## Elementary NGSS-Aligned Science Kit Training 2023 FALL Schedule

### K-5 Science Cooperative NGSS-Aligned Unit Training

The ESD 105 Science Education Cooperative supports STEM learning experiences for all elementary students in South Central WA with NGSS-aligned *Smithsonian Science for the Classroom* units for grades 1-5 and *Building Blocks of Science* units for Kindergarten.

6 hours of STEM professional development are offered for each unit.

*For more information on Science Cooperative professional development, please contact Luke Matlack at ESD105.*
