

E-Bike Safety Course Information

OAK MIDDLE SCHOOL

Greetings Oak Middle School Community -

As of March 2023, we are enforcing e-bike permits for all e-bike riders.

Permits need to be visible on the e-bike as campus supervisors will be checking bikes upon arrival to campus.

Students are able to become certified and receive a permit sticker by attending an in-person E-Bike Safety Course or through the online version of the safety course.

To become certified and receive a permit sticker through the online option, students must do the following:

- 1) Download and review the E-Bike Safety Training Course
- 2) Take the E-Bike Safety Quiz **AFTER** you review the E-Bike Safety Training Course
- 3) Complete the Parent/Guardian and Student Agreement Signature Page
- 4) Turn the completed Agreement Signature Page into the front office
- 5) After school reviews all documents, the office will issue the e-bike permit sticker
