

Perry Parent Lunch Guest Guidelines

1. Only the adults listed as “Guardians” in Skyward are permitted to decide which adult guests may have lunch with their student/s.
2. Parents/adult guests must check-in at the office, go only to the cafeteria area for lunch, and report back to the office immediately after lunch. *(Parents/guests are not permitted to other areas unless they are signed in as a volunteer for specific tasks.)*
3. Parents/adult guests must sit at the parent table for lunch.
4. Students and parents at the parent table may not invite other students to the parent table because other students cannot have lunch with adult guests who are not listed as their “Guardian” (unless the guardian has given the school written permission.)
5. Guardians may bring adult or non-school age-child guests along with them for lunch. Guardians may not bring school-aged children as lunch guests.
6. Guardians may give written permission to our office for other adult guests to have lunch with their children *(family members, family friends, youth pastors, coaches, other students’ parents, etc... – need volunteer back ground checks completed first.)*

This is our attempt to welcome more parents and adult guests to our lunches while keeping all other parents confident that their children are safe in our care during lunches. Thanks for following these guidelines. Let us know if you have questions or concerns.
