

PLEASANTON UNIFIED SCHOOL DISTRICT

Use of Drug Dogs in High School Parking Areas and Locker Rooms

Pleasanton school campuses are drug free zones. The Pleasanton Unified School District participates in a preventive program in partnership with the Pleasanton Police Department aimed at keeping illegal drugs off of our campuses by employing drug-sniffing dogs in high school campus parking lots and in the student locker rooms. Periodic, random inspections will occur using drug-sniffing dogs in the parking lots of Amador, Foothill, and Village high schools and in locker rooms at the schools. Parking lot searches may include all district parking areas on or adjacent to the high school campuses.

Please be reminded that the District Office campus is a drug-free zone and that vehicles parked in all areas of the Village High School / District Office parking lot are subject to inspection and possible search. The inspections will be of unoccupied vehicles and will occur at a time when classes are in session. Locker room searches also will occur at a time when students are not present.
