 3. Possession of a weapon. Authorized law enforcement officials are the only persons permitted to have a weapon in their possession while on school property or at a school function.
 4. Displaying what appears to be a weapon.
 5. Threatening to use any weapon.
- F. Engage in any conduct that endangers the safety, morals, health, or welfare of others. Examples of such conduct include, but are not limited to:
1. Lying to school personnel. Lying, giving a false name, deception through misrepresentation or omission of facts, tampering with or falsification of information or documents, and similar offenses.
 2. Theft while on school property or attending a school function. This includes illegal entry into a computer file.
 3. Extortion. Knowingly coercing another individual to comply with their wishes.
 4. Defamation, which includes making false or unprivileged statements or representations about an individual or identifiable group of individuals that harm the reputation of the person or the identifiable group by demeaning them. This can include posting or publishing of information and media regardless of form, e.g. images, audio recordings, video, printed material.
 5. Discrimination based on a person's actual or perceived race, age, sexual orientation, color, creed, national origin, ethnic group, religion, religious practice, sex, sexual orientation, gender or gender identity, marital or veteran status, use of a recognized guide dog, hearing dog or service dog, or disability as a basis for treating another in a negative manner on school property or at a school function.
 6. Harassment. The creation of a hostile environment through any means; intimidation or abuse that has or would have the effect of unreasonably and substantially interfering with a student's educational performance, opportunities, or benefits, or mental, emotional, or physical well-being based on a

person's actual or perceived race, color, weight, national origin, political affiliation, ethnic group, religion, religious practice, marital or veteran status, use of a recognized guide dog, hearing dog or service dog, disability, sexual orientation, gender, or sex.

7. "Internet bullying" (also referred to as "cyber bullying") including the use of instant messaging, email, websites, chat rooms, text messaging, or communication by any other electronic means, when such use interferes with the operation of the school; or infringes upon the general health, safety, and welfare of students or employees.
8. Bullying, which includes a pervasive pattern of actions or statements directed at an individual or group which are intended to be intimidating, teasing, taunting, or spreading rumors that cause the person or group to be socially isolated through intentional exclusion in written, physical, verbal, or electronic form.
9. Sexual harassment such as unwelcome sexual advances; requests for sexual favors; taking, sending, or receiving sexually explicit videos, pictures, or auditory recordings; and other verbal or physical conduct of a sexual nature.
10. Students communicating obscene pictures or lewd jokes, making sexual advances, requesting sexual favors, or engaging in other harassing activities of a sexual nature.
11. Intimidation, which includes engaging in actions or statements that put an individual in fear of bodily harm and/or emotional discomfort; for example: "play" fighting, extortion of money, overt teasing, etc.
12. Hazing, which includes any intentional or reckless act directed against another for the purpose of initiation into, affiliating with, or maintaining membership in any school-sponsored activity, organization, club, or team.
13. Selling, using, purchasing, or possessing obscene material.
14. Using vulgar or abusive language, cursing, or swearing.
15. Smoking a cigarette, cigar, pipe, or using chewing or smokeless tobacco. Regardless of percentage of nicotine content, electronic and/or vapor-based devices are prohibited.
16. Possessing, consuming, being under the influence of, selling, distributing, or exchanging alcoholic beverages or illegal substances, or a substance the student believes to be or represents alcohol or an illegal substance or mind-altering substance. Illegal or mind-altering substances include, but are not limited to, inhalants, marijuana, cocaine, LSD, PCP, amphetamines, heroin, steroids, look-alike drugs, synthetics, synthetic cannabinoids, and any substances commonly referred to as "designer drugs."
17. Possession of drug-related paraphernalia including, but not limited to pipes, bongs, vials, scales, rolling papers, pill bottles, small zip-lock bags, electronic vapor devices, vapor cartridges, etc.
18. Sale, purchase, possession, use, or sharing of prescription and over-the-counter drugs.
19. Gambling, including "pools" of any kind.
20. Indecent exposure, that is, exposure to sight of the private parts of the body in a lewd or indecent manner.
21. Displays of affection beyond handholding.
22. Initiating a report warning of fire or other catastrophe without valid cause, misuse of 911, or discharging a fire extinguisher.
23. Interfering with school security protocols, including disrupting a drill or propping a locked door.

G. Engaging in Off Campus Misconduct

A student may be subject to discipline for conduct that may constitute a crime which is committed off school premises or at non-school sponsored activities to the extent that the Superintendent of Schools, building principal, or Board of Education reasonably believes that continued attendance by the student would adversely affect the educative process (e.g. disrupts the operation of the school) or constitutes an

endangerment to the health, safety, welfare or morals of the student or others in our schools. In addition, the District may impose discipline for off-campus misconduct constituting a crime.

A student may be subject to discipline for off-campus conduct that does not involve criminality to the extent that the Superintendent of Schools or Board of Education reasonably believes has a nexus to the educative process, i.e., student-student, student-personnel interactions that foreseeably would have a detrimental or disruptive effect upon school programs or activities.

H. Bus Transportation Misconduct/Bus Behavior Code

It is crucial for students to behave appropriately while riding on district buses to ensure their safety and that of other passengers, and to avoid distracting the bus driver. Students are required to conduct themselves on the bus in a manner consistent with established standards for classroom behavior. Excessive noise, pushing, shoving, fighting, harassment, and discrimination will not be tolerated.

I. Engage in any form of academic misconduct. Examples of academic misconduct include:

1. Plagiarism, including computer generated reports or work products.
2. Cheating.
3. Copying.
4. Tampering with records.
5. Assisting another student in any of the above actions.
6. Any of the above actions using a computer or means of electronic communication, or misuse of electronic systems.

