Dear Parents and Students of JCEP:

First, let me thank you for your support and understanding during the transition of your student. I would like to thank our SMPSD students, parents, guardians, employees, and other stakeholders as we transition into the reshaping of the design for JCEP students. This year may be handled academically and virtually with different designs in mind. However, we must be proactive and be prepared during these ever-changing times to continue educating our students if and when circumstances change. Student and parent commitment are going to be necessary in making this transition a success.

Let me further express to you how I look forward to working with you another year at the Juvenile Continuing Education Program. We have a dedicated staff that will focus on character building, providing a safe and nurturing environment for the students, direct instruction to increase students' levels of achievement and challenging, yet exciting opportunities for enrichment. JCEP understands that growth is continuous and that consistency is necessary when reviewing progress. As part of this process we must begin with the end in mind a lasting relationship being built with parents, students, stakeholders, and community partnerships.

I anticipate a successful school year as my team and I will support the academic, emotional, and social growth of the students here at the Juvenile Continuing Education Program. During the course of the school year, it is my hope that we will work together for a common solution, student growth. If at any time you have questions, concerns, suggestions, or ideas to make this school year the best ever feel free to make an appointment.

The purpose of the JCEP Student Handbook is to explain what is expected of students and parents during the school year. This handbook provides information on the guidelines and procedures adopted by the Saint Martin Parish School Board and the JCEP staff. Parents and students should read the JCEP Handbook carefully to be prepared for the 2023-24 school year.

Thank you for your support in the upcoming school year.

Chicora James
Assistant Principal
Program Administrator

Introduction

It is the belief of the Saint Martin Parish School Board that the educational needs of all students must be met. Therefore, students who cannot succeed in the regular academic program due to social/behavioral problems are placed in an alternative program designed specifically to meet their unique needs. Students who have been recommended for expulsion or an intervention from the schools in Saint Martin Parish are assigned to the Juvenile Continuing Education Program (JCEP) after a hearing with the Supervisor of Child Welfare and Attendance or designee and the approval of the Saint Martin Superintendent.

School Mission Statement

To provide a safe and caring environment where students with educational and social exceptionalities can develop the best skills and character necessary to rejoin their communities with success.
