MANAGING FOOD ALLERGIES AND SAFETY

Allergen Labeling

Our Registered Dietitians review every ingredient used in our recipes and tag any menu item that contains one or more of the top 12 allergens:

wheat

gluten

eggs

fish

milk

sesame

soy

shellfish

peanuts

tree nuts

mustard

sulfites

Nut-Free Policy

We don't serve peanut or tree nut products or purchase items manufactured in facilities with peanuts or tree nuts unless a client specifically requests them.

Safety Protocols

SAGE Managers and Team Members complete thorough food safety training and follow strict protocols for food storage, preparation, service, and cleanup. In addition, Managers check all product deliveries and keep records of product labels.

PROVIDING NUTRITION GUIDANCE

Our **All Foods Fit** nutrition philosophy encourages community members to focus on how food supports us holistically, including the physical, social, emotional, mental, and cultural aspects. All Foods Fit aligns with the **SAGE Spotlight Program®**, which guides community members on building nutritionally balanced plates and fosters a positive relationship with food.

PRACTICING SUSTAINABILITY

We partner with our community to develop innovative solutions that benefit people and the planet. This includes teaming up with **eco-friendly vendors** and **local farmers**, as well as helping **reduce food waste** through our **U+SAGE™** program. On average, 40% of our purchases are manufactured, produced, or grown within 150 miles of where we serve them.

We can't wait to serve you!

Sincerely,
Your SAGE Team
