

2023-24 Technology Agreement Form

Student/Staff Name: _____ Student ID: _____
School: _____ Grade/Room: _____

Purpose

The Sumner-Bonney Lake School District (SBLSD) provides Chromebooks for all students to use at school and at home for educational purposes. Classroom teachers will review classroom and school rules for technology use appropriate to each grade level. In addition, I acknowledge I have read and reviewed the [Responsible Use Procedures for Electronic Resources](#). I understand that my failure to honor the responsibilities outlined may result in discipline and/or restricted access to technology, the Internet, and other electronic media. The Sumner-Bonney Lake School District also provides a [Chromebook & Digital Device Handbook](#) that tells more of our purpose and outlines expectations for students and staff receiving these devices. The Manual also describes the Chromebook maintenance fee and coverage for damage or theft.

One-to-one Acknowledgement and Digital Device Coverage (Assurance)

I acknowledge I have read and reviewed the [Chromebook & Digital Device Handbook](#). I assume responsibility for the care and proper use of SBLSD technology assigned to me. I understand that failure to honor the responsibilities outlined may result in access to technology, the Internet, and other electronic media being denied in the future. Any student/staff misuse of district resources will be subject to disciplinary action outlined in the SBLSD Student Rights, Responsibilities, and Regulations. I acknowledge the [Digital Device Coverage Program \(Assurance\)](#), and understand that if I do not participate in the program I am responsible for the full replacement cost if my devices are damaged or stolen.

DATA SECURITY

The use of district-provided technology requires students/staff to abide by all SBLSD policies and procedures related to the Acceptable Use Procedures for Electronic Resources, local, state, and federal laws. We are confident students/staff will use district technology and network resources responsibly and keep their district-issued devices safe, secure, and in good working order.

The effective use of the Chromebook depends upon the use of additional Google services and other educational software tools deemed appropriate by the district. A list of current SBLSD approved educational tools and services can be found on our [Children's Online Privacy Protections Act webpage \(COPPA\)](#). **The district intends to record live zoom classrooms for educational use, a recording of your child may be visible. Students may receive one-on-one educational services on Zoom.** I provide permission to access these tools and services.
