Pathways to engineering

Forge a new path to a brighter future in this *selective* Engineering Technology Program where you earn a high school diploma and a college degree at the same time. Apply as a sophomore for your Junior year.

Minimum Prerequisites

- 3.0 GPA overall
- "B" in all academic subjects
- Junior standing 2018-19
- 90% attendance at high school
- Completion of at least two years of credit in English, math (including Algebra I) and science
- College-level placement on the Accuplacer or ACT
- No behavioral violations
- Health and Physical Education credits completed
- *Two years of a high school level foreign language is recommended.

Application Steps

- Obtain and complete application materials by visiting zanestate.edu/pathways-engineering online.
- Give the two recommendation forms to your teachers. One must be a math and/or science teacher.
- Type a 200-300 word essay about why you are interested in this program and in the engineering field.
- To ensure a complete application, submit all materials to your guidance counselor by April 2, 2018. Teachers must submit the recommendation forms directly to the guidance counselor. Ask your counselor to include your transcript.
- Call to schedule an Accuplacer test. This free test assesses skills in writing, reading, arithmetic and algebra.
