

2019 Wellness Policy Updates

The wellness committee met many times in the 2018-19 school year. The committee closely analyzed the survey and its results, and updated the survey based on the committee's findings.

Building principals will administrate the baseline survey in early fall 2019. This will give administrators a framework for implementing building initiatives for the 2019-2020 school year.

The wellness committee is developing a web page for principals, which will serve as a resource for ideas, announcements, and activities. The website will be updated monthly. Some of these activities will be in partnership with St Mary's and Mercy Elite.

We look forward to the implementation in 2019-2020.
