Introduction

The collection, use, and sharing of student data has both benefits and risks. Parents and students should learn about these benefits and risks and make choices regarding student data accordingly.

Students' and Parents' Rights

A student owns their personally identifiable student data. A student may download, export, transfer, save, or maintain the student's data, including a document.

If there is a release of a student's personally identifiable student data due to a security breach, Park City School District (PCSD) will notify the student (if the student is an adult student) or the student's parent or legal guardian.

PCSD retains and disposes of student records in accordance with Section 63G-2-604 of the Utah Government Records Access and Management Act, Section 53E-9-306 of the Student Data Protection Act, and complies with active retention schedules for student records per Utah Division of Archive and Record Services.

In accordance with Utah Code Section 53E-9-306 and applicable rules adopted by the Utah State Board of Education, PCSD will expunge stored student data upon request of the student if the student is at least 23 years old. PCSD will adhere to applicable law and USBE rules governing what data may and may not be expunged.
