into his/her current curriculum. A keener teacher awareness of drug abuse signs and symptoms, as well as methods of referral, will be a direct result of the training. Instructional units on drug abuse, such as those currently taught in our health courses, will be enhanced by this teacher education component.

Seminars for Parents/Guardians: Educational seminars for parents/guardians that will address alcohol and other forms of drug abuse will be established in conjunction with other school programming. The central purpose of these sessions will be to provide parents/guardians with necessary information to gain information toward drug prevention.

Alcohol and Drug Safety Policy

All student athletes/extracurricular participant/drivers and their parents/guardians must read this policy and accompanying procedures and must acknowledge, in writing, that they have read the policy and procedures, understand the policy and procedures, and agree to be bound by the terms and conditions contained in the policy and procedures.

Statement of Need: All athletic and extracurricular team coaches/sponsors and the administration of Campbell County Middle and High school recognize that the unlawful use of alcohol and other drugs seriously impairs the health, safety, education, and future success of middle- and high-school students engaged in that use. It is also recognized that the unlawful use of alcohol and other drugs is a potential problem for all middle- and high-school students.

Students engaged in interscholastic athletics and extracurricular activities often are viewed by fellow students as holding or enjoying positions of notoriety and are confronted by unique pressures and risks that make them particularly vulnerable to the harms presented by that use. Because of the potential notoriety derived from athletic and extracurricular participation, students also potentially impact or influence the attitudes and actions of other members of the student body. Finally, in order to deal effectively with drug and alcohol pressures and health risks, we believe that it is imperative to adopt a mandatory drug testing policy governing the illegal use of drugs by student participants in the Campbell County middle- and high-school athletic teams, extracurricular activities, and those seeking a parking pass for school property.

Athletic teams and extracurricular activities covered by this policy shall apply to all middle- and high-school varsity and sub-varsity athletic and extracurricular activities, including, but not limited to, baseball, boys' basketball, girls' basketball, boys' cheerleading, girls' cheerleading, cross-country, football, softball, tennis, track, wrestling, golf, volleyball, swimming and marching band. The subsequent addition of any extracurricular activity, varsity or sub-varsity sport shall immediately be subject to this policy.

Statement of Purpose: This policy is intended to support the comprehensive educational policies and programs of the District in educating students and their parents/guardians as to the dangers inherent in the unlawful use of drugs and alcohol. The policy is further intended to provide encouragement to middle- and high-school students who voluntarily choose to participate on athletic teams, in extracurricular activities, and/or to drive or park on school property to avoid such use and to strive to benefit from effective rehabilitation when such use has occurred.

Administrators shall not use information obtained in the course of administering the policy for disciplinary purposes other than those set forth herein. This policy is not designed to be used, nor shall it voluntarily be used in any manner, to provide a source of information for law enforcement agencies or for the prosecution of the student or to limit the student's participation in the school activities, other than the limitations imposed by this policy. Without a specific written authorization from the tested student or parent/guardian, if the student is under 18 years of age, the administrator shall not release any student's test results to any person other than those described within this policy or as required by law or a lawfully issued subpoena or court order. If a student is 18 years of age, authorization from the student about the student's test results will be told to the student and then also his/her guardian; other than those described within this policy or as required by law or a lawfully issued subpoena or court order.

In order to accomplish its purposes, this policy establishes a program for procedures to deter the unlawful use of drugs and alcohol and to provide for suspension and termination of participation on the teams when deterrence is unsuccessful. To determine compliance with the policy, it provides a testing program to identify student participants who are unlawfully using drugs. For these students this policy provides incentives for rehabilitation through possible reinstatement to the specific athletic team or extracurricular activity involved.

Consistent with its purposes, this policy also seeks to achieve the following objectives:

1. To protect District students from impairing their health, safety, education, and future success through the unlawful use of alcohol and other drugs.
2. To protect District students and their opponents from potential injury during competition resulting from the unlawful use of alcohol and other drugs.
3. To protect District students from the potential stigma of unsubstantiated allegations of unlawful use of alcohol and other drugs.
4. To assure students, parents, teachers, and the community that the health, safety, education, and future success of the student participants are the primary concerns of the District.

