The policy for the administration of medication to a pupil shall provide that the school nurse shall have the primary responsibility for the administration of the epinephrine. The school nurse shall designate, in consultation with the board of education, or chief school administrator of a nonpublic school additional employees of the school district or nonpublic school who volunteer to administer epinephrine via a pre-filled auto-injector mechanism to a pupil for anaphylaxis when the nurse is not physically present at the scene. The school nurse shall determine that:

- a. the designees have been properly trained in the administration of the epinephrine via a pre-filled auto-injector mechanism using standardized training protocols established by the Department of Education in consultation with the Department of Health;
- b. the parents or guardians of the pupil consent in writing to the administration of the epinephrine via a pre-filled auto-injector mechanism by the designees;
- c. the board or chief school administrator of a nonpublic school informs the parents or guardians of the pupil in writing that the district and its employees or agents or the nonpublic school and its employees and agents shall have no liability as a result of any injury arising from the administration of the epinephrine to the pupil;
- d. the parents or guardians of the pupil sign a statement acknowledging their understanding that the district or nonpublic school shall have no liability as a result of any injury arising from the administration of the epinephrine via a pre-filled auto-injector mechanism to the pupil and that the parents or guardians shall

indemnify and hold harmless the district and its employees or agents against any claims arising out of the administration of the epinephrine via a pre-filled auto-injector mechanism to the pupil.
