Extended Day Care/Library-Study Hall

Grades M3-6 • August - June

The activities planned in our Extended Day Program for our students support the philosophy and culture of the morning program. The Program stimulates students' social, physical, and intellectual abilities through participation in activities with their school peers. Montessori students have an opportunity to socialize with their friends and engage in age appropriate activities such as: games (board, card, etc.), arts and crafts, music, stories, puzzles, reading, and outdoor recreational play, all under the guidance of our experienced After School staff. Primary and Intermediate students work in a monitored quiet safe environment in which each student can concentrate on completing daily or weekly assignments. Students can work individually or in groups according to their needs. The After School staff is present to answer and/or clarify questions that may arise as well as to ensure that students always stay on task. Once homework is completed students are encouraged and invited to participate in outdoor/indoor recreational activities, art projects, free play and mind games promoting harmonious group interaction and social time with classmates.
