

## Grade 1 - 3 Summer Reading Suggestions

Listed below are some **suggestions** for summer reading for your daughter. Students should be reading every day, and in the summer when there is less structured time, reading is a wonderful skill that all students can enjoy! It is suggested that each student read at least 5 books at their reading level this summer. Depending on your daughter's reading level, these books are meant to be read aloud or read along with your daughter, **not necessarily read independently**. Please encourage your daughter to read **any** books that interest her. We also encourage you to visit a bookstore and/or public library as they promote summer reading. The following websites will give you many choices: <http://www.readkiddoread.com>, [www.storylineonline.net](http://www.storylineonline.net).