J. Exhibit Attendance Issues

Education is a joint responsibility of the parents and the school community. Parents, in particular, play an important role in shaping their child's academic success. Parents/guardians are legally obligated to comply with New York State Education Law, which mandates that children be in attendance every day that school is in session. Please refer to the Comprehensive Attendance Plan for attendance classifications.

Student Absence - Parent/guardian must call the attendance office before 9 a.m. on the day the student is absent. After having been absent from school, students are required to bring a note from home on the day they return to school, unless the parent/guardian has called the attendance office. Upon returning, students shall go to the attendance officer to present the excuse note signed by the parent or guardian.

Illness while home for lunch - If a high school student goes home for lunch and becomes sick, a parent is to call the school before the start of afternoon classes. A note from the parent or guardian is to be presented to the attendance officer on the next attendance day.

Exclusion from after school activities - If a student is absent from school or arrives after 10:30 a.m. to the Middle/High School, after 11:30 a.m. to the Elementary, or leaves school early due to an illness, he/she shall not participate in after school activities. In the case of a weekend activity, an absence or lateness from the last official school day will exclude students from participation in activities. Any exceptions will be at the discretion of the Principal or their designee.

Illness while at school - If a student becomes ill during the school day, he/she must report to the nurse. The nurse will contact the parent and determine if the student should remain in school for the remainder of the day. If a student leaves school due to illness, he/she must be dismissed through the nurse's office. Any student leaving school without being released through the nurse's office will be given an unexcused absence from classes missed.

Doctor's Appointment - If a student must leave school for a doctor's appointment, he/she must present a note to the attendance office before dismissal. Any student leaving school for an appointment without reporting to the attendance office will be given an unexcused absence from classes missed. A doctor's note must be provided upon return to school.

Absences from class and disciplinary measures:

1. Excused Absence from Class

When a student returns to school after an excused absence, the student is to contact each teacher on the day of return. The teacher and student will establish deadlines for the completion of all work missed. If the work is not completed, a "zero" will be recorded.

2. Truancy

Absences from a full day of school that are unexcused and/or without parental consent are deemed to be cases of truancy. An absence as part of a class "skip day" is unexcused and will be considered truant. Students may not receive credit for any tests/assignments that took place during the truancy.

3. Class Cuts

If a student decides not to attend a scheduled class period, it will be considered a cut. This includes study halls. Students will not receive any credit for any tests/assignments that took place during the cut class. In the case of a student who is 10 or more minutes late to class, the lateness will be regarded as a cut for discipline purposes and consequences will be assigned. However, students arriving late are expected to do the class assignment for that period. Three or more consecutive cuts in one day will be handled as truancy. Accumulation of class cuts will earn students these consequences:

1st cut—teacher or administrative detention, documentation in database, parental notification;

2nd cut—administrative detention, documentation in database, parental notification;

3rd cut—two administrative detentions, documentation in database, parental notification;

4th cut —extended detention, documentation in database, parental notification;

5+ cuts—Alternative Learning Environment

These are cumulative cuts for the entire school year.

4. Class Lateness

Teacher will record the number of times that a student is late to class, including period one. If a student is less than ten minutes late to class and is unexcused, consequences will result. Accumulation of class latenesses will earn students these consequences:

1st late—teacher warning;

2nd late—teacher detention, documentation in database, parental notification;

3rd late—teacher detention, documentation in database, parental notification;

4th late—administrative detention, documentation in database, parental notification

5+late—Extended detention, documentation in database, parental notification.

These cumulative latenesses to class will be reset for each of the 4 quarters.

K. Fail to Obey Driving Regulations

1. All New York State Traffic Laws
Safe speeds should always be used on school grounds. The speed limit on school property is 10 mph.
2. Vehicles are prohibited on the emergency access road between the Mabel Merritt building and the flagpole circle (parallel to the swings).
3. Students are prohibited from parking on campus during the school day, unless assigned to a parking spot in the Senior Parking Lot. Student parking will be determined by the administration.
4. Unsafe starts or “burning rubber” is not permitted.
5. “Horseplay” or reckless driving is dangerous and will not be allowed.

VIII. Reporting Violations

All students are expected to promptly report violations of the Code of Conduct to a teacher, guidance counselor, building principal or their designee. Any student with knowledge of a student possessing a weapon alcohol, or illegal substance on school property or at a school function shall report this information immediately to a teacher, building principal, superintendent or their designee.

All district staff authorized to impose disciplinary sanctions are expected to do so in a prompt, fair, and lawful manner. District staff that are not authorized to impose disciplinary sanctions are expected to promptly report violations of the Code of Conduct to their supervisor, who shall in turn impose an appropriate disciplinary sanction, if so authorized, or refer the matter to a staff member who is authorized to impose an appropriate sanction.

Any weapon, alcohol, or illegal substance found shall be confiscated immediately, if possible, followed by notification to the parent of the student involved and the appropriate disciplinary sanction if warranted, which may include permanent suspension and referral for prosecution.

The building principal or their designee must notify the appropriate local law enforcement agency of those Code violations that constitute a crime and substantially affect the order or security of a school as soon as practical but, in no event, later than the close of business the day the principal or their designee learns of the violation. The notification may be made by telephone, followed by a letter mailed the same day as the telephone call is made. The notification must identify the student and explain the conduct that violated the Code of Conduct and is constituted a crime.

IX. Disciplinary Consequences, Procedures, and Referrals

Discipline is most effective when it deals directly with the problem at the time and place it occurs, and in a way that students view as fair and impartial. School personnel who interact with students are expected to use disciplinary action only when necessary and to place emphasis on the students’ ability to grow in self-discipline.

