

School Climate Professional Learning Opportunities 2023-2024 School Year

PBIS District Coordinator and External Coaches Meetings

These collaborative meetings are designed to bring together School Climate District Coordinators and their External Coaches from across Metro Atlanta. Facilitated by Metro RESA’s School Climate Specialists, meetings consist of state guidance, professional development, and coaching on various school climates initiatives with a particular focus on PBIS implementation. Group participants have opportunities to provide input on agenda topics. The meetings are stimulated through group sharing. Networking and collaborating bring success to all involved.

Meetings are held three times a year from 9:30 am to 12:00 pm, with additional opportunities to gather throughout the year as requested by the group. The first hour of each meeting (8:30 am – 9:30 am) is designed as *Collaboration Hour* providing targeted support for two specific groups: 1) New District Coordinators and 2) GNET Support Staff. However, all others are welcome to come early and utilize the time for optional, self-initiated networking and discussion. The meeting dates for the 2023-2024 school year are:

Meeting	Date	Time	Location

School Climate and Whole Child Support Trainings/Workshops

While Metro RESA works with District Coordinators to accommodate most of the professional learning and training needs within school districts, we also offer a small number of trainings through our agency which can accommodate educators across districts. These trainings are particularly helpful for districts who have only a few schools requesting various content, and do not have enough to conduct a full training within the district or for schools who were unable to attend a training offered in district due to scheduling conflicts. We also welcome individual participants who are looking to build their own knowledge, or school teams looking to build capacity in a particular area.

Trainings are offered either virtual or in-person, please note the location to determine the delivery mode. Each person wanting to participate in the class will need to register on Metro RESA’s website using the corresponding link for the training. Registration typically closes one-week prior to the training, but some classes may close earlier. Please refer to the description at registration for details. Those registered will receive training details (materials, virtual meeting link if applicable, etc.) at least 48 hours prior to the event.