Implementation, Review, and Evaluation: All student participants and their parents/guardians must sign the "Drug Testing and Educational Training Consent Form" before the student can be permitted to attend the educational training conducted for the student by his/her athletic team coach, or extracurricular activity sponsor/director at the middle- and high-school levels, or obtain a parking pass permission form to be authorized to drive or park on school property and attend a parking pass educational training session.

A Substance Abuse Prevention Committee (Committee) shall be established and shall have the overall responsibility for implementing this policy. The Committee may consist of the school Principals, Head Coaches of the athletic teams, designated sponsors of extracurricular activities, Athletic Director, Title IV Coordinator, School Health Coordinator, Counselor, Superintendent, and Board Members.

The Committee shall establish procedures as needed to implement the policy fairly and efficiently. In addition, the Committee shall review and evaluate the effectiveness of the drug testing policy on an annual basis. The evaluation shall include, but not be limited to, the effectiveness of the comprehensive educational and counseling program, substance testing program, procedural safeguards, and the list of drug substances tested. The Committee shall not have access to any of the test results. The Committee's purpose is limited to procedures and evaluation of the policy.

Applicability: This policy applies to all students choosing to participate in any extracurricular activity, including students/players at the varsity and sub-varsity levels, and to students who drive or park on school property.

Education: At least once during the first week of the competitive season, all Coaches/Sponsors/Directors and other appropriate Certified Staff shall require attendance at an educational training on drug abuse for all student participants (as outlined in the Education and Prevention Plan section of this policy). The training conducted shall be open to attendance by the student participants and their parents/guardians and the training shall be administered by appropriate instructional staff. Those students participating in the training will be asked to demonstrate an understanding of the main components of the drug education training through an open discussion forum.

Testing Program: Testing shall be accomplished by the analysis of urine specimen obtained from the student participants. Collection and testing procedures shall be established, maintained, and administered to ensure:

1. Randomness of selection procedures
2. Proper student identification
3. Identification of each specimen with the appropriate student participant
4. Maintenance of the unadulterated integrity of the specimen
5. Integrity of the collection and testing process, as well as the confidentiality of test results (The specific testing process shall be on file at the testing laboratory approved by the Board.)

Substances Tested: Student participants' urine or other specimen may be tested for the following, which include, but may not be limited to:

1. Amphetamines
2. Marijuana (THC)
3. Cocaine and its derivatives
4. Opiates
5. Phencyclidine (PCP)
6. Benzodiazepine
7. Propoxyphene
8. Anabolic steroids
9. Alcohol
10. Other abused, illegal, or prohibited substances as determined by the committee

Sanctions

First Violation

1. A student testing positive will be suspended for the next four (4) consecutive interscholastic/extracurricular events or the next four (4) weeks of the season, whichever is greater in time. Student drivers will be denied permission to drive and/or park on school property for the next four (4) consecutive weeks of school during school hours. The suspension will begin the date that the results are confirmed from the testing agent to the school designee. If necessary, the suspension shall carry over to the student's subsequent participation on another athletic team/extracurricular activity and/or the following season as well as affecting driving and parking on school property. In addition to the suspension period, the student will also be required to speak with a school counselor of their choosing for a minimum of one acceptable counseling session (Counselor will sign off on the student's success or lack thereof).
2. In order to be eligible to return to the activity and practice during the suspension, the student must enroll in a school-approved drug-counseling program (approved by the counselor who conducted the previous counseling session), at their expense and submit to weekly drug testing at their expense and maintain a negative test result.
3. Prior to readmission to participation to the athletic team/ extracurricular activity or reauthorization to drive (after the four-week suspension), the student must submit to a new drug test administered for the student and in accordance with the same procedures utilized for random drug testing at the student's expense (at an approved outside agency, if the CCS testing agent has not yet returned). The test results must be presented and be negative for a reinstatement to occur. A positive result shall be treated as a second violation.
4. If a student is reinstated to the athletic team/extracurricular activity or driving privileges following the first violation, the student's participation in another activity shall not be restricted solely because of the existence of the first violation, as long as the student has completed the period of suspension and was appropriately reinstated to the prior activity. If the student elects not to seek reinstatement to the activity after a first violation (either because of the student's own election or because the season concluded prior to the expiration of the student's period of suspension), the student is still required to serve the unexpired portion the suspension before becoming eligible for participation in any other extracurricular activity. A student serving a suspension for any sport may try out for a second sport if the student provides a negative drug test result from the testing laboratory under contract. If the student successfully makes the team or joins an extracurricular group, prior to participation, the student must serve the unexpired portion of the previous suspension. The student must complete all forms required for participation on another extracurricular activity, and the student must submit to a new drug test administered in accordance with the same procedures utilized for random drug testing. A positive result shall be treated as a second violation.

