

Weekly Home Learning

Student Name: _____

Dear Family,

In school this week, we are learning about the ways we can help our community. We are comparing the length and height of objects. We are also meeting Mr. D and learning about his letter and sound. Here are some things you can do at home this week to support your child's learning at school. Happy Learning!

Tip

Show your child how to reuse something instead of throwing it out. For example, turn old socks into puppets, use paper towel tubes for craft projects, and line small trash cans with plastic grocery bags. Explain that reusing items such as these helps your community by reducing the amount of garbage that the community has to deal with.
