

What is STEMscopes?

STEMscopes is the online science curriculum used for teaching science in grades K-6.

Cleveland School District Mission and Vision Statements

Mission

Learning is essential
for ALL

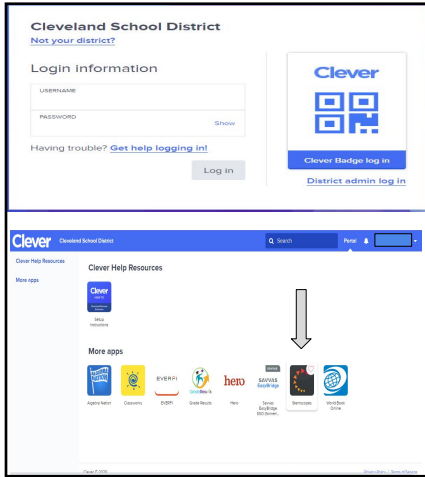

Vision

To develop a community of
lifelong learners who are
productive citizens that
engage in studies that will
enable them to creatively
and effectively learn and
apply information.

Why STEMscopes?

STEMscopes is aligned to the state standards and focuses on student learning through hands-on exploration and inquiry.

Each lesson includes a series of investigations and activities to bring science to life allowing students to “learn by doing” and fully engage in the scientific process.

How does my child login to STEMscopes?

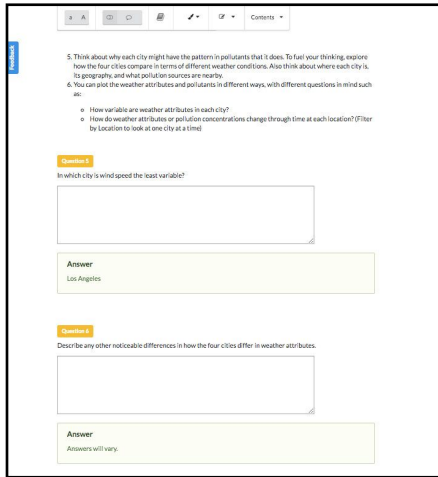

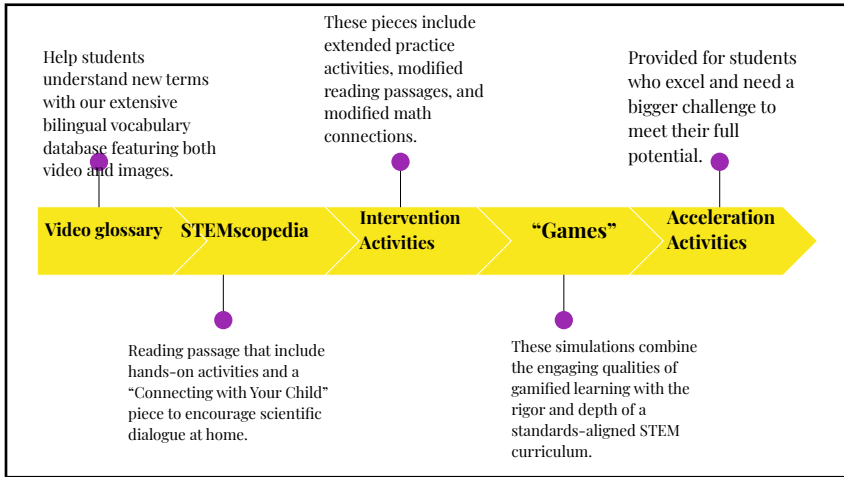

1. Have your student log in to their Clever account. ****The username and password for the student is their MSIS number****
2. Click on the STEMscopes icon to access the website. (gray)
3. Begin working on assignments and submit when done.

How can STEMscopes help me support my child's learning?

STEMscopes provides *always-available resources* that can be accessed at home, including:

- A video glossary
- "Games"
- STEMscopedia
- Intervention activities
- Acceleration activities
