

# Strategic Plan Survey Data

**Fox Chapel Area School District | March 2023**

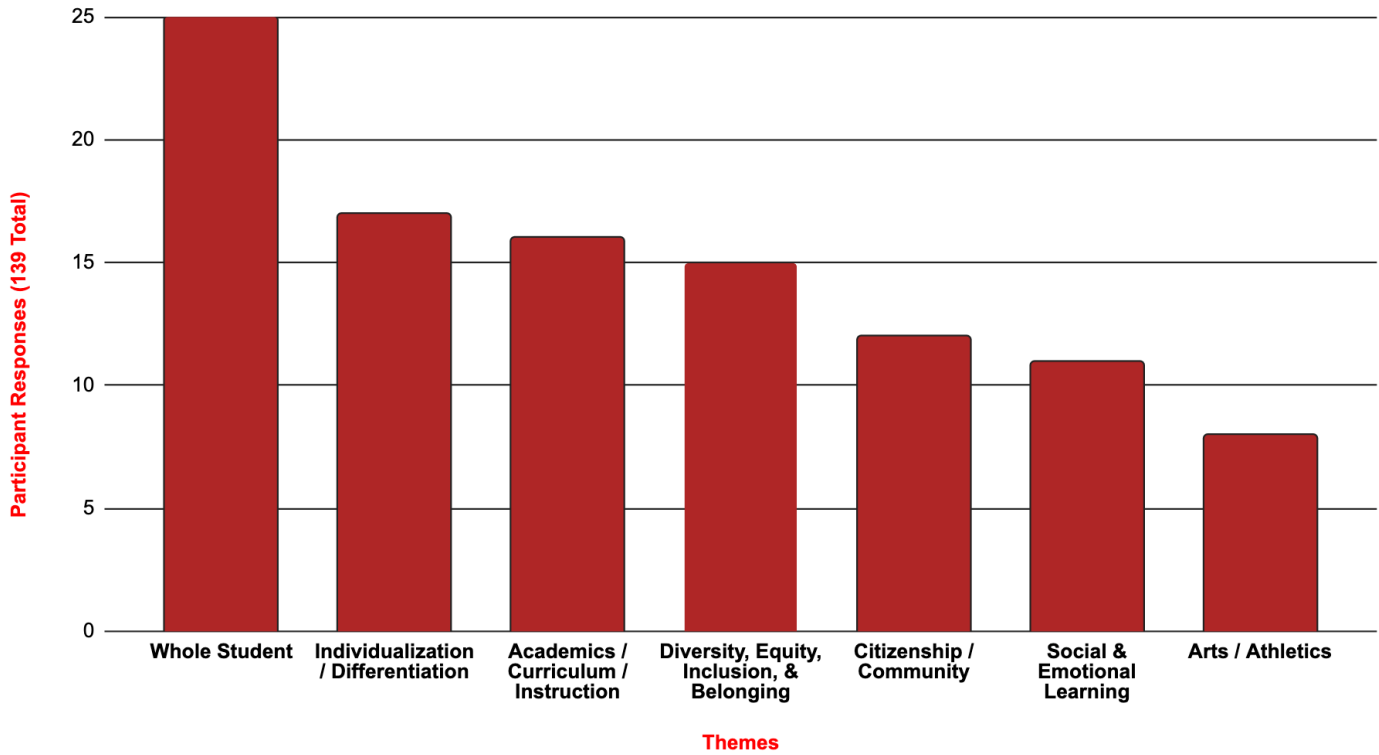

Throughout March of 2023, the Fox Chapel Area School District hosted focus groups to assist in writing a new Strategic Plan. Eight focus group meetings were held and a total of 66 participants (parents, community members, business representatives, and staff members) joined the meetings to provide input into six overarching questions:

- ▶ Question 1: What are the elements of a well-rounded education for students?
- ▶ Question 2: What does it look like for the district to support students' social and emotional well-being?
- ▶ Question 3: What skills and learning will students need in the future?
- ▶ Question 4: A current value of the district's strategic plan is "Diversity of thought, background, and beliefs." What does this mean to you for our school district?
- ▶ Question 5: The district's core values are currently "Respect, Responsibility, and Integrity." What do these look like to you?
- ▶ Question 6: Are there any other items that you would like to share for consideration as the district completes its strategic plan?

