

## Parent Annual Notice 23-24 Academic Standards

The School District of Spencer is committed to ensuring academic excellence in every classroom of every school so that all children perform at high levels and achieve proficiency.

- We work continuously to develop quality curriculum and implement the best instructional practices. Every week, teachers are given opportunities to collaborate with school staff, across grade levels, and with other teachers in the district to work on curriculum issues, with an end goal of providing consistent, quality educational opportunities.
- We believe that children learn in different ways and therefore have made a commitment to offer new and unique learning opportunities to meet the varied needs of our students.
- For the different academic areas, we focus our curriculum development by drawing from many different resources and utilizing the standards as noted:

To help you better understand what students are learning in each subject and grade level, please review:
