1. The percentages are first multiplied by a “Coaching Coefficient”.
2. The resulting number is then multiplied by the extra duty base salary (Bachelor’s Base Column, Level 4 of the certified teacher’s salary schedule) to determine the final pay.
3. The years, are years of coaching in the same sport. The Football Coaches would only receive years for the years that they are Football coaches. It would not matter what level the coach has coached at during those years, only that they have coached Football at a High School or Middle School.
4. Coaches entering the district would be allowed a limited number of years on the pay scale. This limit should be the same as the limit for the number of years teaching experience granted for the teacher’s salary scale.

The MSHSAA sponsored activity salaries are derived from this formula: 2023-24 salary (\$35,000) x Coefficient x Experience step %.

Example for a Head football coach with 1 year experience:

$$\text{\$35,000} \times 1.9 \times 10\% = \text{\$6,650}$$
