

Student Laptop Use Form

Student Name _____

School _____

The Issaquah School District through our local levy dollars will provide a school laptop for every student grades 6-12. Schools will check laptops out to students for the school year during the first weeks of school. The laptops provide students with access to online textbooks, Canvas our Learning Management System, and other digital tools to enhance and support learning. Students are expected to bring the laptop to and from school each day. Students are to use the laptop responsibly as outlined in our student responsible use agreement.

I acknowledge the Issaquah School District's right to charge the full cost for repair or replacement when damage or loss occurs to my student's laptop. I also acknowledge I am responsible for returning the laptop, adaptor, and cord promptly at the end of the school year or when my student is withdrawn - whichever comes first. **Failure to return equipment will result in fines up to \$670.**

Insurance Information

If you would like to purchase optional insurance for your laptop, you may do so through one of the many companies who offer laptop and device insurance online such as **Worth Ave.**

Group (<https://www.worthavegroup.com/product/laptop-insurance/>)

When selecting coverage, please refer to the replacement costs table for the appropriate value of your student device. Device serial number is listed on the equipment.
