

Parental Notification Regarding Designation of Bathrooms, Locker/Dressing Rooms

SMA students may choose to utilize the restroom/locker room that corresponds to his or her biological sex at birth, or students may choose to utilize the single restroom in the clinic.

All restrooms are monitored by SMA faculty and staff throughout the day. Locker rooms are monitored by a PE instructor while students are dressing out and dressing in, ensuring that all students who choose to use the single-sex locker rooms are separated according to biological sex assigned at birth. Locker rooms are locked when they cannot be monitored.
