Exhibit 1 – Use of Technology – Chromebook Agreement

Selected students across the district will be issued Google Chromebooks for use in school and at home. This document provides students and their parents/guardians with information about taking care of the equipment, using it to complete assignments, and being a good digital citizen.

Students and their parents/guardians are reminded that use of District Technology is a privilege and not a right and that everything done on any District-owned computer, network, or electronic communication device may be monitored by school authorities. Inappropriate use of District Technology can result in limited or banned computer use, disciplinary consequences, removal from courses, loss of credit, receiving a failing grade, and/or legal action.

To understand the expectations of District 212, students and their parents/guardians are responsible for reviewing the District's Use of Technology Policy (6:235) and corresponding Use of Technology Administrative Procedures (6:235 AP1, 6:235 AP2, and 6:235 AP3).

Ownership of the Chromebook

District 212 retains sole right of possession of the Chromebook. The Chromebooks are lent to the students for educational purposes only for the academic year. Moreover, District 212 administrative staff and faculty retain the right to collect and/or inspect Chromebooks at any time, including via electronic remote access and to alter, add or delete installed software or hardware.

Responsibility for the Chromebook

Students are solely responsible for the Chromebooks issued to them and must adhere to the following:

- Students must comply with the District's Use of Technology Policy (6:235) and corresponding Use of Technology Administrative Procedures (6:235 AP1, 6:235 AP2, and 6:235 AP3) when using their Chromebooks.
- Students must bring their Chromebooks to school every day and make sure it is fully charged. Failure to do so may result in disciplinary action. (Note: A fully charged Leyden Chromebook should last at least 8 hours.)
- Students must treat their device with care and never leave it in an unsecured location.
- Students must keep their device in a protective case or backpack when traveling.
- Students must promptly report any problems with their Chromebook to the Tech Support Internship class (TSI).
- Students may not remove or interfere with the serial number and other identification tags.
- Students may not attempt to remove or change the physical structure of the Chromebook, including the keys, screen cover or plastic casing.
- Students may not attempt to install or run any operating system on the Chromebook other than the ChromeOS operating system supported by the district.
- Students must keep their device clean and must not touch the screen with anything (e.g., your finger, pen, pencil, etc.) other than approved computer screen cleaners.

Responsibility for Electronic Data

The students are solely responsible for any apps or extensions on their Chromebooks that are not installed by a member of the District 212 technology staff. Students are responsible for backing up their data to protect from loss. Users of District Technology have no rights, ownership, or expectations of privacy to any data that is, or was, stored on the Chromebook, school network, or any school-issued applications and are given no guarantees that data will be retained or destroyed.

Copyright and File Sharing

Students are required to follow all copyright laws around all media including text, images, programs, music, and video. Downloading, sharing, and posting online illegally obtained media is against the Use of Technology policy.

Spare Equipment and Lending

If a student's Chromebook is inoperable, the school has a limited number of spare devices for use while the student's Chromebook is repaired or replaced. This agreement remains in effect for loaner computers. The student may not opt to keep an inoperable Chromebook to avoid doing class work due to loss or damage. If a student does not bring his/her Chromebook to school, the student may be required to borrow a device from the school based on the direction from his/her teacher. Disciplinary action may result for failure to bring a fully charged Chromebook to school.

Warranty and Insurance

The District will repair or replace damaged equipment resulting from normal use. All other breakages will be the responsibility of the student to pay for. The District will make its best attempt to purchase replacement parts at the best possible price. Loss or theft of the device is also the student's responsibility and will result in the student being charged the full replacement cost to purchase a new device.

Optional insurance through a third party provider will be available for students and their families to purchase (6:235 E4).
