

Dear Upper School parents,

Welcome to Sacred Heart Greenwich! This communication contains important information about our laptop program for the upcoming school year. Sacred Heart Greenwich does not require a particular make or model laptop for students in grades 9 through 12, which means both MacBooks and Windows devices are allowed (Chromebooks, iPad Pro, or other tablets are not allowed).

Minimum Requirements for Mac or PC

Any new 13-inch MacBook Pro (M1 or M2 processor) will meet the minimum requirements. We recommend a minimum of 8GB RAM and a 512GB hard drive. Purchasing three years of AppleCare+ is also recommended. If you opt for a Windows-based PC, we recommend at least Windows 11, 16GB of RAM, and a 512GB hard drive. Any new Intel processor meets the minimum requirements.

Network settings

We will configure new computers to work with our network and printers at the beginning of the school year.

Home printers & other devices

You may install printers, wireless networks, and other devices on your new PC/MacBook.

Internet Filtering

Our Sacred Heart Greenwich network prevents students from accessing inappropriate content on campus. We recommend you consult with your Internet Service provider regarding home filtering options.

Help Desk

For assistance, contact Mr. [T.J. O'Connor](#) at 203.532.3318 during regular business hours. The Help Desk will have staff available to assist you throughout the summer.

Financial Aid

Families receiving financial aid will receive additional order information from the Business Office.

I hope this information addresses your questions about our laptop program. Please do not hesitate to contact me if you have additional questions or concerns.

Sincerely,

Mr. Karl Haeseler

Director of Educational Technology
