

AHERA Annual Notice

TO: Parents, Guardians, and School Employees

FR: Scott Logan, Maintenance Supervisor

RE: Asbestos Management Plan 2023-2024 School Year

This notice is being issued to inform concerned individuals. The Pendleton County Board of Education meets both National and State regulations that relate to asbestos-containing building materials (ACBM).

An inspection for building materials that contain asbestos has been completed for all buildings owned, leased or otherwise occupied by the Pendleton County Board of Education. A certified inspector has conducted this inspection and an accredited laboratory evaluated the material samples. Building materials with as little asbestos as one percent (1%) have been identified and made part of the Asbestos Management Plan.

A complete Asbestos Management Plan for the school district is on file at the Pendleton County Board of Education Office. A copy is also available for each individual school at the respective school's office.

We will continue to notify the public at least once each year on the status of the Asbestos Management Plan. Should it be necessary, more frequent updates will be issued from additional inspections, normal surveillance practices, response actions or remodel work that might disturb asbestos building materials. Every precaution will be used to protect the well being of students and employees of the Pendleton County School System.
