Background Information

On November 15, 2016 the Board of Education authorized advertising Requests for Qualifications (RFQ's) for engineering, testing, and inspection services. RFQ's for engineering services were published and 35 proposals were received. A qualifications-based review was performed by a selection committee consisting of 5 staff from the district. The selected firms can be utilized for on-call structural, civil, mechanical, and electrical engineering services for the duration of the Measure X Bond Program, as well as for other projects of the District. The District may update the list of approved engineering firms periodically through the RFQ process. As projects are identified, proposals will be obtained and the agreements will be presented to the Board of Education for approval.

Educational Analysis

The combined experience of these engineering firms will assist the District with implementation of projects that serve to optimize the educational program.

Fiscal Analysis

Approval of the structural, civil, mechanical, and electrical engineering services firms identified in the attached list will provide the District with a cost-effective means to obtain proposals for required engineering services.

Recommendation

It is recommended that the Board of Education approve the attached list of firms for on-going engineering services for Measure X, remaining C4 Bond, and other projects of the District.

On a motion # 136 by Trustee Blough, seconded by Trustee LaBelle and carried by a vote of 370, the Board of Education approved, by roll-call vote, the attached list of firms to provide on-going engineering services for the Measure X Bond Program, remaining C4 Bond projects, and for other projects of the District.