Second Violation

1. For a second violation, the student participant shall be suspended for the next eighteen (18) consecutive interscholastic/extracurricular events or eighteen (18) consecutive weeks, whichever is greater in time. Student drivers with a second violation may be denied permission to drive and/or park on school property for the next eighteen (18) consecutive weeks of school. If necessary, the suspension shall carry over to the student's subsequent participation on another athletic team/extracurricular activity and/or the following season. Before reinstatement to the activity after a second violation, the student participant must successfully complete recommendations that resulted from the chemical dependency assessment as evidenced by a written statement to that effect issued by a treatment counselor. The student must submit to a new drug test administered in accordance with the same procedures utilized for random drug testing. A positive result shall be treated as a third violation.
2. If a student is reinstated to the activity following a second violation, the student's participation in another activity shall not be restricted solely because of the existence of the second violation, as long as the student has completed the period of suspension and the required chemical dependency program and was appropriately reinstated to the prior activity. If the student elects not to seek reinstatement to an activity after a second violation (either because of the student's own election or because the season concluded prior to the expiration of the student's period of suspension) the student is still required to serve the unexpired portion of the suspension before becoming eligible for any other extracurricular activity. A student serving a suspension for one sport/activity may try out for a second sport or join a second activity if the student provides a negative drug test result from the testing laboratory under contract. If the student makes the team, prior to participation, the student must serve the unexpired portion of the previous suspension. The student must submit to a new drug test administered in accordance with the same procedures utilized for random drug testing. A positive result shall be treated as a third violation.

Third Violation

The student participant or driver shall be excluded from participation in any extracurricular activity for the remainder of the student's eligibility.

A third violation shall disqualify the student's involvement in all extracurricular activities (varsity and sub- varsity) or from driving/parking on school property for the remainder of his/her enrollment in the District.

Student Drug Testing Procedures

STUDENTS

The district's comprehensive plan for drug and alcohol prevention includes an integration of academics and appropriate curriculum activities that address solutions to violence and drugs. These curriculum activities include special programs for the awareness and prevention of violence and drug/alcohol abuse along with instructional programs in content areas such as health, science, and social studies.

Students shall be involved in activities that help develop their problem-solving abilities and encouraged in implementing self-management systems that emphasize responsible group membership as well as self-sufficiency. Programs such as DARE and Project BRAVO are examples of programs available in the schools.

At the beginning of each school year students shall receive a handbook containing the Student Discipline Code. Teachers shall be instructed to review the Discipline Code with students. Students shall have access to guidance services at all levels to discuss with guidance counselors any drug/alcohol problems which affect the student.

The District also has a policy on random drug testing for extracurricular activity students, namely athletes, marching band, and students who wish to drive and park on District property. Additionally, educational training shall be provided for parents, students, employees, and the public regarding health hazards, specific characteristics of use, and general awareness of drug and alcohol use.

All student athletes/extracurricular participants (including marching band)/drivers and their parents/guardians must read the policy and accompanying procedures and must acknowledge, in writing, that they understand the policies and procedures, and agree to be bound by their terms and conditions. This form is identified as the "Drug Testing and Educational Training Consent Form" (09.423 AP.21).

The policy shall be monitored by the Superintendent or his/her designee.