Disciplinary action, when necessary, will be firm, fair, and consistent to effect positive change in student behavior. In determining the appropriate disciplinary action, school personnel authorized to impose disciplinary consequences will consider the following:

1. The student's age.
2. The nature of the offense and the circumstances that led to the offense.
3. The student's prior disciplinary record.
4. The effectiveness of other forms of discipline.
5. Information from parents, teachers, and/or others, as appropriate
6. Other extenuating circumstances.

As a general rule, discipline will be progressive. This means that the consequence for misconduct may increase in severity with multiple, repeated, or subsequent violations of the Code of Conduct.

If the student in question has been classified as disabled or is a student suspected of having a disability as defined by law, and the suspension will result in the student being suspended for a period of longer than ten days, the student shall be referred to the Committee on Special Education to ascertain whether the misconduct is related to a disability in accordance with the separate requirements of this Code of Conduct for disciplining students with a disability or presumed to have a disability.

A student identified as having a disability shall be disciplined for behavior related to his or her disability only to the extent permitted by law, and in accordance with the separate requirements of this Code of Conduct for disciplining students with a disability or presumed to have a disability.

A. Definitions

The Code of Conduct defines various areas of student involvement or behavior. It is understood that the administration has the prerogative of exceeding any of the consequences specified in the Code depending on the seriousness of the situation, or reducing the consequence specified in the Code depending upon mitigating circumstances. A record will be kept of a student's infractions and the disciplinary measures incurred. Subsequent infractions of the same regulation will result in the imposition of increasingly severe consequences.

Detention

Teachers, principals, and the superintendent may use after school detention as a consequence for student misconduct in situations where removal from the classroom or suspension would be inappropriate. Detention will be imposed as a consequence only after the student's parents have been notified to confirm that there is no parental objection to the consequence and the student has appropriate transportation home following detention.

1. Elementary Recess Detention

Depending on the seriousness of the situation, teachers, principals, and the Superintendent may use recess detention as a consequence for student misconduct. Parents will be notified when recess detention has been assigned.

2. Teacher Detention

Teacher detention consists of a quiet study hall supervised by a staff member. Detentions can be held prior to the beginning of school, after the school day, or during lunch at the discretion of the teacher. One-day notice or parent notification is necessary except for lunch detention. Students will be afforded the opportunity to eat lunch. Students must be present at the beginning of detention period. Any student arriving after the beginning will not be allowed to enter and will be considered cutting. Transportation will be available for these detentions.

3. Administrative Detention

Administrative detention will be held after school from 3:00-4:00 PM, to allow students to attend extra help prior to the detention. A student will be notified in writing, or verbally, of the administrative detention. A concerted effort will be made to notify the parents with a phone call followed by a letter prior to the detention. Permission to be excused must be obtained from the dean of students or the principal prior to the detention period. If a student cuts an administrative detention, the student will be assigned to an extended detention. A student with an excused absence from school on the date of an assigned detention will be required to make up the time on the next detention period. Detentions will be scheduled on the first available date according to the school calendar; student school conflicts (i.e. extracurricular activities/sports) will not be considered in the assigning of the detentions. No transportation will be provided.

4. Extended Detention

A quiet, supervised study hall will be held from 3:00-6:00 PM depending on the nature of the offense. The building principal or their designee may issue an extended detention. If the extended detention is the same day as the HEART Program (an after school tutorial session), students will be allowed to attend the HEART Program to get help with their work. If a student is asked to leave the HEART Program after being afforded this privilege, they will no longer be eligible to attend the HEART Program. Extended detentions will be held as scheduled and students will be assigned on the first available date. If a student misses an extended detention, or is removed because of disciplinary reasons, the student will be assigned a one day in school suspension. In all cases, students are required to make up the extended detention. Students who repeatedly fail to serve extended detentions will face suspension. If a student misses extended detention due to an excused absence, the extended detention will be rescheduled on the next available date. An extended detention that is not served within one week of the originally scheduled date will be served as a day in the Alternative Learning Environment. Parents will be notified of this extended detention. No transportation will be provided.

5. In School Suspension

The Board recognizes the school must balance the need of students to attend school and the need for order in the classroom to establish an environment conducive to learning. As such, the Board authorizes building principals and the superintendent to place students who would otherwise be suspended from school as the result of a Code of Conduct violation in an in-school suspension.

A student assigned to an in-school suspension is not entitled to a full hearing pursuant to Education Law §3214. However, the student and the student's parent will be provided with a reasonable opportunity for an informal conference with the District official imposing the sentence to an in-school suspension to discuss the conduct and the consequence involved.

Students assigned to an in-school suspension will work in a supervised area and will be provided with an opportunity for instruction and assignments to complete throughout the school day. Students who are assigned to an in-school suspension will not be permitted to resume their regular schedule until the day has been served. Students removed from an in-school suspension for disciplinary reasons will receive an additional

day of an in school suspension. Any student who disrupts an in-school suspension or interferes with its progress will be assigned one day in an in school suspension. Students who serve a day in an in-school suspension will not be allowed to participate in any extracurricular activities on the same day.

6. Social Suspension

A student subjected to a suspension from athletic participation, school activities, or other privileges is not entitled to a full hearing pursuant to Education Law §3214. However, the student and the student's parent will be provided with a reasonable opportunity for an informal conference with the district official imposing the suspension to discuss the conduct and the consequence involved.

Social suspension is defined as the removal from co-curricular and extracurricular activities including but not limited to proms, dances, non-academic field trips, and sports for a specific period of time determined by the principal. Social suspension should not be confused with Ineligibility.

