AMAZING EDUCATORS: St. Helens Teacher Instills 'Do-It-Yourself' Skills (Story by Scott Keith)

AMAZING EDUCATORS: Honoring Community Educators Who Are Impacting the Leaders of Tomorrow (Story by Scott Keith)

St. Helens Middle School

St. Helens Middle School students are actively engaged in an investigation to gather evidence as they study a storyline of a student with an unknown illness. They are testing to see what molecules pass through the small intestine using a dialysis tube modeling system.

CURRICULUM ADOPTION

English Language Development Core Adoption Math Adoption

The St. Helens School District is finalizing its Curriculum Resource Adoption for English Language Development and Math adoption materials.

The process begins with teachers applying to be on the teams to begin the adoption work. A wide variety of teachers are selected to represent all schools and grade levels.

Once the teacher experts are assembled, they review the state standards that drive instruction so they can select materials that best fit our community while aligning with state requirements.

The next step in the process is for the team to review best teaching practices and then share those practices with their schools.

Finally, the teams from both the English Language Development Team and the Math Team review the materials with staff input and make final recommendations to the School Board for review and to hear any community comments. Although no adoption is perfect, the English Language Development Curriculum Resource Adoption Team and the Math Team believe these are the best resources available to help students meet state standards.

Pictured: Carrie McCallum (left) & Principal Wagner (right)

You will not find a teacher caring more about her students than Carrie McCallum! The amount of effort and care she shows her students daily is unmatched.

She strives to guide her students toward excellence in whom they can become.

I cannot think of anyone more deserving of this award, and I believe she should get the recognition she deserves for being such a great teacher and role model.

Congratulations, Carrie!

Congratulations

PROMISE OF OREGON

"I am the Promise of Oregon because I want to be a doctor or veterinarian because I like helping people and animals."

The Oregon School Boards Association, a non-profit member services organization based in Salem, founded "The Promise of Oregon" campaign in 2014 to focus attention on the accomplishments of Oregon's K-14 students and the need to adequately fund public education. Through its photographs, videos, and stories, the campaign highlights the aspirations of students and demonstrates their incredible accomplishments and potential.

St. Helens School District will be one of four districts featured in this year's Promise campaign. As a district, this is a huge honor to have our students participate and be featured in this campaign. Districts across the state apply to have their school district recognized, as it is a very competitive campaign with only four districts being chosen to participate. We are so proud to be one of the four districts selected!

Our St. Helens student featured as the "Promise Kid" today is Hailey Holcomb from McBride Elementary.

Congratulations, Hailey!

ST. HELENS SCHOOL DISTRICT

LISTENING SESSIONS

As part of our ongoing efforts to be responsive to our community and gather valuable feedback, the St. Helens School District has scheduled four district listening sessions with Superintendent Stockwell.

The listening sessions are designed to be open-ended without an agenda so that the community may provide feedback about what is going well in the district and what are challenges to overcome.

We hope that you are able to join us at Lewis & Clark Elementary for the third of our four district listening sessions.

THURSDAY, APRIL 6, 2023
