

Why Public School?

"It is important to me that my child get to know children from other backgrounds and ethnicities. I believe it will make her a more empathetic and well-rounded person."

Aisha Little-Parent

Landon and Crystal Graybeal

Teachers have the choice to make more money teaching somewhere else, or to leave education and do something totally different with more respect from society, but lots of public school teachers choose to remain in the profession. I believe most the them are there because they truly have a heart for their students and what they do.

Jessica Herrera Salinas (pictured with parents Abigail Salinas Trejo and Jesus Herrera) is honored by ACS school board for a national Beta Club award.

Elizabeth and Virginia Walker

What I like about my child's school...

“Everyone is so helpful and kind. I like the fact the teachers are fair and don't put up with bullying.”
