

# 10TH GRADE ELA-READING

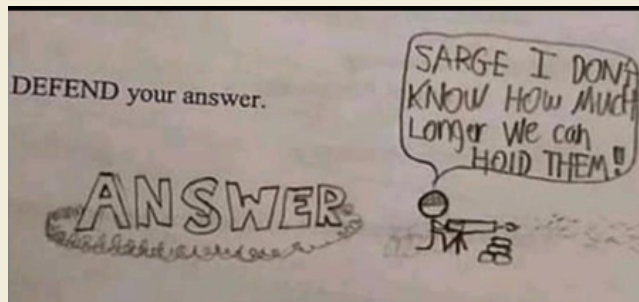

Students are exposed to many different genres for students to create arguments and analysis of text.

- Students begin the year studying word choice to defend arguments and debates

- Students will analyze characterization, theme, plot and setting to connect literature across time periods

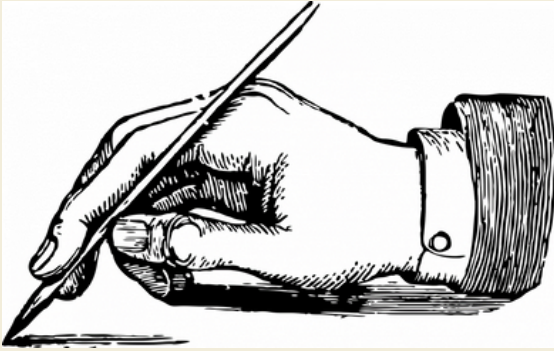

- Students will read informational text to defend and challenge claims from different writers

- Students will delve into the world of drama and how figurative language and author's purpose drive the narrative

# 10TH GRADE- WRITING

- Students will compose arguments and take a stance through debates.

- Student will create a literary analysis to connect to their text and a short story

- Students will create annotated bibliographies through research and present a solution to an environmental conflict

- Students get creative with their writing with poetry, story-telling and performances
