R 2464 GIFTED AND TALENTED PUPILS

A. Identification and Selection

The Stafford Township School District is committed to an educational program that recognizes the special needs of the individual student. Students who have superior talents must be provided with the educational experience to develop their abilities.

Any student who has shown superior talents and ability as well as a high level of responsibility and motivation will be recommended to participate in either the QUANTUM, QUEST or ACE program, as appropriate based upon the selection criteria described below.

After school programs are offered by the school district for grades 3, 4, 5 and 6. Students in kindergarten through second grade receive in-class enrichment by the teacher.

B. Selection Criteria

Pupils are selected for the programs utilizing an identification matrix, which includes multiple criteria: test results, report card grades, teacher recommendations, or their talents to perform in art, music and physical education.

Issued: 22 July 2004
Revised: 31 July 2008
