

CyberSecurity Training

A large, dark blue, diagonal graphic element that starts from the bottom left corner and extends towards the top right corner, covering the lower half of the slide.

What is KnowBe4?

View this short video explaining what the platform's purpose is.

<https://www.knowbe4.com/about-us/>

Your email filters have an average **7-10% failure rate**, you need a strong human firewall as your last line of defense.

KnowBe4 is your platform for new-school **security awareness training**. We help you keep your users on their toes with security top of mind. With this integrated platform you can train and phish your users, see their Phish-prone percentage™ improve over time and get measurable results.

You get on-demand, interactive, engaging training through the browser combined with unlimited simulated social engineering attacks through email, phone and text.

Each user in our district will be required to complete periodic trainings.

Initially we will begin with the requirement that all employees view an assigned 15 minutes video and answer five questions that follow the video.

We will provide additional assessments and informational videos for completion and viewing at the beginning of the 2021-2022 school year.

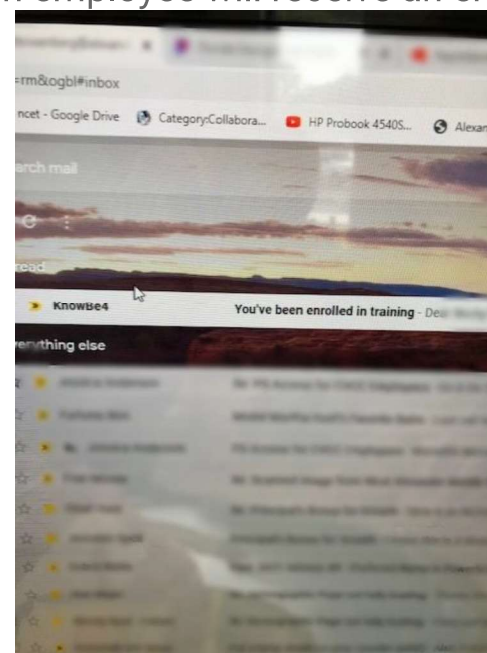

The completion of these trainings is a requirement for the district to meet Cybersecurity expectations for our insurance company as well as the North Carolina Department of Information Technology.

# KnowBe4

Human error. Conquered.

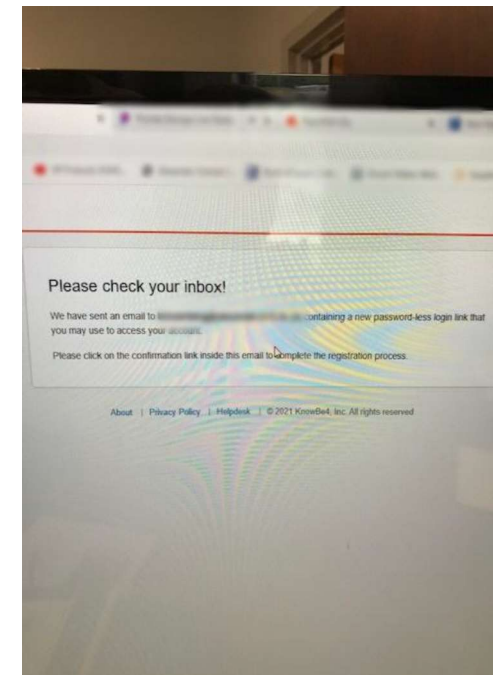

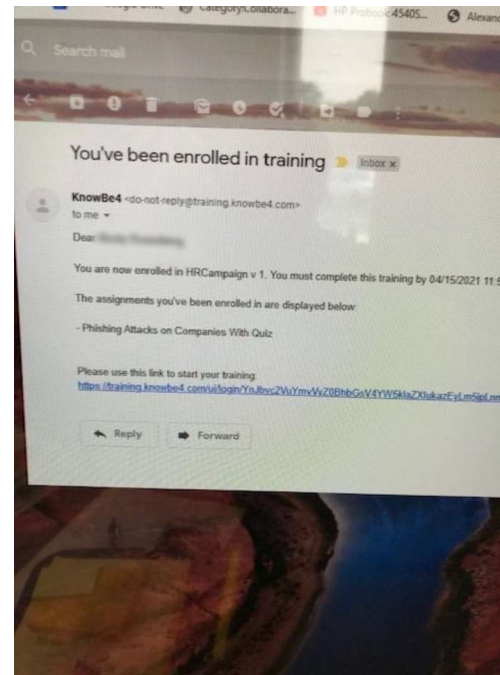

To register with KnowBe4 and complete the initial required training, please follow the instructions provided in this presentation.