7. Suspension from transportation

If a student does not conduct himself/herself properly on a bus, the bus driver is expected to bring such misconduct to the building principal's attention. Students who become a serious disciplinary problem may have their riding privileges suspended by the building principal or the superintendent or their designees. In such cases, the student's parent will become responsible for seeing that his or her child gets to and from school safely. Should the suspension from transportation interfere with a student's ability to get to school, the district will make arrangements to provide alternate transportation.

A student subjected to a suspension from transportation is not entitled to a full hearing pursuant to Education Law §32 14. However, the student and the student's parent will be provided with a reasonable opportunity for an informal conference with the building principal or the principal's designee to discuss the conduct and the consequence involved.

A suspension from transportation may constitute a "change in placement" for a student who has been classified as disabled, if the student's Individualized Educational Program (IEP) specifies that transportation must be provided. In such cases, transportation suspensions for misconduct related to a disability are limited to the same extent as suspensions from school under similar circumstances.

8. Teacher disciplinary removal of disruptive students.

A student's behavior can affect a teacher's ability to teach and can make it difficult for other students in the classroom to learn. In most instances the classroom teacher can control a student's behavior and maintain or restore control over the classroom by using good classroom management techniques. These techniques may include practices that involve the teacher directing a student to briefly leave the classroom to give the student an opportunity to regain his or her composure and self-control in an alternative setting. Such practices may include, but are not limited to: (1) short-term "time out" in an elementary classroom or in an administrator's office; (2) sending a student into the hallway briefly; (3) sending a student to the principal's office for the remainder of the class time only; or (4) sending a student to a guidance counselor or other district staff member for counseling. Time-honored classroom management techniques such as these do not constitute disciplinary removals for purposes of this code.

On occasion, a student's behavior may become disruptive. For purposes of this Code of Conduct, a disruptive student is a student who is substantially disruptive of the educational process or substantially interferes with the teacher's authority over the classroom. A substantial disruption of the educational process or substantial

interference with a teacher's authority occurs when a student demonstrates a persistent unwillingness to comply with the teacher's instructions or repeatedly violates the teacher's classroom behavior rules. A classroom teacher may remove a disruptive student from class for up to two days. The removal from class applies to the class of the removing teacher only.

If the disruptive student does not pose a continuing danger or ongoing threat of disruption to the academic process, the teacher must provide the student with an explanation for why he or she is being removed and an opportunity to explain his or her version of the relevant events before the student is removed. Only after the informal discussion may a teacher remove a student from class.

If the student poses a continuing danger or ongoing threat of disruption, the teacher may order the student to be removed immediately. The teacher must, however, explain to the student why he or she was removed from the classroom and give the student a chance to present his or her version of the relevant events within 24-hours. The teacher must complete a district-established disciplinary referral and meet with the principal or their designee as soon as possible, but no later than the end of the school day, to explain the circumstances of the removal and to present the removal form. If the principal or designee is not available by the end of the same school day, the teacher must leave the form with the secretary and meet with the principal or designee prior to the beginning of classes on the next school day.

Within 24-hours after the student's removal, the principal or another district administrator designated by the principal must notify the student's parents in writing that the student has been removed from class and why. The notice must also inform the parent that he or she has the right, upon request, to meet informally with the principal or the principal's designee to discuss the reasons for the removal.

The written notice must be provided by personal delivery, express mail delivery, or some other means that is reasonably calculated to assure receipt of the notice within 24 hours of the student's removal at the last known address for the parents. Where possible, notice should also be provided by telephone if the school has been provided with telephone number(s) for the purpose of contacting parents.

The principal may require the teacher who ordered the removal to attend the informal conference.

If at the informal meeting the student denies the charges, the principal or the principal's designee must explain why the student was removed and give the student and the student's parents a chance to present the student's version of the relevant events. The informal meeting must be held within 48 hours of the student's removal. The timing of the informal meeting may be extended by mutual agreement of the parent and principal.

The principal or the principal's designee may overturn the removal of the student from class if the principal finds any one of the following:

1. The charges against the student are not supported by substantial evidence.
2. The student's removal is otherwise in violation of law, including the district's Code of Conduct.
3. The conduct warrants suspension from school pursuant to Education Law §3214 and a suspension will be imposed.

The principal or their designee may overturn a removal at any point between receiving the referral form issued by the teacher and the close of business on the day following the 48-hour period for the informal conference, if a conference is requested. No student removed from the classroom by the classroom teacher

will be permitted to return to the classroom until the principal makes a final determination, or the period of removal expires, whichever is less.

Any disruptive student removed from the classroom by the classroom teacher shall be offered continued educational programming and activities until he or she is permitted to return to the classroom.

Removal of a student with a disability, under certain circumstances, may constitute a change in the student's placement. Accordingly, no teacher may remove a student with a disability from his or her class until he or she has verified with the principal or the chairperson of the Committee on Special Education that the removal will not violate the student's rights under state or federal law or regulation.

9. Suspension from school.

Suspension from school is a severe consequence, which may be imposed only upon students who are insubordinate, disorderly, violent or disruptive, or whose conduct otherwise endangers the safety, morals, health, or welfare of others.

The Board retains its authority to suspend students, but places primary responsibility for the suspension of students with the superintendent and the building principals, or acting principal in the absence of a building principal.

Any staff member may recommend to the superintendent or the principal that a student be suspended. All staff members must immediately report and refer a violent student to the principal or the superintendent for a violation of the Code of Conduct. All recommendations and referrals shall be made in writing unless the conditions underlying the recommendation or referral warrant immediate attention. In such cases, a written report is to be prepared as soon as possible by the staff member recommending the suspension. The superintendent or principal, upon receiving a recommendation or referral for suspension or when processing a case for suspension, shall gather the facts relevant to the matter and record them for subsequent presentation, if necessary.