An athlete or extracurricular participant (including marching band) from Campbell County High School or Middle School listed on the season roster must:

1. Read the Alcohol, Drugs, and Other Prohibited Substances Policy – 09.423 – and the accompanying procedures and attest in writing through the "Drug Testing and Educational Training Consent Form" to understanding and abiding to the same.
2. Parent/Guardian and Student must sign the "Drug Testing and Educational Training Consent Form." This form should be turned in to the coach/sponsor/director before or on the day of the educational training provided by the school and conducted by each coach/sponsor/director.
3. Attend a required educational training provided by the school and conducted by each coach/sponsor/director.
4. Submit to random drug testing when necessary.

Any student before obtaining an application for a parking pass to drive and park on school property at Campbell County High School must:

1. Read the Alcohol, Drugs, and Other Prohibited Substances Policy – 09.423 – and the accompanying procedures and attest in writing through the "Drug Testing and Educational Training Consent Form" to understanding and abiding to the same.
2. Parent/Guardian and Student must sign the "Drug Testing and Educational Training Consent Form." This form should be turned in to an appropriate staff member before or on the day of the educational training.
3. Attend a required educational training provided by the school and conducted by an appropriate staff member.
4. Submit to random drug testing when necessary.

RANDOM TESTING

1. A minimum of 20% of the active participants (whether sport, extra-curricular, or student drivers) at the given time of the test shall be tested. A random test shall be conducted at least once per season; however, more than one random test may be administered.
2. The testing procedure used shall either be by collection of urine or saliva sample.
3. Students who refuse to complete the random drug testing or are unable to produce a sample when selected shall be treated as having a positive test result and shall fall into the First Violation category. The parent/guardian shall be contacted by an appropriate staff member if a student refuses random drug testing or is unable to produce a sample and it will be suggested to have him/her tested. A student who refuses or could not produce a sample may not come back the next day and ask to be tested.
4. The cost of the drug testing shall be covered by an annual fee assessed through athletic, extra-curricular, or parking fees collected from students.
5. A Parent/Guardian shall be contacted by phone by the testing agent upon a positive result. A student who is eighteen (18) years of age shall be told of his/her positive result first, and then the parent/guardian shall be told of the positive result.
6. Test results shall be reported to the Superintendent's designee and appropriate building level designee who shall take appropriate action.

IMPLEMENTATION AND EVALUATION

A steering committee shall be formed to establish procedures to implement the random drug testing and annually evaluate the policy's effectiveness. The steering committee shall be chaired by the Superintendent's designee and have membership as follows:

1. Superintendent's designee: 1 person
2. Associate Principals from CCHS and CCMS: 2 people
3. District Athletic Director: 1 person
4. District Health Nurse: 1 person

Two (2) separate subcommittees shall be formed for each school (CCHS and CCMS) and made up of the following members:

2. Guidance Counselor: 1 person
3. Parent from SBDM or volunteer: 1 person
4. Male coach/sponsor/director: 1 person
5. Female coach/sponsor/director: 1 person

Each subcommittee shall then provide recommendations to the administrator who is a representative of the steering committee. That administrator shall then provide to the steering committee any procedural changes and concerns of the effectiveness of the Alcohol, Drugs, and Other Prohibited Substances policy.

The steering committee shall then provide recommendations to the Superintendent regarding procedural changes and the effectiveness of the policy.

CANINE SWEEPS AND VEHICLE INSPECTION WARNING

Campbell County School district works collaboratively with local law enforcement agencies to provide professional canine detection sweeps. We allow the canine unit to visit any facility in the Campbell County School district. Visits to any facility may be scheduled by school administration or conducted on a random basis. The length of each visit will vary and shall be determined upon each visit.

When the canine unit visits any facility in the District, the dog and dog handler are allowed to freely search all areas of the school property. Classrooms and lockers are visited as well as large commons areas, such as parking lots, gymnasiums, auditoriums, and courtyards. The dog and dog handler are accompanied by a school administrator, but it is not mandatory.

The use of canine units has been very successful. The dog handlers should be recognized as an authority figure and students should comply with requests and treat them in an appropriate manner. Students should refrain from whistling or making distracting noises to the dog that is performing its job. The searches conducted by the canine unit are done in a manner not to deter from the school environment, but to protect our learning environment.

The sign below will be placed at the entrances to all Campbell County Schools. As it states, **any vehicle** parked at any of the school locations is subject to being searched.
