

Diabetic Supply List

(Equipment and supplies provided by Parent/Guardian)

Please note that by law (RCW 28A.210.320), your student cannot attend school unless the diabetic orders and supplies are delivered to campus, and an Individual Health Plan is completed with the District RN.

Health Care Provider's Orders (from Diabetic clinic and signed by parent)

- ☐ If your student is completely independent in their diabetes management, the medication at school orders from the endocrinologist must clearly state your student does not require nurse supervision. Note: The staff will *a/ways* assist your student in a low blood sugar emergency, even if they are independent.

Blood Glucose Meter Kit:

- ☐ Plastic container to store all supplies
- ☐ Meter
- ☐ Testing Strips
- ☐ Lancing device with lancets (finger poker)
- ☐ Alcohol wipes, antiseptic wipes, or wet wipes
- ☐ Cotton balls/tissue
- ☐ Extra batteries for glucose meter

Insulin and Supplies

- ☐ Insulin vial with syringes OR
- ☐ Insulin pen with needles (if applicable)
- ☐ Extra pump supplies, such as: (if applicable)
 - ☐ Vial of insulin
 - ☐ Reservoir
 - ☐ Infusion Set
 - ☐ Batteries
 - ☐ Tape
 - ☐ Sof-serter (if applicable)

Low Blood Glucose Supplies

- ☐ Fast Acting Carbohydrate Drinks (apple juice and/or orange juice, soda (not diet or sugar free))
- ☐ Prepackaged snacks such as: crackers, granola bars, apple sauce, dried fruit, pretzels)
- ☐ Glucose tablets, Cakemate gel (not frosting), Glucose gel products (Insta-glucose, Monogel or Glutose)
- ☐ Glucagon injectable or intranasal glucose (per provider's orders)

Protein Snacks

- ☐ Such as: beef jerky, pepperoni sticks, string cheese

High Blood Glucose Supplies

- ☐ Ketone Test Strips
☐ Water bottle

Disaster Supplies

- ☐ Please provide additional 3-day emergency supplies of the above provisions to be available in the event of an emergency and your student is detained at school.