A. Short-term (5 days or less) suspension from school. When the superintendent or principal (referred to as the "suspending authority") proposes to suspend a student charged with misconduct for five days or less pursuant to Education Law §3214(3), the suspending authority must immediately notify the student orally. If the student denies the misconduct, the suspending authority must provide an explanation of the basis for the proposed suspension. The suspending authority must also notify the student's parents in writing that the student may be suspended from school. The written notice must be provided by personal delivery, express mail delivery, or some other means that is reasonably calculated to assure receipt of the notice within 24 hours of the decision to propose suspension at the last known address for the parents. Where possible, notice should also be provided by telephone.

The notice shall provide a description of the charges against the student and the incident for which suspension is proposed, and shall inform the parents of the right to request an immediate informal conference with the principal. Both the notice and informal conference shall be in the dominant language or mode of communication of the parents. At the conference, the parents shall be permitted to ask questions of complaining witnesses under such procedures as the principal may establish.

The notice and opportunity for an informal conference shall take place before the student is suspended unless the student's presence in school poses a continuing danger to persons or property or

an ongoing threat of disruption to the academic process. If the student's presence does pose such a danger or threat of disruption, the notice and opportunity for an informal conference shall take place as soon after the suspension as is reasonably practicable.

After the conference, the principal shall promptly advise the parents in writing of their decision. The principal shall advise the parents of their right to appeal if they are not satisfied with the decision. The parents must send a written appeal to the superintendent within five business days, unless they can show extraordinary circumstances precluding them from doing so. The superintendent shall issue a written decision regarding the appeal within 10 business days of receiving the appeal. If the parents are not satisfied with the superintendent's decision they must file a written appeal with the Board of Education via the district clerk within 10 business days of the date of the superintendent's decision unless they can show extraordinary circumstances precluding them from doing so. Only final decisions of the Board may be appealed to the New York State Commissioner of Education within 30 days of the decision.

B. Long-term (more than 5 days) suspension from school.

When the superintendent or building principal determines that a suspension for more than five days may be warranted, he or she shall give reasonable notice to the student and the student's parents of their right to a fair hearing. At the hearing the student shall have the right to be represented by counsel, the right to question witnesses against him or her, and the right to present witnesses and other evidence on his or her behalf.

The superintendent shall preside over the hearing and determine the proceeding or may, at their discretion, designate a hearing officer to conduct the hearing. The hearing officer shall be authorized to administer oaths and to issue subpoenas in conjunction with the proceeding before them. A record of the hearing shall be maintained, but no stenographic transcript shall be required. A tape recording shall be deemed a satisfactory record. The hearing officer shall make findings of fact and recommendations as to the appropriate measure of discipline to the superintendent. The report of the hearing officer shall be advisory only, and the superintendent may accept all or any part thereof.

An appeal of the decision of the superintendent may be made to the Board that will make its decision based solely upon the record before it. All appeals to the Board must be submitted in writing to the district clerk within 10 business days of the date of the superintendent's decision, unless the parents can show extraordinary circumstances precluding them from doing so. The Board may adopt in whole, or in part, the decision of the superintendent. Final decisions of the Board may be appealed to the New York State Commissioner of Education within 30 days of the decision.

C. Permanent suspension.

Permanent suspension is reserved for extraordinary circumstances such as where a student's conduct poses a life-threatening danger to the safety and wellbeing of other students, school personnel, or any other person on school property or attending a school function.

E. Referrals

1. Counseling

All student counseling referrals will be processed by the guidance office, social worker, school psychologist, and/or, when possible, the Child Study Team (CST).

2. PINS Petitions

The District may file a PINS (Person In Need of Supervision) petition in Family Court on any student under the age of 18 who demonstrates that he or she requires supervision and treatment by:

- a. Being habitually truant and not attending school as required by part one of Article 65 of the Education Law.
- b. Engaging in an ongoing or continual course of conduct that makes the student ungovernable or habitually disobedient and beyond the lawful control of the school.
- c. Knowingly and unlawfully possessing marijuana in violation of Penal Law §221.05. A single violation of § 221.05 will be a sufficient basis for filing a PINS petition.

3. Juvenile Delinquency and Juvenile Offenders

The superintendent is required to refer the following students to the County Attorney for a juvenile delinquency proceeding before the Family Court:

- a. Any student under the age of 16 who is found to have brought a weapon to school, or
- b. Any student 14 or 15 years old who qualifies for juvenile offender status under the Criminal Procedure Law § 1.20 (42).

B. Consequences

Students who are found to have violated the District's Code of Conduct may be subject to one or more of the following consequences. The school personnel identified after each consequence are authorized to impose that consequence, consistent with the student's right to due process.

	All District Staff	Board of Education	Superintendent	Principals	Dean of Students	Athletic Directors	Teachers	Coaches	Guidance Counselors	Aides	Teacher's Assistants

C. Other Interventions

1. Parent Conference
2. Counseling with school social worker, psychologist, or guidance counselor
3. Peer Mediation
4. Child Study Team Referral
5. District Referral Team
6. Referral for Dialectical Behavioral Therapy

D. Procedures

The amount of due process afforded to a student is commensurate to the severity of the violation and impact of the consequence imposed. In all cases, the student must be informed of the alleged misconduct and is entitled to an investigation by authorized school personnel, to the extent necessary, of the facts surrounding the alleged misconduct. All students will be afforded the opportunity to present their version of the facts to the school personnel responsible for adjudication of the violation.

