## Reports to the Select Board

As a way for everyone's voice to be heard the Select Board would like to continue to provide dedicated time for everyone to brief not only the Select Board but the citizens of Southampton on what you're currently working on. Below are some suggestions based on where you fall.

Please prepare a 5–10-minute presentation/update to be presented and then we will follow that up with a potential 5-minute Q&A.

- What do you see as your number 1 & 2 priority that you are working on for the next 6 months? How will these 2 priorities (projects) make your Department/Committee/Commission and/or town better?
- Any grants applied for/received and how this impacts your budget?
- If you could waive a magic wand and change one thing within your Department/Committee/Commission, what would it be and why would you do that?
- Anything else that you would like to share with the public?

Please note these presentations are not meant to cause stress or additional unnecessary work. They are intended to educate both the Select Board and the citizens on what your Department/Committee/Commission is doing day to day to help make Southampton a better place. Public services is never done for the pay it's done typically out of a true desire to positively contribute to the community we all belong to.
