Acceptable Use Guidelines *Student Acceptable Use of Technology Resources*

Note: The District's terms for acceptable use of the District's technology resources are available on the [District's website](#).

You are being given access to the District-provided technology resources listed below.

With this educational opportunity comes responsibility. It is important that you and your parent or guardian read the applicable District policies, administrative regulations, and agreement form, and contact the Director of Technology Services at 281.324.1871 if you have questions. Inappropriate use of the District's technology resources may result in revocation or suspension of the privilege to use these resources, as well as other disciplinary or legal action, in accordance with the Student Code of Conduct and applicable laws.

The following guidelines apply to all District networks, email accounts, devices connected to the District's networks, and all District-owned devices used on or off school property, whether connected to the District's network or connected through a personal data plan or other means of access.

Additionally, the District prohibits bullying or harassment through electronic means regardless of the device used, the network used, or the location of use. [See District policies FFH and FFI.]

You are being given access to the following technology resources:

- A District email account;
- A District email account, including access to cloud-based (online) document storage and collaboration space (*for example, Google Apps for Education*);
- District computer hardware, software, and printers on your school campus;
- District networks, including document storage space;
- Access to District-owned technology resources for use at home;
- A student account to the following online, web, or software applications: LMS, Eduphoria, etc; and

Please note that the internet is a network of many types of communication and information networks. It is possible that you may run across areas of adult content and some material you (or your parent or guardian) might find objectionable. While the District will use filtering technology to restrict access to such material, it is not possible to absolutely prevent such access. It will be your responsibility to follow the rules for acceptable use.

If you are being issued a District-owned technology device, you will be given additional materials addressing the proper use, care, and return of these devices.