Step 1: Each employee will receive an email: Open this email.

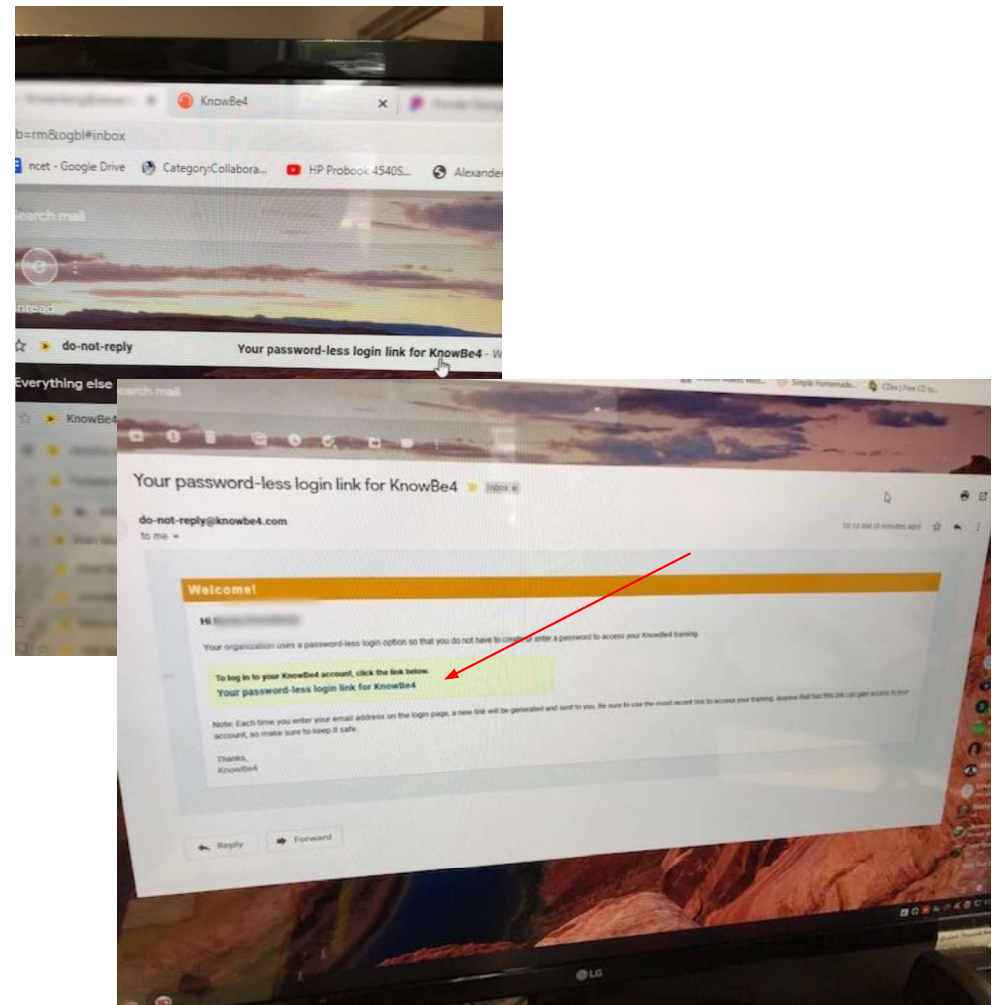

Step Two: Click on the link provided in the email:  
You will be presented with the second message to check your inbox.

# KnowBe4

Human error. Conquered.

Step Three: You will receive another email from KnowBe4: Open the email, click the blue link

Step 4: User is presented with Welcome Message. Choose Skip Tour and then at next screen, choose Go To Training
