Parking Lot Procedures

Entering and leaving our parking lot:

The only entrance into our parking lot is the second driveway on Aspen Street. The first driveway is an exit only.

Please note that our parking lot backs up when the light at Canyon View and Aspen is red. Your patience is appreciated.

When you are in our parking lot:

You have two options once you enter our parking lot. You may either park your car or drive through our traffic circle. Both of the procedures are the same for arrival and dismissal. There are a limited number of spaces, and you may need to park on the street. There is a cross walk on the south and east sides of the parking lot. Please do not motion your child(ren) to walk across the parking lot to meet you at your car. Our crosswalks are supervised by a teacher for your child's safety.

Students waiting to be picked up will wait at the front of the drop off lane on the sidewalk in the designated area.

Please pull as far forward as possible along the curb for drop off and pick up. Do not leave your vehicle to meet your child after school. It's important for cars to continue moving forward to keep traffic flowing. Because we have several busses dropping off and picking up, please do not stop along the red curb in front of the office and kindergarten playground. The bus cannot get through, thus backing up the whole parking lot.

Other General Reminders:

Staff members are stationed at arrival and dismissal time to assist you and your child. Please follow their instructions.

Parents will be asked to say goodbye to their student(s) at the gate. The only gate that children will be entering and exiting is the gate located between lunchroom and the 40's building.

For your child's safety, gates are locked immediately after the bell rings in the morning. Students arriving late need to go through the front office. School starts at 8:10 AM.

Lastly, please be patient. The above procedures are intended to help you get your child to and from school safely. The first couple of weeks are especially important because we are trying to establish a pattern. Your support is essential for our overall success.

**If you are interested in volunteering in the morning with arrival procedures, please let us know. The more eyes we have out there, the better! Safety is our number one priority.