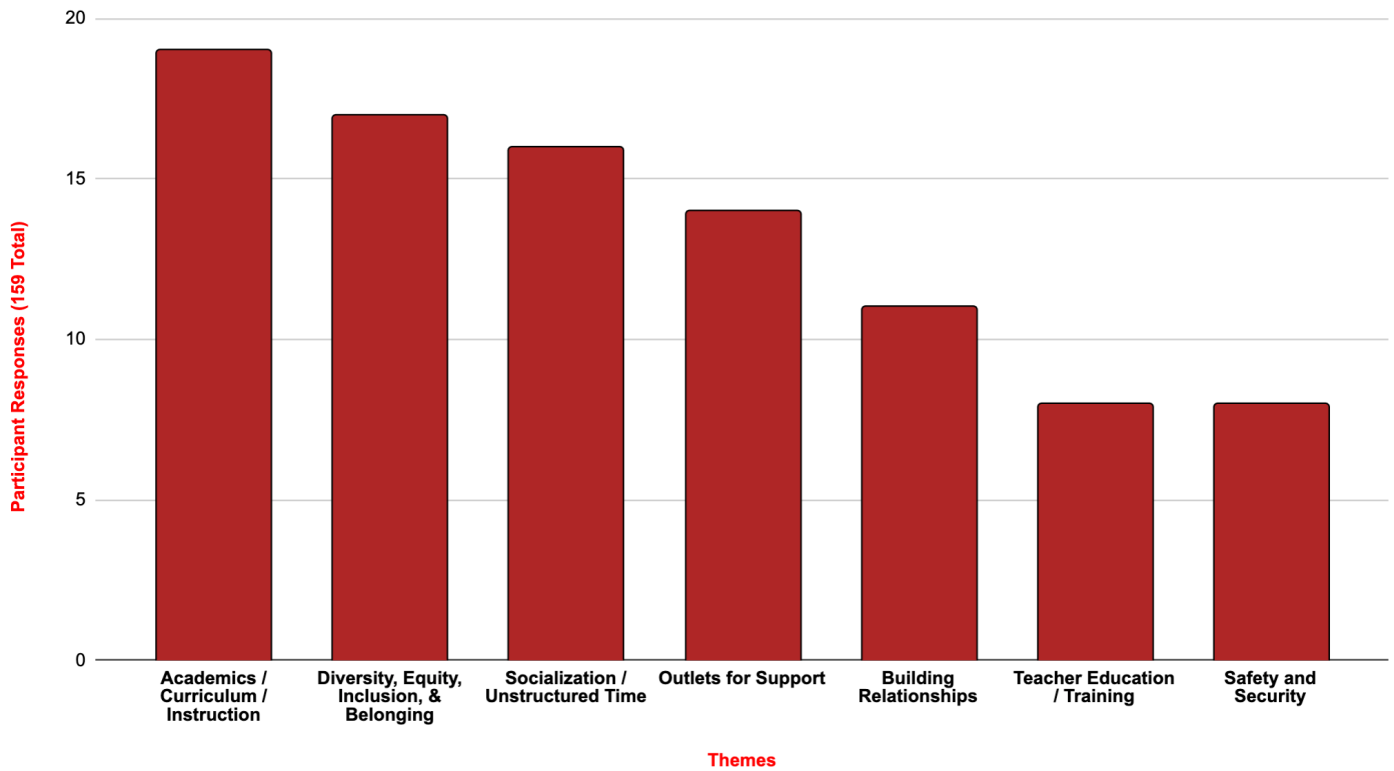

Questions were posed within the focus groups and participant responses were recorded. Participants could respond to any and all questions and participants were able to provide multiple responses to each question. All participant responses were then coded to determine themes that existed within the discussion.

The data below represents the major themes that emerged for each question, but does not include themes that were represented by less than 5% of responses for each question. The themes that emerged also encompass positive, negative and/or neutral representations of each theme.