X. Alternative Instruction

When a teacher removes a student of any age from class or a student of compulsory attendance age is suspended from school pursuant to Education Law §3214, the district will take immediate steps to provide alternative means of instruction for the student,

XI. Corporal Punishment

Corporal punishment is any act of physical force upon a student for the purpose of punishing that student. Corporal punishment of any student by any District employee is strictly forbidden.

The District will file all complaints about the use of corporal punishment with the Commissioner of Education in accordance with Commissioner's regulations.

XII. Physical Restraint

1. The use of reasonable physical force is permitted when standard methods and practices are ineffective at controlling a situation or behavior and maintaining a safe environment for the student and others. Such force may be used to: Protect oneself, another student, teacher, or any person from physical injury.
2. Protect the property of the school or others.
3. Restrain or remove a student whose behavior interferes with the orderly exercise and performance of school district functions, powers and duties, if that student has refused to refrain from further disruptive acts.

XIII. Student Searches and Interrogations

The Board of Education is committed to ensuring a safe and orderly environment. To achieve this environment, administration may question a student about an alleged violation of law or the district Code of Conduct. Students are not entitled to any sort of "Miranda-type" warning before being questioned by school officials, nor are school officials required to contact a student's parent before questioning the student.

In addition, the Board authorizes the superintendent or their designee, building principals, and building administrators to conduct searches of students and their belongings if the authorized school official has reasonable suspicion to believe that the search will result in evidence that the student violated the District Code of Conduct.

An authorized school official may conduct a search of a student's belongings that is minimally intrusive, such as touching the outside of a book bag, so long as the school official has a legitimate reason for the very limited search.

Before searching a student or the student's belongings, the authorized school official should attempt to get the student to voluntarily consent to the search. Searches will be limited to the extent necessary to locate the evidence sought.

Whenever practicable, searches will be conducted in the privacy of administrative offices with a witness. Students will be present when their possessions are being searched. No District official shall conduct a search that requires the removal of clothing other than outerwear, hats, shoes, and socks.

A. Student Lockers, Desks, and other School Storage Places

The rules in this Code of Conduct regarding searches of students and their belongings do not apply to student lockers, desks, and other school storage places, physical or digital realm. Students have no reasonable expectation of privacy with respect to these places and school officials retain complete control over them. This means that student lockers, desks, and other school storage places may be subject to search at any time by school officials, without prior notice to students and without their consent.

B. Documentation of Searches

The authorized school official conducting the search shall be responsible for promptly documenting the following information about each search:

1. Name, age, and grade of student searched.
2. Reasons for the search.
3. Name of any informant(s).
4. Purpose of search (that is, what item(s) were being sought).
5. Type and scope of search.
6. Person conducting search and his or her title and position.
7. Witnesses, if any, to the search.
8. Time and location of search.
9. Results of search (that is, what item(s) were found).
10. Disposition of item(s) found.
11. Time, manner, and results of parental notification.

The building principal or their designee shall be responsible for the custody, control, and disposition of any illegal or dangerous item taken from a student. The principal or their designee shall clearly label each item taken from the student and retain control of the item(s) until the items is turned over to the police. The principal or their designee shall be responsible for personally delivering dangerous or illegal items to police authorities.

C. Police Involvement in Searches and Interrogations of Students

District officials are committed to cooperating with police officials and other law enforcement authorities to maintain a safe school environment. Police officials, however, have limited authority to interview or search students in schools or at school functions, or to use school facilities in connection with police work. Police officials may enter school property or a school function to question or search a student or to conduct a formal investigation involving students only if they have:

1. A search or an arrest warrant; or
2. Probable cause to believe a crime has been committed on school property or at a school function; or
3. Been invited by school officials; or
4. Are in pursuit of a suspected criminal.

Before police officials are permitted to question or search any student, the building principal or their designee shall first try to notify the student's parent to give the parent the opportunity to be present during the police questioning or search, unless the police indicate that such an interview concerns a student's parent(s) or other household member and it is pursuant to a report regarding suspected child abuse, maltreatment, or neglect.

The principal or designee will also be present during any police questioning or search of a student on school property or at a school function.

Students who are questioned by police officials on school property or at a school function will be afforded the same rights they have outside the school. This means:

1. They must be informed of their legal rights.
2. They may remain silent if they so desire.
3. They may request the presence of an attorney.
4. They must be protected from coercion and illegal restraint.

D. Child Protective Services Investigations

Consistent with the District's commitment to keep students safe from harm and the obligation of school officials to report to child protective services when they have reasonable cause to suspect that a student has been abused or maltreated, the District will cooperate with local child protective services workers who wish to conduct interviews of students on school property relating to allegations of suspected child abuse and/or neglect, or custody investigations.

All requests by child protective services to interview a student on school property shall be made directly to building principal or their designee. The principal or their designee shall set the time and place of the interview. The principal or designee shall decide if it is necessary and appropriate for a school official to be present during the interview, depending on the age of the student being interviewed and the nature of the allegations. If the nature of the allegations is such that it may be necessary for the student to remove any of his or her clothing in order for the child protective services worker to verify the allegations, the school nurse or other district medical personnel must be present during that portion of the interview. No student may be required to remove his or her clothing in front of a child protective services worker or school district official of the opposite sex.

A child protective services worker may not remove a student from school property without a court order, unless the worker reasonably believes that the student would be subject to danger of abuse if the student were not removed from school before a court order can reasonably be obtained. If the worker believes the student would be subject to danger of abuse, the worker may remove the student without a court order and without the parent's consent.

