## 12. Superintendent's Report

Unfortunately, we saw historic flooding yesterday in our county. Our district is working to identify students and employees who have needs from this flooding so we can begin the work of providing support and resources. The flooding did not cause any new issues to our facilities and grounds that we are aware of at this point. The volume of rain will have a slight impact on the work at the MS, specifically with the paving of the front entrance. The contractor is hopeful this can still be done by August 1, but it is possible this work takes an extra few days.

Earlier this month, we held our New Student Registration, and we registered a total of 118 students that day. We are very pleased with this number.

We have summer learning at Symsonia and Central taking place this week and next. This will wrap up our summer learning program for this year. We also have several PD sessions that have been taking place and several more for the upcoming days. Our employees are working diligently to ensure we are ready to welcome students back to school on August 10.

## 13. Public Comments -Ricky Ladd and Jo Anna Schroer

## 14. Review Personnel Report-Certified and Classified

Board members reviewed the personnel report--No action taken.
