Over 5,000 sq. ft.	20% or 1,500 sq. ft., whichever is greater

Please indicate the square footage of living space of the single-family dwelling: _____

Please indicate the proposed square footage of living space of the accessory unit: _____

And its percentage of the size of the single-family dwelling: _____

D. Accessory units are permitted on nonconforming lots, but the structures in which they are located (attached or detached), shall meet the building and/or lot coverage requirements for the district in which they are located.

Please indicate the proposed building and/or lot coverage: _____

E. Accessory units located in the Shoreland Zone must be connected to the public water and sewer system. *Indicate if the accessory unit is located in the Shoreland Zone: YES or NO*

F. In order for an accessory unit to be added to an unsewered lot, the lot must comply with the requirements of the state minimum lot size law, 12 M.R.S.A. §§ 4807 – 4807-G for multiple unit housing as well as all the provisions of the Maine State Plumbing Code and the Town of Scarborough Plumbing Ordinance. The applicant shall have the burden to establish the lot area, which burden may include a survey signed and sealed by a Professional Land Surveyor, at the discretion of the Code Enforcement Officer. The septic system on the property in question shall be functioning properly at the time of application for accessory unit approval.

The building permit and plumbing permit shall indicate how the Plumbing Codes will be complied with (whether the on-site wastewater disposal system will be expanded or a new system added)

G. Proper ingress and egress shall be provided to the accessory unit.

Proper ingress and egress should be shown on the building plans submitted as part of this application. Initials required: _____

H. Only one accessory unit per principal structure shall be permitted on a lot.

Initials required: _____

I. The accessory unit and the principal structure must be serviced by common utility meters, unless the utility company providing the service refuses to do so. Should a utility company be unwilling to service the accessory unit with a common meter, the applicant must provide the Code Enforcement Officer with a letter signed by the utility company so stating, with specific reasons for the refusal.

Please indicate compliance with this requirement or provide a letter from your utility company demonstrating why this isn't possible: _____

J. Accessory units shall retain and respect the existing streetscape, character of the neighborhood, and preserve the single-family appearance, architectural style, and character of the original dwelling and property. Outside stairways (either open or closed) that service accessory units on upper stories are permitted, provided that they are integrated into and consistent with the architecture of the building. Outside stairways serving upper stories shall not be located on the side of the building that faces the street, except in the case of a building on a corner lot that fronts two or more streets, a stairway may be allowed on one of the sides of the building that faces a street if no reasonable alternative exists.

K. All municipal and state buildings codes in effect at the time of application must be followed.

Compliance with local and state building codes shall be demonstrated and reviewed as part of the building permit and inspection process.

L. An applicant for a permit for an accessory unit may also apply to the Zoning Board of Appeals for a limited reduction of yard size under Section V.B.5 of this Ordinance (if the property is eligible) where such reduction is reasonably necessary to allow construction of the accessory unit.

M. Should the owner(s) of the principal structure be found in non-compliance with the standards contained in this section, the non-compliance shall be considered a violation of this Ordinance, and the structure shall revert to a single-family dwelling or the previous use.

Please provide your signature confirming you understand and will comply with the standards for accessory units: _____

N. In order for an accessory unit to be located in a detached accessory structure, the following requirements must be met:

The detached accessory structure must be located no further than 100 feet from the nearest point of the principal structure

Does the location of your accessory structure comply with this requirement: YES or NO

The detached accessory structure must be designed and constructed in the style of a garage, barn, storage building, carriage house, accessory cottage, or similar structure customarily located on the same lot with a single-family residence
