

ACTIVITIES DEPARTMENT

The Holden R-III School District activities programs are a significant part of the total educational experience available to students. These programs enhance learning in the school and contribute to a positive school climate. Participation in extracurricular activities is strongly encouraged because students learn teamwork, develop physically and emotionally, develop a sense of belonging and enhance their self-image.

Participation in activities is a privilege and differs from a student's right to a general high school education. Rules and regulations governing each of the various athletic programs have been established to ensure fairness to all students and to guarantee that the school image resulting from the students who represent their school is a positive one.

The ultimate purpose of extra-curricular activities is to provide a maximum number of students an opportunity to grow as young adults within the structure and framework of organized and disciplined programs. Extra-curricular activities offer a positive and meaningful experience that will enhance the growth and development of all young men and women who participate. The Holden R-III School District is committed to the belief that participation in interscholastic activities is a PRIVILEGE, not a right.

It is our philosophy to take the best student participants and represent Holden Schools to the highest degree. Successful programs are a by-product of commitment, fundamental skills, preparation, training and strength of character. We will strive for success and to win by developing these traits.