XIV. Visitors to the Schools

The Board encourages parents and other district citizens to visit the District's schools and classrooms to observe the work of students, teachers, and other staff. Since schools are a place of work and learning, certain limits must be set for such visits. The building principal or their designee is responsible for all persons in the building and on the grounds. For these reasons, the following rules apply to visitors to the schools:

1. Anyone who is not a staff member or student of the school will be considered a visitor.
2. During the school day, all visitors must enter through one of two main entrances: Elementary/Middle School flagpole entrance or the High School front door. Visitors must report to the reception desk in the lobby of either the ES/MS or HS. There they will be required to check in where they will be required to provide a valid government issued ID. At that time they will be provided a visitor badge which must

be displayed at all times while in the school or on school grounds. When leaving, the visitor must check out at the same reception desk.

3. Parents or community members who are participating in a classroom activity are required to arrange such visits in advance with the classroom teacher(s) and/or the building administrator, so that class disruption is kept to a minimum.
4. Visitors attending school functions that are open to the public, such as parent-teacher meetings, school performances, athletic events, or public gatherings are not required to register.
5. Observation by the public of a special education class may raise privacy issues related to the identity and programs of classified students. Therefore, the observation of special education programs, services, classes, or activities is limited to observations by parents of their own children and observations by persons whose presence is authorized by the Committee on Special Education (CSE) or the director of special services or designee. All such observations must be scheduled in advance with the building principal or their designee.
6. Teachers are expected not to use class time to discuss individual matters with visitors.
7. Any unauthorized person on school property will be reported to the principal or their designee. Unauthorized persons will be asked to leave. The police may be called if the situation warrants.
8. All visitors are expected to abide by the rules for public conduct on school property contained in this Code of Conduct.
9. Students are not permitted to have guests accompanying them during the school day, without prior permission from the building principal or their designee.

XV. Public Conduct on School Property

The District is committed to providing an orderly, respectful environment that is conducive to learning. To create and maintain this kind of an environment, it is necessary to regulate public conduct on school property and at school functions. For purposes of this section of the Code, “public” shall mean all persons when on school property or attending a school function including students, teachers, and District personnel.

The restrictions on public conduct on school property or at school functions contained in this Code are not intended to limit freedom of speech or peaceful assembly. The District recognizes that free inquiry and free expression are indispensable to the objectives of the District. The purpose of this Code is to maintain public order and prevent abuse of the rights of others.

All persons on school property or attending a school function shall conduct themselves in a respectful and orderly manner. In addition, all persons on school property or attending a school are expected to be properly attired for the purpose for which they are on school property or attending a school function.

5. Intimidate, harass, or discriminate against any person on the basis of actual or perceived race, color, weight, national origin, ethnic group, religion, religious practice, disability, sexual orientation, gender/gender identity, or sex.
6. Enter any portion of the school premises without authorization or remain in any building or facility after it is normally closed.

15. Willfully incite others to commit any of the acts prohibited by this Code.
16. Violate any federal or state statute, local ordinance, or Board policy while on school property or while at a school function.

B. Consequences

Persons who violate this Code shall be subject to the following consequences:

1. Visitors. Their authorization, if any, to remain on school grounds or at the school function or activity shall be withdrawn and they shall be directed to leave the premises. If they refuse to leave, they shall be subject to ejection.
2. Students. They shall be subject to disciplinary action as the facts may warrant, in accordance with the due process requirements.
3. Staff members. They shall be subject to disciplinary action as the facts may warrant in accordance with law.

C. Enforcement

The building principal or their designee shall be responsible for enforcing the conduct required by this Code.

When the building principal or their designee sees or is made aware of an individual engaging in prohibited conduct, the District may initiate disciplinary action against any student or staff member, as appropriate, with the Consequences section above. In addition, the District reserves its right to pursue a civil or criminal legal action against any person violating the Code.

XVI. Dissemination and Review

Dissemination of Code of Conduct

The Board will work to ensure that the community is aware of this Code of Conduct by:

1. Making copies of the Code of Conduct and a summary of the Code of Conduct written in plain language available to all parents and at the beginning of the school year via the District website, and in hard copy upon request, as well as a copy of any amendments to the Code as soon as practical after adoption.
2. Making copies of the Code of Conduct and a summary of the Code of Conduct written in plain language available to all current teachers and other staff members, as well as a copy of any amendments to the Code as soon as practical after adoption.
3. Requiring a full understanding of the Code of Conduct by all district employees.
4. Making copies of the Code available for review by students, parents, and other community members in offices district-wide, and on the school website.

The Board will sponsor an in-service education program for all district staff members to ensure the effective implementation of the Code of Conduct. The superintendent may solicit the recommendations of the district staff, particularly teachers and administrators, regarding in-service programs pertaining to the management and discipline of students.

The Board will appoint an advisory committee to assist in reviewing the Codes. The committee will be made up of representatives of student, teacher, administrator, and parent organizations, school safety personnel, and other school personnel.

The Code of Conduct will be reviewed annually by the Board and updated as necessary under the direction of the superintendent. A Code of Conduct Committee established by the superintendent will facilitate reviews. Changes to the Code of Conduct will be reviewed and approved by the superintendent before submission to the Board. Following submission, the Board will hold at least one public hearing on the revised Code prior to adoption and enactment by the Board.

The District shall post the complete Code of Conduct (with all amendments and annual updates) on the District's website, if available. The Code of Conduct and any amendments to it will be filed with the Commissioner no later than 30 days after adoption.

XVII. Discipline of Students with Disabilities

The Board recognizes that it may be necessary to suspend, remove, or otherwise discipline students with disabilities to address disruptive or problem behavior. The Board also recognizes that students with disabilities are entitled to certain procedural protections whenever school authorities intend to impose discipline upon them. The Board is committed to ensuring that the procedures followed for suspending, removing, or otherwise disciplining students with disabilities are consistent with the procedural safeguards required by applicable laws and regulations.