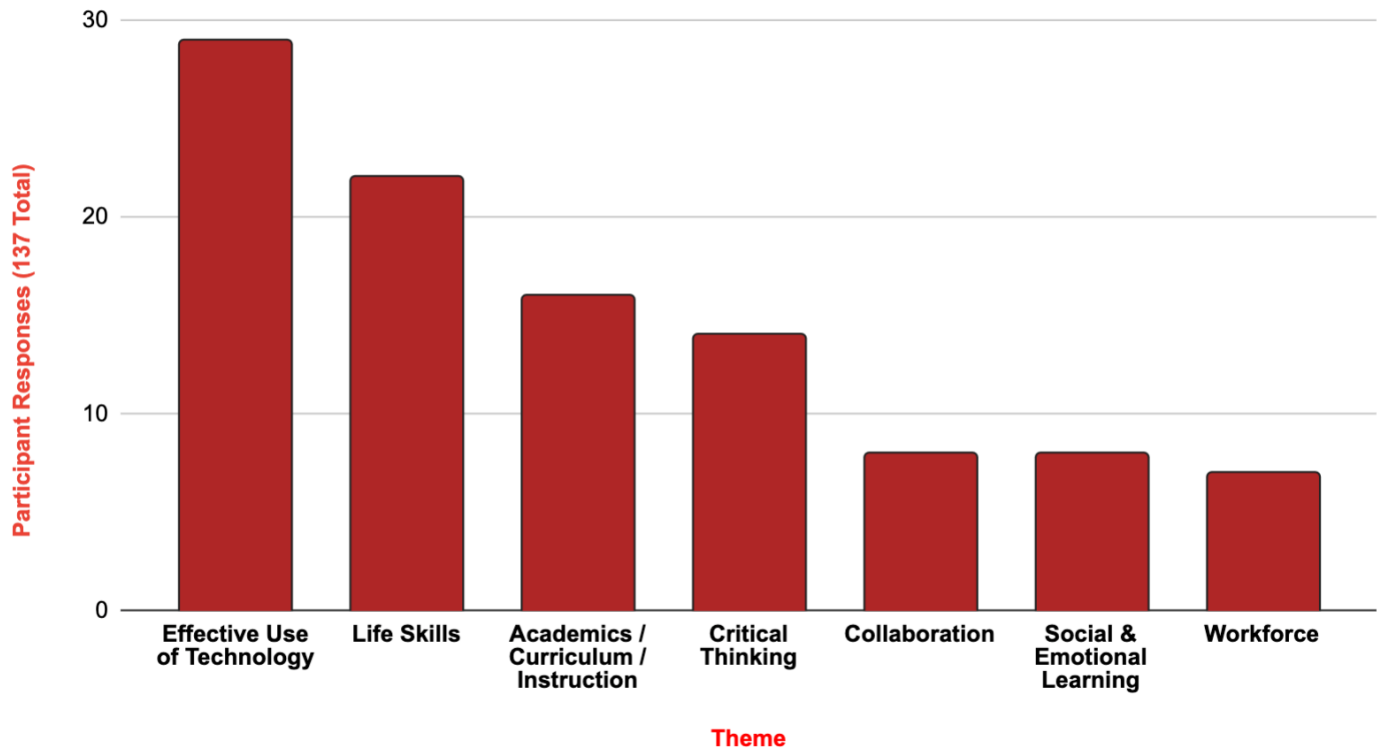

# 1. What are the elements of a well-rounded education for students?

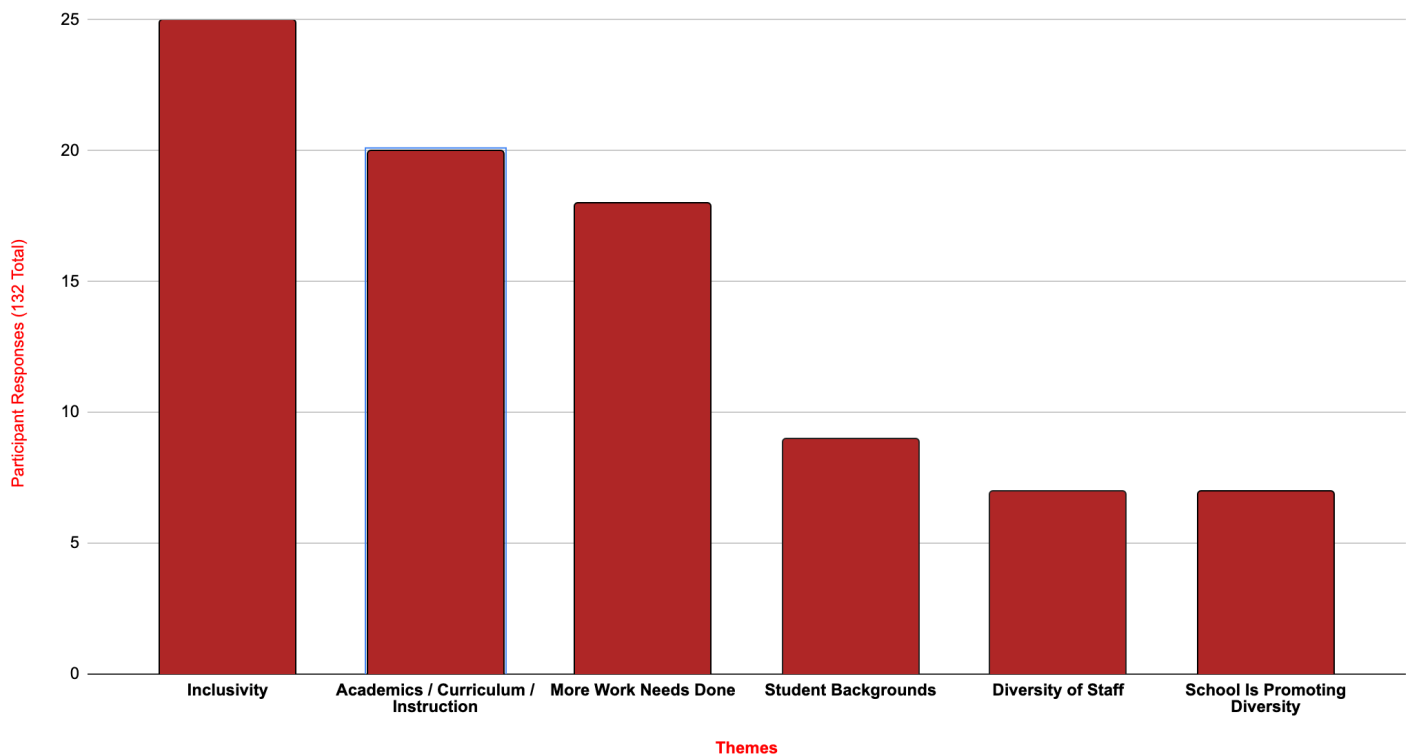

# 2. What does it look like for the district to support students' social and emotional well-being?

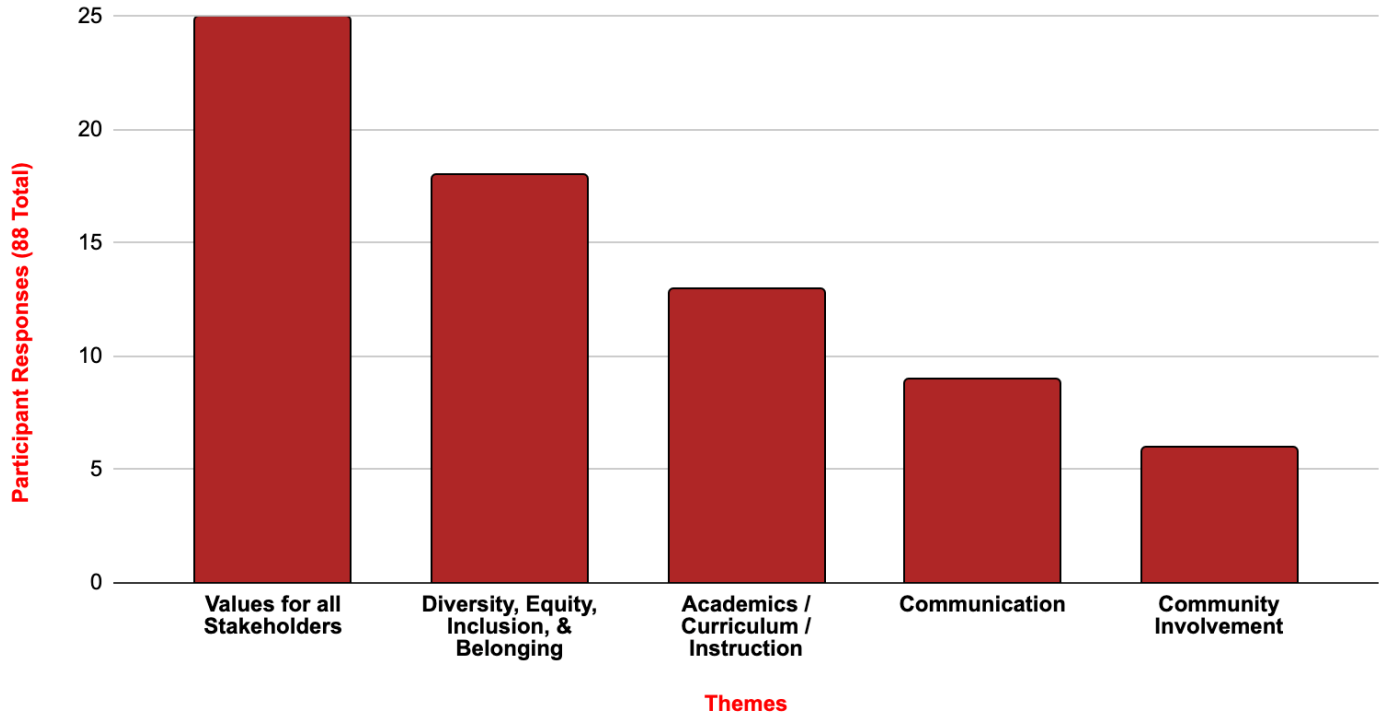

### 3. What skills and learning will students need in the future?

### 4. A current value of the district's strategic plan is "Diversity of thought, background, and beliefs." What does this mean to you for our school district?

**5. The district's core values are currently "Respect, Responsibility, and Integrity." What do these look like to you?**

**6. Are there any other items that you would like to share for consideration as the district completes its strategic plan?**
