

Water is wet!

Written by Cathy Torrisi

AT HOME

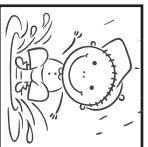

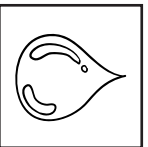

Before reading, ask your child to find the water in each picture and tell how it is being used. Then read the book aloud, alternating pages with your child.

After reading, discuss the ways your child uses water each day. Talk about some ways to save water, such as turning off the faucet while brushing teeth.

Water is wet.

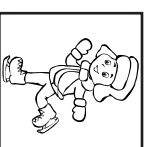

B

fold

You can skate on it.

You can wash with it.

You can swim in it.

You can jump in it.

You can drink it.