This Code of Conduct affords students with disabilities subject to disciplinary action no greater or lesser rights than those expressly afforded by applicable federal and state law and regulations.

XVIII. Comprehensive Attendance Plan

Overall Goals of a Pupil Attendance System

The Haldane Central School District is required to record and document the attendance of every student. This document emphasizes the following goals:

- Ensure the maintenance of an adequate record verifying the attendance of all children
- Establish a practical mechanism for the school district to account to parents of all children enrolled at Haldane the whereabouts of their children throughout each school day
- Ensure sufficient pupil attendance at all scheduled periods of instruction and supervised study activities so that students succeed
- Compliance with State Mandates
- Compliance with Federal Mandates

Purpose of the Comprehensive Attendance Policy

The purpose of the policy is to ensure that the District can maintain adequate attendance records on all students. More specifically, the plan will build capacity

- Increase school completion for all students
- Raise student achievement and close gaps in student performance
- Know the whereabouts of every student on campus for safety and other reasons
- Verify that individual students are complying with education laws relating to compulsory attendance
- To identify patterns of behavior that may require school/parental attention
- To inform students and parents of the consequences of unexcused absences

Required Elements of the Comprehensive Attendance Plan

STATEMENT OF LOCAL OBJECTIVES

The Haldane Central School District believes that maintaining adequate student records is critical to its educational mission. In addition, the basis for a sound plan begins with these fundamental premises:

- The best way to learn is to be in school
- Parents must share responsibility in this process
- Faculty and staff must be familiar with the plan

Accordingly, the District adopts this policy to ensure that effective strategies are in place to maximize pupil attendance at all scheduled periods of actual instruction or supervised study activities, so that the District's students have the greatest opportunity to succeed. Furthermore, the District will strive to identify patterns of

absence, tardiness and early departures from school, and in identifying such patterns, to intervene in a manner that will encourage student attendance and discourage unexcused absences.

DESCRIPTION OF STRATEGIES TO MEET OBJECTIVES

The following incentives will be utilized to encourage attendance and to meet the objectives that are illustrated in this policy:

1. A plain language summary of this policy will be available on the District website.
2. Key components of the attendance policy will be included in the “Code of Conduct Summary” and reviewed with students at the start of the school year;
3. The school newsletters and publications will include periodic reminders of the components of this policy.
4. The district will provide a copy of the attendance policy and any amendments to faculty and staff. New staff will receive a copy upon their employment;
5. Copies of this policy will also be available to any community member, upon request and via the District website.

ATTENDANCE CLASSIFICATIONS

Student absences, tardiness, and early departures from class or school are classified as excused or unexcused. The following chart will be consistent for the elementary, middle, and high schools.

Full Day Absences

Students who are absent from school shall be denied the privilege of participating in extracurricular events. Students who are absent from school also run the risk of being denied entrance to extracurricular events. The building principal may grant an exception under certain circumstances.

Excused absences, tardiness, and early departures are attributed to one of the following causes and must be accompanied with written confirmation as specified below:

PARENT NOTIFICATIONS

Absence is considered daily in the Elementary, Middle, and High Schools. The Middle and High Schools also track attendance by individual class.

The following procedures will be used to notify parents of absences:

- a. phone call will be made on each absence, unless the parent calls;
- b. at the conclusion of the first quarter of the school year, if a student has missed 10% of the quarter a letter will be mailed home to parents and a parent meeting will be scheduled with the building administrator or designee. Ongoing monitoring will take place.
- c. after the 20th absence a notification letter will be mailed home and a parent meeting will be scheduled with the building administrator or designee.
- d. Child Protective Services (CPS) may be notified at any point if the building administrator and/or building team deem appropriate.

These absences are cumulative over the course of the year.

DISCIPLINARY ACTIONS

Unexcused absences, tardiness, and early departures will result in disciplinary action consistent with this Code, such as, but not limited to, detention or an in school suspension.

Designated staff member(s) will contact the student’s parents and the student’s guidance counselor. Staff member(s) shall remind parents of the attendance policy, explain the ramifications of unexcused absences, tardiness, and early departures, stress the importance of class attendance and discuss appropriate intervention strategies to correct the situation.

INCOMPLETE GRADES

When a secondary student (grades 6-12) has six excused absences for a given class during a quarter, the teacher will have the option of issuing an incomplete grade for that marking period. The student will be

provided an opportunity to make-up missed work in order to be awarded a passing grade for the quarter. The student will be given two weeks from the end of the quarter to make up missed work in order to receive a passing grade. The building principal, teacher, and guidance counselor will meet to review any extenuating circumstances.

COURSE CREDIT AND ATTENDANCE

In order for a student in the high school or middle school to receive credit for a course, it is necessary for a student to attend regular class meetings. For a full-year course, 20 absences, not including school-related activities such as appointments with school staff or school-sanctioned activities that occur on or off school grounds, may result in loss of credit. For a half-year course, 10 absences may result in loss of credit. The building principal will authorize loss of credit due to absences. An appeal by the student or parent/guardian may be made to the principal.

Any student absence that is properly excused and for which the student has performed any assigned make-up work shall be taken under consideration for the purpose of determining the student's eligibility for course credit.

IDENTIFICATION OF THE PERSON TO REVIEW ATTENDANCE RECORDS AND TO INITIATE ACTION

The building principal or their designee will be responsible for reviewing pupil attendance records and initiating appropriate actions.

The attendance clerks for the school district (K-12) will maintain the attendance records. These clerks will also be responsible for recording daily attendance as reported to them by individual classroom teachers.
